Notes to Condensed Consolidated Financial Statements
(unaudited)

1. Business Overview

BlackRock, Inc. (together, with its subsidiaries, unless the context otherwise indicates, "BlackRock" or the "Company") provides diversified investment management services to institutional clients, intermediary and individual investors through various investment vehicles. Investment management services primarily consist of the management of equity, fixed income, multi-asset, alternative investment and cash management products. BlackRock offers investment products in a variety of vehicles, including open-end and closed-end mutual funds, *iShares*[®] exchange-traded funds ("ETFs"), collective investment trusts and separate accounts. In addition, BlackRock provides market risk management, financial markets advisory and enterprise investment system services to a broad base of clients. Financial markets advisory services include valuation services relating to illiquid securities, dispositions and workout assignments (including long-term portfolio liquidation assignments), risk management and strategic planning and execution.

On June 30, 2013, The PNC Financial Services Group, Inc. ("PNC") held 20.8% of the Company's voting common stock and 21.8% of the Company's capital stock, which includes outstanding common and non-voting preferred stock.

2. Significant Accounting Policies

Basis of Presentation. These condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") and include the accounts of the Company and its controlled subsidiaries. Noncontrolling interests on the condensed consolidated statements of financial condition include the portion of consolidated sponsored investment funds in which the Company does not have direct equity ownership. Significant accounts and transactions between consolidated entities have been eliminated.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Certain financial information that normally is included in annual financial statements, including certain financial statement footnotes, is not required for interim reporting purposes and has been condensed or omitted herein. These condensed consolidated financial statements should be read in conjunction with the Company's consolidated financial statements and notes related thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012, which was filed with the Securities and Exchange Commission ("SEC") on March 1, 2013 ("2012 Form 10-K").

The interim financial information at June 30, 2013 and for the three and six months ended June 30, 2013 and 2012 is unaudited. However, in the opinion of management, the interim information includes all normal recurring adjustments necessary for the fair presentation of the Company's results for the periods presented. The results of operations for interim periods are not necessarily indicative of results to be expected for the full year.

2. Significant Accounting Policies (continued)

Fair Value Measurements.

Hierarchy of Fair Value Inputs. The provisions of Accounting Standards Codification ("ASC") 820-10, *Fair Value Measurements and Disclosures* ("ASC 820-10"), establish a hierarchy that prioritizes inputs to valuation techniques used to measure fair value and require companies to disclose the fair value of their financial instruments according to the fair value hierarchy (i.e., Level 1, 2 and 3 inputs, as defined). The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

Assets and liabilities measured and reported at fair value are classified and disclosed in one of the following categories:

Level 1 Inputs:

Quoted prices (unadjusted) in active markets for identical assets or liabilities at the reporting date.

- Level 1 assets may include listed mutual funds (including those accounted for under the equity method of accounting as these mutual funds are investment companies that have publicly available net asset values ("NAVs"), which in accordance with GAAP, are calculated under fair value measures and the changes are equal to the earnings of such funds), ETFs, listed equities and certain exchange-traded derivatives.

Level 2 Inputs:

Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities that are not active; quotes from pricing services or brokers for which the Company can determine that orderly transactions took place at the quoted price or that the inputs used to arrive at the price are observable; and inputs other than quoted prices that are observable, such as models or other valuation methodologies. As a practical expedient, the Company relies on the NAV (or its equivalent) of certain investments as their fair value.

- Level 2 assets may include debt securities, bank loans, short-term floating rate notes and asset-backed securities, securities held within consolidated hedge funds, certain equity method limited partnership interests in hedge funds valued based on NAV (or its equivalent) where the Company has the ability to redeem at the measurement date or within the near term without redemption restrictions, restricted public securities valued at a discount, as well as over-the-counter derivatives, including interest and inflation rate swaps and foreign currency exchange contracts that have inputs to the valuations that generally can be corroborated by observable market data.

Level 3 Inputs:

Unobservable inputs for the valuation of the asset or liability, which may include non-binding broker quotes. Level 3 assets include investments for which there is little, if any, market activity. These inputs require significant management judgment or estimation. Certain investments that are valued using a NAV (or its equivalent) and are subject to current redemption restrictions that will not be lifted in the near term are included in Level 3.

- Level 3 assets may include general and limited partnership interests in private equity funds, funds of private equity funds, real estate funds, hedge funds and funds of hedge funds, direct private equity investments held within consolidated funds, bank loans and bonds.

[Table of Contents](#)

2. Significant Accounting Policies (continued)

Fair Value Measurements (continued)

- Level 3 liabilities include borrowings of consolidated collateralized loan obligations (“CLOs”) valued based upon non-binding single-broker quotes.
- Level 3 inputs include BlackRock capital accounts for its partnership interests in various alternative investments, including distressed credit hedge funds, real estate and private equity funds, which may be adjusted by using the returns of certain market indices.

Significance of Inputs. The Company’s assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the financial instrument.

Valuation Techniques. The fair values of certain Level 3 assets and liabilities were determined using various methodologies as appropriate, including NAVs of underlying investments, third-party pricing vendors, broker quotes and market and income approaches. Such quotes and modeled prices are evaluated for reasonableness through various procedures, including due diligence reviews of third-party pricing vendors, variance analyses, consideration of the current market environment and other analytical procedures.

As a practical expedient, the Company relies on NAV as the fair value for certain investments. The inputs to value these investments may include BlackRock capital accounts for its partnership interests in various alternative investments, including distressed credit hedge funds, real estate and private equity funds, which may be adjusted by using the returns of certain market indices. The various partnerships are investment companies, which record their underlying investments at fair value based on fair value policies established by management of the underlying fund. Fair value policies at the underlying fund generally require the fund to utilize pricing/valuation information, from third-party sources including independent appraisals. However, in some instances, current valuation information for illiquid securities or securities in markets that are not active may not be available from any third-party source or fund management may conclude that the valuations that are available from third-party sources are not reliable. In these instances, fund management may perform model-based analytical valuations that may be used as an input to value these investments.

A significant amount of inputs used to value equity, debt securities and bank loans is sourced from well-recognized third-party pricing vendors. Generally, prices obtained from pricing vendors are categorized as Level 1 inputs for identical securities traded in active markets and as Level 2 for other similar securities if the vendor uses observable inputs in determining the price. Annually, BlackRock’s internal valuation committee or other designated groups review both the valuation methodologies, including the general assumptions and methods used to value various asset classes, and operational processes with these vendors. In addition, on a quarterly basis, meetings are held with the vendors to identify any significant changes to the vendors’ processes.

In addition, quotes obtained from brokers generally are non-binding and categorized as Level 3 inputs. However, if the Company is able to determine that market participants have transacted for the asset in an orderly manner near the quoted price or if the Company can determine that the inputs used by the broker are observable, the quote is classified as a Level 2 input.

Fair Value Option. ASC 825-10, *Financial Instruments* (“ASC 825-10”), provides a fair value option election that allows companies an irrevocable election to use fair value as the initial and

2. Significant Accounting Policies (continued)

Fair Value Measurements (continued)

subsequent accounting measurement attribute for certain financial assets and liabilities. ASC 825-10 permits entities to elect to measure eligible financial assets and liabilities at fair value on an ongoing basis. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. The decision to elect the fair value option is determined on an instrument-by-instrument basis, which must be applied to an entire instrument, and not only specified risks, specific cash flows, or portions of that instrument, and is irrevocable once elected. Assets and liabilities measured at fair value pursuant to ASC 825-10 are required to be reported separately from those instruments measured using another accounting method.

Derivative Instruments and Hedging Activities. ASC 815-10, *Derivatives and Hedging* ("ASC 815-10"), establishes accounting and reporting standards for derivative instruments, including certain derivatives embedded in other contracts and for hedging activities. ASC 815-10 generally requires an entity to recognize all derivatives as either assets or liabilities on the condensed consolidated statements of financial condition and to measure those investments at fair value.

The Company does not use derivative financial instruments for trading or speculative purposes. The Company uses derivative financial instruments primarily for purposes of hedging: (i) exposures to fluctuations in foreign currency exchange rates of certain assets and liabilities, (ii) market exposures for certain seed investments and (iii) future cash flows on floating-rate notes. The Company may also use derivatives within its separate account assets, which are segregated funds held for purposes of funding individual and group pension contracts. In addition, certain consolidated sponsored investment funds may also invest in derivatives as a part of their investment strategy.

Changes in the fair value of the Company's derivative financial instruments are generally recognized in earnings and, where applicable, are offset by the corresponding gain or loss on the related foreign-denominated assets or liabilities or hedged investments, on the condensed consolidated statements of income.

Separate Account Assets and Liabilities. Separate account assets are maintained by BlackRock Life Limited, a wholly owned subsidiary of the Company, which is a registered life insurance company in the United Kingdom, and represent segregated assets held for purposes of funding individual and group pension contracts. The life insurance company does not underwrite any insurance contracts that involve any insurance risk transfer from the insured to the life insurance company. The separate accounts assets primarily include equity, debt securities, money market funds and derivatives. The separate account assets are not subject to general claims of the creditors of BlackRock. These separate account assets and the related equal and offsetting liabilities are recorded as separate account assets and separate account liabilities on the condensed consolidated statements of financial condition in accordance with the ASC 944-80, *Financial Services – Separate Accounts*.

The net investment income attributable to separate account assets supporting individual and group pension contracts accrues directly to the contract owner and is not reported on the condensed consolidated statements of income. While BlackRock has no economic interest in these separate account assets and liabilities, BlackRock earns policy administration and management fees associated with these products, which are included in investment advisory, administration fees and securities lending revenue on the condensed consolidated statements of income.

Separate Account Collateral Assets Held and Liabilities Under Securities Lending Agreements. The Company facilitates securities lending arrangements whereby securities held by separate account assets maintained by BlackRock Life Limited are lent to third parties under global master securities lending agreements. In exchange, the Company receives collateral with minimum values generally ranging from approximately 102% to 112% of the value of the securities lent in order to reduce counterparty risk. The required collateral value is calculated on a daily basis. The global master securities lending agreements provide the Company, in the event of customer default, the right to liquidate collateral or to request additional collateral. Under the Company's securities lending arrangements, the Company can resell or re-pledge the collateral and the borrower can resell or re-pledge the loaned securities. The securities lending transactions entered into by the Company are accompanied by an agreement that entitles the Company to request the borrower to return the securities at any time; therefore, these transactions are not reported as sales under ASC 860, *Transfers and Servicing*.

As a result of the Company's ability to resell or re-pledge the collateral, the Company records on the condensed consolidated statements of financial condition the cash and non-cash collateral received under these arrangements as its own asset in addition to an equal and offsetting collateral liability for the obligation to return the collateral. During the six months ended June 30, 2013 and 2012, the Company had not re-sold or re-pledged any of the collateral received under these arrangements. At June 30, 2013 and December 31, 2012, the fair value of loaned securities held by separate account assets was approximately \$17.7 billion and \$21.0 billion, respectively, and the fair value of the collateral held under these securities lending agreements was approximately \$19.4 billion and \$23.0 billion, respectively.

Appropriated Retained Earnings. Upon the initial consolidation of CLOs, BlackRock records a cumulative effect adjustment to appropriated retained earnings on the condensed consolidated statements of financial condition equal to the difference between the fair value of the CLOs' assets and the fair value of their liabilities. Such amounts are recorded as appropriated retained earnings as the CLO noteholders, not BlackRock, ultimately will receive the benefits or absorb the losses associated with the CLOs' assets and liabilities. The net change in the fair value of the CLOs' assets and liabilities is recorded as net income (loss) attributable to nonredeemable noncontrolling interests and as an adjustment to appropriated retained earnings.

Accounting Pronouncements Adopted in the Six Months Ended June 30, 2013

Amendments to Accumulated Other Comprehensive Income Disclosures. On February 5, 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2013-02, *Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income* ("ASU 2013-02"), which added new disclosure requirements for items reclassified out of accumulated other comprehensive income ("AOCI"). See Note 15, *Accumulated Other Comprehensive Income (Loss)*.

Disclosures About Offsetting Assets and Liabilities. On December 16, 2011, the FASB issued ASU 2011-11, *Disclosures About Offsetting Assets and Liabilities* ("ASU 2011-11"), which creates new disclosure requirements about the nature of an entity's rights of setoff and related arrangements associated with its financial instruments and derivative instruments. On January 31, 2013, the FASB issued ASU 2013-01, *Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities* ("ASU 2013-01"), that provides clarification about which instruments and transactions are subject to ASU 2011-11. The adoption of ASU 2011-11 and ASU 2013-01 on January 1, 2013 was not material to the condensed consolidated financial statements.

Recent Accounting Pronouncements Not Yet Adopted

Cumulative Translation Adjustment. In March 2013, the FASB issued ASU 2013-05, *Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity* ("ASU 2013-05"). ASU 2013-05 addresses the accounting for the cumulative translation adjustment when a parent either sells a part or all of its investment in a foreign entity or no longer holds a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business within a foreign entity. ASU 2013-05 is effective for the Company on January 1, 2014. The Company does not believe the adoption of ASU 2013-05 will have a material impact on the condensed consolidated financial statements.

Investment Company Guidance. In June 2013, the FASB issued ASU 2013-08, *Financial Services — Investment Companies: Amendments to the Scope, Measurement, and Disclosure Requirements* ("ASU 2013-08"). ASU 2013-08 amends the current criteria for an entity to qualify as an investment company, creates new disclosure requirements and amends the measurement criteria for certain interests in other investment companies. The Company is currently evaluating the impact of adopting ASU 2013-08, which is effective for the Company on January 1, 2014.

Benchmark Interest Rate for Hedge Accounting. In July 2013, the FASB issued ASU 2013-10, *Inclusion of the Fed Funds Effective Swap Rate (or Overnight Index Swap Rate) as a Benchmark Interest Rate for Hedge Accounting Purposes* ("ASU 2013-10"). ASU 2013-10 provides for the inclusion of certain interest rate benchmarks for hedge accounting purposes. ASU 2013-10 is effective for the Company for qualifying new or redesignated hedging relationships entered into on or after July 17, 2013. The Company does not believe the adoption of ASU 2013-10 will have a material impact on the condensed consolidated financial statements.

Presentation of an Unrecognized Tax Benefit. In July 2013, the FASB issued ASU No. 2013-11, *Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists* ("ASU 2013-11"). ASU 2013-11 provides guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. ASU 2013-11 is effective for the Company on January 1, 2014. The Company does not believe the adoption of ASU 2013-11 will have a material impact on the condensed consolidated financial statements.

Held-to-Maturity Investments

The carrying value of held-to-maturity investments was \$53 million and \$112 million at June 30, 2013 and December 31, 2012, respectively. Held-to-maturity investments included foreign government debt held for regulatory purposes and the amortized cost (carrying value) of these investments approximated fair value. At June 30, 2013, \$40 million of these investments mature in one year or less and \$13 million mature after 10 years.

Trading Investments

A summary of the cost and carrying value of trading investments is as follows:

<i>(in millions)</i>	<u>June 30, 2013</u>		<u>December 31, 2012</u>	
	<u>Cost</u>	<u>Carrying Value</u>	<u>Cost</u>	<u>Carrying Value</u>
Trading investments:

Other Investments (continued)

Equity method investments primarily include BlackRock's direct investment in certain BlackRock sponsored investment funds. See Note 10, *Other Assets*, for information on the Company's investment in PennyMac Financial Services, Inc. ("PennyMac"), which is included in other assets on the condensed consolidated statements of financial condition.

Cost method investments include non-marketable securities, including Federal Reserve Bank stock, which is held for regulatory purposes and is restricted from sale. At June 30, 2013 and December 31, 2012, there were no indicators of impairment on these investments.

Carried interest represents allocations to BlackRock's general partner capital accounts from certain funds. These balances are subject to change upon cash distributions, additional allocations or reallocations back to limited partners within the respective funds.

4. Consolidated Sponsored Investment Funds

The Company consolidates certain sponsored investment funds primarily because it is deemed to control such funds. The investments owned by these consolidated sponsored investment funds are classified as trading or other investments. The following table presents the balances related to these consolidated funds that were included on the condensed consolidated statements of financial condition as well as BlackRock's net interest in these funds:

(in millions)

	June 30, 2013	December 31, 2012
Cash and cash equivalents	\$185	\$133
Investments:		
Trading investments	289	123
Other investments	338	401
Other assets	16	25
Other liabilities	(41)	(65)
Noncontrolling interests	(212)	(187)
BlackRock's net interests in consolidated sponsored investment funds	<u>\$575</u>	<u>\$430</u>

BlackRock's total exposure to consolidated sponsored investment funds of \$575 million and \$430 million at June 30, 2013 and December 31, 2012, respectively, represents the value of the Company's economic ownership interest in these sponsored investment funds. Valuation changes associated with these consolidated investment funds are reflected in non-operating income (expense) and partially offset in net income (loss) attributable to noncontrolling interests for the portion not attributable to BlackRock.

In addition, at June 30, 2013 and December 31, 2012, several consolidated CLOs and one investment fund, which were deemed to be VIEs, were excluded from the balances in the table above as the balances for these investment products are reported separately on the condensed consolidated statements of financial condition. See Note 6, *Variable Interest Entities*, for further discussion of these consolidated investment products.

The Company is not readily able to access cash and cash equivalents held by consolidated sponsored investment funds to use in its operating activities. In addition, the Company is not readily able to sell investments held by consolidated sponsored investment funds in order to obtain cash for use in the Company's operations.

Level 3 Assets. Level 3 investments of \$656 million and \$679 million at June 30, 2013 and December 31, 2012, respectively, primarily related to equity method investments and consolidated sponsored investment funds. Level 3 assets within investments, except for direct investments in private equity companies held by private equity funds described below, were primarily valued based upon NAVs received from internal as well as third-party fund managers.

Direct investments in private equity companies held by private equity funds totaled \$42 million and \$56 million at June 30, 2013 and December 31, 2012, respectively. Direct investments in private equity companies may be valued using the market approach or the income approach, or a combination thereof, and were valued based on an assessment of each underlying investment, incorporating evaluation of additional significant third-party financing, changes in valuations of comparable peer companies, the business environment of the companies, market indices, assumptions relating to appropriate risk adjustments for nonperformance and legal restrictions on disposition, among other factors. The fair value derived from the methods used is evaluated and weighted, as appropriate, considering the reasonableness of the range of values indicated. Under the market approach, fair value may be determined by reference to multiples of market-comparable companies or transactions, including earnings before interest, taxes, depreciation and amortization ("EBITDA") multiples. Under the income approach, fair value may be determined by discounting the expected cash flows to a single present value amount using current expectations about those future amounts. Unobservable inputs used in a discounted cash flow model may include projections of operating performance generally covering a five-year period and a terminal value of the private equity direct investment. For securities utilizing the discounted cash flow valuation technique, a significant increase (decrease) in the discount rate, risk premium or discount for lack of marketability in isolation could result in a significantly lower (higher) fair value measurement. For securities utilizing the market comparable companies valuation technique, a significant increase (decrease) in the EBITDA multiple in isolation could result in a significantly higher (lower) fair value measurement.

Realized and Unrealized Gains (Losses) for Level 3 Assets and Liabilities. Realized and unrealized gains (losses) recorded for Level 3 assets and liabilities are reported in non-operating income (expense) on the condensed consolidated statements of income. A portion of net income (loss) for consolidated investments and all of the net income (loss) for consolidated VIEs are allocated to noncontrolling interests to reflect net income (loss) not attributable to the Company.

Transfers in and/or out of Levels. Transfers in and/or out of levels are reflected when significant inputs, including market inputs or performance attributes, used for the fair value measurement become observable/unobservable, or when the Company determines it has the ability, or no longer has the ability, to redeem, in the near term, certain investments that the Company values using a NAV (or a capital account), or when the book value of certain equity method investments no longer represents fair value as determined under valuation methodologies.

Separate Account Assets. During the six months ended June 30, 2012, there were \$14 million of transfers of equity securities into Level 3 from Level 1. These transfers into Level 3 primarily were due to market inputs no longer being considered observable.

During the three and six months ended June 30, 2012, there were \$8 million of transfers out of Level 3 into Level 1 related to equity securities held within separate accounts. These transfers out of Level 3 were due to availability of observable market inputs.

Assets of Consolidated VIEs. During the three and six months ended June 30, 2013, there were \$39 million and \$76 million, respectively, of transfers out of Level 3 to Level 2 related to bank loans. In addition, during the three and six months ended June 30, 2013, there were \$17 million and \$32 million, respectively, of transfers into Level 3 from Level 2 related to bank loans. These transfers in and out of Levels 2 and 3 were primarily due to availability/unavailability of observable market inputs, including inputs from pricing vendors and brokers.

During the three and six months ended June 30, 2012, there were \$19 million and \$61 million, respectively, of transfers out of Level 3 into Level 2 related to bank loans. In addition, during the three and six months ended June 30, 2012, there were \$47 million and \$52 million, respectively, of transfers into Level 3 from Level 2 related to bank loans. These transfers in and out of Levels 2 and 3 primarily were due to availability/unavailability of observable market inputs, including inputs from pricing vendors and brokers.

Consolidated Sponsored Investment Funds. During the six months ended June 30, 2013, there were \$12 million of transfers out of Level 1 to Level 2 related to consolidated private equity funds. This transfer was due to a direct investment in a public company held by a consolidated private equity fund valued at a discount due to restrictions on sale.

Other Significant Settlements. During the three and six months ended June 30, 2013, there were \$16 million and \$48 million, respectively, of distributions from equity method investees categorized in Level 3.

During the three and six months ended June 30, 2012, there were \$19 million and \$33 million, respectively, of distributions from equity method investees categorized in Level 3.

During the three and six months ended June 30, 2013, other settlements included \$134 million related to a deconsolidation of a consolidated fund of hedge funds, which was previously classified as a VIE. This fund was deconsolidated during the second quarter 2013 due to the granting of additional substantive rights to unaffiliated investors of the fund.

5. Fair Value Disclosures (continued)

In addition, during the three and six months ended June 30, 2013, there was a \$28 million reclassification of a Level 3 investment from a consolidated sponsored investment fund to an equity method investment due to a change in ownership percentage.

Disclosures of Fair Value for Financial Instruments Not Held at Fair Value. At June 30, 2013 and December 31, 2012, the fair value of the Company's financial instruments not held at fair value are categorized in the table below:

<i>(in millions)</i>	June 30, 2013		December 31, 2012		Fair Value Hierarchy
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value	
<i>Financial Assets:</i>					
Cash and cash equivalents	\$ 3,668	\$ 3,668	\$ 4,606	\$ 4,606	Level 1 ⁽¹⁾
Accounts receivable	2,249	2,249	2,250	2,250	Level 1 ⁽²⁾
Cash and cash equivalents of consolidated VIEs	125	125	297	297	Level 1 ⁽¹⁾
<i>Financial Liabilities:</i>

Long-term borrowings	4,938	5,308	5,687	6,275	Level 2 ⁽³⁾

⁽¹⁾ Cash and cash equivalents are carried at either cost or amortized cost that approximates fair value due to their short-term maturities. At June 30, 2013 and December 31, 2012, approximately \$185 million and \$133 million, respectively, related to cash and cash equivalents held by consolidated sponsored investment funds. Money market funds are valued based on quoted market prices, or \$1.00, which generally is the NAV of the fund. At June 30, 2013 and December 31, 2012, approximately \$124 million and \$98 million, respectively, of money market funds were recorded within cash and cash equivalents on the condensed consolidated statements of financial condition.

⁽²⁾ The carrying amounts of accounts receivable, accounts payable and accrued liabilities and short-term borrowings approximate fair value due to their short-term nature.

⁽³⁾ Long-term borrowings are recorded at amortized cost. The fair value of the long-term borrowings, including the current portion of long-term borrowings, is estimated using market prices at the end of June 2013 and December 2012, respectively. See Note 11, *Borrowings*, for further information on the June 30, 2013 fair value of the Company's long-term borrowings.

Investments in Certain Entities that Calculate Net Asset Value Per Share

As a practical expedient to value certain investments that do not have a readily determinable fair value and have attributes of an investment company, the Company relies on NAV as the fair value for certain investments. The following tables list information regarding all investments that use a fair value measurement to account for both their financial assets and financial liabilities in their calculation of a NAV per share (or its equivalent).

- (1) Comprised of equity method investments, which include investment companies, which in accordance with GAAP account for their financial assets and most financial liabilities under fair value measures; therefore, the Company's investment in such equity method investees approximates fair value.
- (a) This category includes consolidated offshore feeder funds that invest in master funds with multiple equity strategies to diversify risks. The fair values of the investments in this category have been estimated using the NAV of master offshore funds held by the feeder funds. Investments in this category generally can be redeemed at any time, as long as there are no restrictions in place by the underlying master funds.
- (b) This category includes the underlying third-party private equity funds within consolidated BlackRock sponsored private equity funds of funds. The fair values of the investments in the third-party funds have been estimated using capital accounts representing the Company's ownership interest in each fund in the portfolio as well as other performance inputs. These investments are not subject to redemption; however, for certain funds, the Company may sell or transfer its interest, which may need approval by the general partner of the underlying funds. Due to the nature of the investments in this category, the Company reduces its investment by distributions that are received through the realization of the underlying assets of the funds. It is estimated that the underlying assets of these funds will be liquidated over a weighted-average period of approximately seven years at both June 30, 2013 and December 31, 2012. The total remaining unfunded commitments to other third-party funds were \$26 million and \$32 million at June 30, 2013 and December 31, 2012, respectively. The Company was contractually obligated to fund \$30 million at both June 30, 2013 and December 31, 2012 to the consolidated funds.
- (c) This category includes consolidated funds of hedge funds that invest in multiple strategies to diversify risks. The fair values of the investments have been estimated using the NAV of the fund's ownership interest in partners' capital of each fund in the portfolio. Certain of the underlying funds can be redeemed as long as there are no restrictions in place. At June 30, 2013 and December 31, 2012, the underlying funds that are currently restricted from redemptions within one year will be redeemable in approximately 12 to 24 months. This category also includes a consolidated offshore feeder fund that invests in a master fund with multiple alternative investment strategies. The fair value of this investment has been estimated using the NAV of the master offshore fund held by the feeder fund. The investment is currently subject to restrictions in place by the underlying master fund.

5. Fair Value Disclosures (continued)

Investments in Certain Entities that Calculate Net Asset Value Per Share (continued)

- (d) This category includes hedge funds and funds of hedge funds that invest primarily in equities, fixed income securities, distressed credit and mortgage instruments and other third-party hedge funds. The fair values of the investments have been estimated using the NAV of the Company's ownership interest in partners' capital. It was estimated that the investments in the funds that are not subject to redemption will be liquidated over a weighted-average period of approximately four and five years at June 30, 2013 and December 31, 2012, respectively.
- (e) This category includes several private equity funds that initially invest in non-marketable securities of private companies, which ultimately may become public in the future. The fair values of these investments have been estimated using capital accounts representing the Company's ownership interest in the funds as well as other performance inputs. The Company's investment in each fund is not subject to redemption and is normally returned through distributions as a result of the liquidation of the underlying assets of the private equity funds. It was estimated that the investments in these funds will be liquidated over a weighted-average period of approximately five years at both June 30, 2013 and December 31, 2012.
- (f) This category includes several real estate funds that invest directly in real estate and real estate related assets. The fair values of the investments have been estimated using capital accounts representing the Company's ownership interest in the funds. A majority of the Company's investments are not subject to redemption or are not currently redeemable and is normally returned through distributions as a result of the liquidation of the underlying assets of the real estate funds. It is estimated that the investments in these funds not subject to redemptions will be liquidated over a weighted-average period of approximately seven years at June 30, 2013 and eight years at December 31, 2012.
- (g) This category includes investments in certain hedge funds that invest in energy and health science related equity securities. The fair values of the investments in this category have been estimated using capital accounts representing the Company's ownership interest in partners' capital as well as performance inputs. The investments in these funds will be liquidated upon settlement of certain deferred compensation liabilities.
- (h) This category includes the underlying third-party private equity funds within one consolidated BlackRock sponsored private equity fund of funds. The fair values of the investments in the third-party funds have been estimated using capital accounts representing the Company's ownership interest in each fund in the portfolio as well as other performance inputs. These investments are not subject to redemption; however, for certain funds the Company may sell or transfer its interest, which may need approval by the general partner of the underlying third-party funds. Due to the nature of the investments in this category, the Company reduces its investment by distributions that are received through the realization of the underlying assets of the funds. It is estimated that the underlying assets of these funds will be liquidated over a weighted-average period of approximately two years at June 30, 2013 and three years at December 31, 2012. Total remaining unfunded commitments to other third-party funds were \$1 million at both June 30, 2013 and December 31, 2012, which commitments are required to be funded by capital contributions from noncontrolling interest holders.

Fair Value Option. Upon the initial consolidation of certain CLOs, the Company elected to adopt the fair value option provisions for eligible assets and liabilities, including bank loans and borrowings of the CLOs to mitigate accounting mismatches between the carrying value of the assets and liabilities and to achieve operational simplification. To the extent there is a difference between the change in fair value of the assets and liabilities, the difference will be reflected as net income (loss) attributable to nonredeemable noncontrolling interests on the condensed consolidated statements of income and offset by a change in appropriated retained earnings on the condensed consolidated statements of financial condition.

5. Fair Value Disclosures (continued)

The following table summarizes information related to those assets and liabilities selected for fair value accounting as of June 30, 2013 and December 31, 2012:

<i>(in millions)</i>	June 30, 2013	December 31, 2012
CLO Bank Loans:		
Aggregate principal amounts outstanding	\$2,019	\$2,124
Fair value	2,003	2,110
Aggregate unpaid principal balance in excess of/(less than) fair value	\$16	\$14
Unpaid principal balance of loans more than 90 days past due	\$4	\$4
Aggregate fair value of loans more than 90 days past due	-	-
Aggregate unpaid principal balance in excess of fair value for loans more than 90 days past due	\$4	\$4
CLO Borrowings:		
Aggregate principal amounts outstanding	\$2,274	\$2,535
Fair value	\$2,145	\$2,402

At June 30, 2013, the principal amounts outstanding of the borrowings issued by the CLOs mature between 2016 and 2025.

During the three months ended June 30, 2013 and 2012, the change in fair value of the bank loans and bonds held by the CLOs resulted in a \$7 million gain and a \$22 million gain, respectively, which were offset by a \$23 million loss and a \$7 million loss, respectively, from the change in fair value of the CLO borrowings.

During the six months ended June 30, 2013 and 2012, the change in fair value of the bank loans and bonds held by the CLOs resulted in a \$79 million gain and a \$78 million gain, respectively, which were offset by a \$64 million loss and a \$74 million loss, respectively, from the change in fair value of the CLO borrowings.

The net gains (losses) were recorded in net gain (loss) on consolidated VIEs on the condensed consolidated statements of income.

The change in fair value of the assets and liabilities included interest income and expense, respectively.

6. Variable Interest Entities

In the normal course of business, the Company is the manager of various types of sponsored investment vehicles, including collateralized debt obligations ("CDOs")/CLOs and sponsored investment funds, which may be considered VIEs. The Company receives advisory fees and/or other incentive-related fees for its services and may from time to time own equity or debt securities or enter into derivatives with the vehicles, each of which are considered variable interests. The Company enters into these variable interests principally to address client needs through the launch of such investment vehicles. The VIEs are primarily financed via capital contributed by equity and debt holders. The Company's involvement in financing the operations of the VIEs is generally limited to its equity interests.

[Table of Contents](#)**6. Variable Interest Entities (continued)**

The primary beneficiary ("PB") of a VIE that is an investment fund that meets the conditions of ASU 2010-10, *Amendments to Statement 167 for Certain Investment Funds* ("ASU 2010-10"), is the enterprise that has a variable interest (or combination of variable interests, including those of related parties) that will absorb a majority of the entity's expected losses, receive a majority of the entity's expected residual returns or both. In order to determine whether the Company is the PB of a VIE, management must make significant estimates and assumptions of probable future cash flows of the VIEs. Assumptions made in such analyses may include, but are not limited to, market prices of securities, market interest rates, potential credit defaults on individual securities or default rates on a portfolio of securities, pre-payments, realization of gains, liquidity or marketability of certain securities, discount rates and the probability of certain other outcomes.

The PB of a CDO/CLO or other entity that is a VIE that does not meet the conditions of ASU 2010-10 is the enterprise that has the power to direct activities of the entity that most significantly impact the entity's economic performance and has the obligation to absorb losses or the right to receive benefits that potentially could be significant to the entity.

Consolidated VIEs. Consolidated VIEs included CLOs in which BlackRock did not have an investment; however, BlackRock, as the collateral manager, was deemed to have both the power to control the activities of the CLOs and the right to receive benefits that could potentially be significant to the CLOs. In addition, BlackRock was the PB of one investment fund because it absorbed the majority of the variability due to its de facto third-party relationships with other partners in the fund. The assets of these VIEs are not available to creditors of the Company. In addition, the investors in these VIEs have no recourse to the credit of the Company. At June 30, 2013 and December 31, 2012, the following balances related to VIEs were consolidated on the condensed consolidated statements of financial condition:

<i>(in millions)</i>	<u>June 30, 2013</u>	<u>December 31, 2012</u>
Assets of consolidated VIEs:		
Cash and cash equivalents	\$125	\$297
Bank loans	2,003	2,110
Bonds	95	124
Other investments and other assets	<u>62</u>	<u>30</u>
Total bank loans, bonds, other investments and other assets	2,160	2,264
Liabilities of consolidated VIEs:		
Borrowings	(2,145)	(2,402)
Other liabilities	(93)	(103)
Appropriated retained earnings	(23)	(29)
Noncontrolling interests of consolidated VIEs	<u>(24)</u>	<u>(27)</u>
Total BlackRock net interests in consolidated VIEs	<u><u>\$—</u></u>	<u><u>\$—</u></u>

For the three months ended June 30, 2013 and 2012, the Company recorded a non-operating loss of \$23 million and non-operating income of \$11 million, respectively, offset by a \$23 million net loss attributable to nonredeemable noncontrolling interests and \$11 million net income attributable to nonredeemable noncontrolling interests, respectively, on the condensed consolidated statements of income.

6. Variable Interest Entities (continued)

For the six months ended June 30, 2013 and 2012, the Company recorded non-operating income of \$4 million and a non-operating loss of \$1 million, respectively, offset by \$4 million net income attributable to nonredeemable noncontrolling interests and a \$1 million net loss attributable to nonredeemable noncontrolling interests, respectively, on the condensed consolidated statements of income.

At June 30, 2013 and December 31, 2012, the weighted-average maturities of the bank loans and bonds attributable to consolidated VIEs were approximately 4.8 and 4.5 years, respectively.

Non-Consolidated VIEs. At June 30, 2013 and December 31, 2012, the Company's carrying value of assets and liabilities and its maximum risk of loss related to VIEs for which it was the sponsor or in which it held a variable interest, but for which it was not the PB, were as follows:

<i>(in millions)</i>	Variable Interests on the Condensed Consolidated Statement of Financial Condition			
	<u>Investments</u>	<u>Advisory Fee Receivables</u>	<u>Other Net Assets (Liabilities)</u>	<u>Maximum Risk of Loss ⁽¹⁾</u>
At June 30, 2013				
CDOs/CLOs	\$ 1	\$ 1	(\$5)	\$ 19
Other sponsored investment funds:				
Collective trusts	—	169	—	169
Other	18	98	(6)	116
Total	<u>\$ 19</u>	<u>\$ 268</u>	<u>(\$11)</u>	<u>\$ 304</u>
At December 31, 2012				
CDOs/CLOs	\$ 1	\$ 1	(\$5)	\$ 19
Other sponsored investment funds:

Other	17	61	(3)	77
Total	<u>\$ 18</u>	<u>\$ 310</u>	<u>(\$8)</u>	<u>\$ 344</u>

⁽¹⁾ At both June 30, 2013 and December 31, 2012, BlackRock's maximum risk of loss associated with these VIEs primarily related to: (i) advisory fee receivables; (ii) BlackRock's investments; and (iii) \$17 million of credit protection sold by BlackRock to a third party in a synthetic CDO transaction.

The net assets related to the above CDOs/CLOs and other sponsored investment funds, including collective trusts, that the Company does not consolidate were as follows:

CDOs/CLOs

<i>(in billions)</i>	<u>June 30, 2013</u>	<u>December 31, 2012</u>
Assets at fair value	\$3	\$4
Liabilities ⁽¹⁾	4	5
Net assets	<u>(\$1)</u>	<u>(\$1)</u>

⁽¹⁾ Amounts primarily comprised of unpaid principal debt obligations to CDO/CLO debt holders.

Other sponsored investments funds. Net assets of other sponsored investment funds that are non-consolidated VIEs approximated \$1.5 trillion to \$1.6 trillion at both June 30, 2013 and December 31, 2012. Net assets included \$1.3 trillion of collective trusts at June 30, 2013 and

[Table of Contents](#)

6. Variable Interest Entities (continued)

December 31, 2012. Each collective trust has been aggregated separately and may include collective trusts that invest in other collective trusts. The net assets of these VIEs primarily are comprised of cash and cash equivalents and investments offset by liabilities primarily comprised of various accruals for the sponsored investment vehicles.

7. Derivatives and Hedging

In May 2011, the Company entered into a designated cash flow hedge consisting of a \$750 million interest rate swap maturing in 2013 to hedge future cash flows on the Company's floating rate notes due in 2013. Interest on this swap was at a fixed rate of 1.03%, payable semi-annually on May 24 and November 24 of each year. During the second quarter 2013, the interest rate swap matured and the floating rate notes were fully repaid.

The Company maintains a program to enter into swaps to hedge against market price and interest rate exposures with respect to certain seed investments in sponsored investment products. At June 30, 2013, the Company had 12 outstanding total return swaps and four outstanding interest rate swaps with an aggregate notional value of approximately \$80 million and \$68 million, respectively. At December 31, 2012, the Company had 21 outstanding total return swaps with an aggregate notional value of approximately \$206 million. The fair value of the outstanding swaps at June 30, 2013 and December 31, 2012 was not material.

Market risk from forward foreign currency exchange contracts is the effect on the value of a financial instrument that results from a change in currency exchange rates. The Company manages certain exposure to market risk associated with foreign currency exchange contracts by establishing and monitoring parameters that limit the types and degrees of market risk that may be undertaken. At June 30, 2013 and December 31, 2012, the Company had outstanding forward foreign currency exchange contracts with an aggregate notional value of approximately \$105 million and \$79 million, respectively. The fair value of the forward foreign currency exchange contracts at June 30, 2013 and December 31, 2012 was not material to the condensed consolidated statements of financial condition.

The Company entered into a credit default swap, providing credit protection to a counterparty of approximately \$17 million, representing the Company's maximum risk of loss with respect to the provision of credit protection. The Company carries the credit default swap at fair value based on the expected future cash flows under the arrangement. The fair value of the credit default swap was \$5 million at both June 30, 2013 and December 31, 2012 and was included in other liabilities on the condensed consolidated statements of financial condition.

Gains (losses) on total return swaps are recorded in non-operating income (expense) on the condensed consolidated statements of income and were \$2 million and (\$5) million for the three and six months ended June 30, 2013, respectively, and were \$9 million and (\$3) million for the three and six months ended June 30, 2012, respectively.

Gains (losses) on the interest rate swap, forward foreign currency exchange contracts and credit default swap were not material to the condensed consolidated statements of income for the three and six months ended June 30, 2013 and 2012.

The Company consolidates certain sponsored investment funds, which may utilize derivative instruments as a part of the funds' investment strategies. The fair value of such derivatives at June 30, 2013 and December 31, 2012 was not material. The change in fair value of such derivatives, which is recorded in non-operating income (expense), was not material for the three and six months ended June 30, 2013 and 2012.

8. Goodwill

Goodwill activity during the six months ended June 30, 2013 was as follows:

(in millions)

December 31, 2012	\$12,910
Goodwill adjustment related to Quellos and other ⁽¹⁾	(11)
June 30, 2013	<u>\$12,899</u>

⁽¹⁾ The decrease in goodwill during the six months ended June 30, 2013 primarily resulted from a decline related to tax benefits realized from tax-deductible goodwill in excess of book goodwill from the acquisition of the fund-of-funds business of Quellos Group, LLC in October 2007 (the "Quellos Transaction"). Goodwill related to the Quellos Transaction will continue to be reduced in future periods by the amount of tax benefits realized from tax-deductible goodwill in excess of book goodwill from the Quellos Transaction. The balance of the Quellos tax-deductible goodwill in excess of book goodwill was approximately \$308 million and \$324 million at June 30, 2013 and December 31, 2012, respectively.

9. Intangible Assets

The carrying amounts of identifiable intangible assets are summarized as follows:

(in millions)	Indefinite-lived intangible assets	Finite-lived intangible assets	Total intangible assets
December 31, 2012	\$16,760	\$642	\$17,402
Amortization expense	—	(80)	(80)
June 30, 2013	<u>\$16,760</u>	<u>\$562</u>	<u>\$17,322</u>

10. Other Assets

At March 31, 2013, BlackRock held an approximately one-third economic equity interest in Private National Mortgage Acceptance Company, LLC ("PNMAC"), which is accounted for as an equity method investment and is included in other assets on the condensed consolidated statements of financial condition. On May 8, 2013, PennyMac became the sole managing member of PNMAC in connection with an initial public offering of PennyMac (the "PennyMac IPO"). As a result of the PennyMac IPO, BlackRock recorded a non-cash, non-operating pre-tax gain of \$39 million related to the carrying value of its equity method investment.

Subsequent to the PennyMac IPO, the Company contributed 6.1 million units of its PennyMac investment to a new donor advised fund (the "Charitable Contribution"). The fair value of the Charitable Contribution was \$124 million and is included in general and administration expenses on the condensed consolidated statements of income. In connection with the Charitable Contribution, the Company also recorded a non-cash, non-operating pre-tax gain of \$80 million related to the contributed investment and a tax benefit of approximately \$57 million.

The carrying value and fair value of the Company's remaining interest (approximately 20% or 16 million units) in PennyMac was approximately \$111 million and \$331 million, respectively, at June 30, 2013.

11. Borrowings

Short-Term Borrowings

2013 Revolving Credit Facility. In March 2013, the Company's credit facility was amended to extend the maturity date by one year to March 2018 and the amount of the aggregate commitment

Short-Term Borrowings (continued)

was increased to \$3.990 billion (the "2013 credit facility"). The 2013 credit facility permits the Company to request up to an additional \$1.0 billion of borrowing capacity, subject to lender credit approval, increasing the overall size of the 2013 credit facility to an aggregate principal amount not to exceed \$4.990 billion. Interest on borrowings outstanding accrues at a rate based on the applicable London Interbank Offered Rate plus a spread. The 2013 credit facility requires the Company not to exceed a maximum leverage ratio (ratio of net debt to earnings before interest, taxes, depreciation and amortization, where net debt equals total debt less unrestricted cash) of 3 to 1, which was satisfied with a ratio of less than 1 to 1 at June 30, 2013. At June 30, 2013, the Company had no amount outstanding under the 2013 credit facility.

Commercial Paper Program. In April 2013, BlackRock increased the maximum aggregate amount for which the Company could issue unsecured commercial paper notes (the "CP Notes") on a private-placement basis up to a maximum aggregate amount outstanding at any time of \$3.990 billion. The commercial paper program is currently supported by the 2013 credit facility.

At June 30, 2013, BlackRock had no CP Notes outstanding.

Long-Term Borrowings

The carrying value and fair value of long-term borrowings determined using market prices at the end of June 2013 included the following:

<i>(in millions)</i>	Maturity Amount	Unamortized Discount	Carrying Value	Fair Value
3.50% Notes due 2014	\$1,000	\$ —	\$1,000	\$1,037
1.375% Notes due 2015	750	—	750	760
6.25% Notes due 2017	700	(2)	698	824
5.00% Notes due 2019	1,000	(2)	998	1,139
4.25% Notes due 2021	750	(4)	746	797
3.375% Notes due 2022	750	(4)	746	751
Total Long-term Borrowings	\$ 4,950	(\$12)	\$ 4,938	\$ 5,308

In May 2013, the Company fully repaid \$750 million of floating rate notes at maturity.

Long-term borrowings at December 31, 2012 had a carrying value of \$5.687 billion and a fair value of \$6.275 billion determined using market prices at the end of December 2012.

See Note 11, *Borrowings*, in the 2012 Form 10-K for more information.

12. Commitments and Contingencies

Investment Commitments. At June 30, 2013, the Company had \$219 million of various capital commitments to fund sponsored investment funds, including funds of private equity funds, real estate funds, infrastructure funds, opportunistic funds and distressed credit funds. This amount excludes additional commitments made by consolidated funds of funds to underlying third-party funds as third-party noncontrolling interest holders have the legal obligation to fund the respective commitments of such funds of funds. Generally, the timing of the funding of these commitments is unknown and the commitments are callable on demand at any time prior to the

12. Commitments and Contingencies (continued)

expiration of the commitment. These unfunded commitments are not recorded on the condensed consolidated statements of financial condition. These commitments do not include potential future commitments approved by the Company, but which are not yet legally binding. The Company intends to make additional capital commitments from time to time to fund additional investment products for, and with, its clients.

Contingencies

Contingent Payments. The Company acts as the portfolio manager in a series of credit default swap transactions and has a maximum potential exposure of \$17 million under a credit default swap between the Company and the counterparty. See Note 7, *Derivatives and Hedging*, for further discussion.

Legal Proceedings. From time to time, BlackRock receives subpoenas or other requests for information from various U.S. federal, state governmental and domestic and international regulatory authorities in connection with certain industry-wide or other investigations or proceedings. It is BlackRock's policy to cooperate fully with such inquiries. The Company and certain of its subsidiaries have been named as defendants in various legal actions, including arbitrations and other litigation arising in connection with BlackRock's activities. Additionally, certain of the investment funds that the Company manages are subject to lawsuits, any of which potentially could harm the investment returns of the applicable fund or result in the Company being liable to the funds for any resulting damages.

Management, after consultation with legal counsel, currently does not anticipate that the aggregate liability, if any, arising out of regulatory matters or lawsuits will have a material effect on BlackRock's results of operations, financial position, or cash flows. However, there is no assurance as to whether any such pending or threatened matters will have a material effect on BlackRock's results of operations, financial position or cash flows in any future reporting period. Due to uncertainties surrounding the outcome of these matters, management cannot reasonably estimate the possible loss or range of loss that may arise from these matters.

Indemnifications. In the ordinary course of business or in connection with certain acquisition agreements, BlackRock enters into contracts pursuant to which it may agree to indemnify third parties in certain circumstances. The terms of these indemnities vary from contract to contract and the amount of indemnification liability, if any, cannot be determined or is considered remote. Consequently, no liability has been recorded on the condensed consolidated statements of financial condition.

In connection with securities lending transactions, BlackRock has issued certain indemnifications to certain securities lending clients against potential loss resulting from a borrower's failure to fulfill its obligations under the securities lending agreement should the value of the collateral pledged by the borrower at the time of default be insufficient to cover the borrower's obligation under the securities lending agreement. At June 30, 2013, the Company indemnified certain of its clients for their securities lending loan balances of approximately \$101.1 billion. The Company held as agent, cash and securities totaling \$106.5 billion as collateral for indemnified securities on loan at June 30, 2013. The fair value of these indemnifications was not material at June 30, 2013.

13. Stock-Based Compensation

Restricted stock and restricted stock units ("RSUs") activity for the six months ended June 30, 2013 is summarized below:

<u>Outstanding at</u>	<u>Restricted Stock and RSUs</u>	<u>Weighted- Average Grant Date Fair Value</u>
December 31, 2012	5,620,835	\$197.90
Granted	1,629,460	\$234.22
Converted	(2,356,276)	\$205.10
Forfeited	(44,528)	\$201.92
June 30, 2013 ⁽¹⁾	<u>4,849,491</u>	<u>\$206.56</u>

⁽¹⁾ At June 30, 2013, approximately 4.4 million awards are expected to vest and 0.4 million awards have vested but have not been converted.

The Company values restricted stock and RSUs at their grant-date fair value as measured by BlackRock's common stock price.

In January 2013, the Company granted 1,172,381 RSUs to employees as part of annual incentive compensation that vest ratably over three years from the date of grant and 370,812 RSUs to employees that cliff vest 100% on January 31, 2016.

The intrinsic value of outstanding RSUs was \$1.2 billion reflecting a stock price of \$256.85 at June 30, 2013.

At June 30, 2013, total unrecognized stock-based compensation expense related to unvested RSUs was \$448 million. The unrecognized compensation cost is expected to be recognized over the remaining weighted-average period of 1.1 years.

Market Performance-based RSUs.

Market performance-based RSU activity for the six months ended June 30, 2013 is summarized below:

<u>Outstanding at</u>	<u>Market Performance- Based RSUs</u>	<u>Weighted- Average Grant Date Fair Value</u>
December 31, 2012	575,532	\$ 115.03
Granted	556,581	\$ 126.76
June 30, 2013 ⁽¹⁾	<u>1,132,113</u>	<u>\$ 120.80</u>

⁽¹⁾ At June 30, 2013, approximately 1.1 million awards are expected to vest and no awards have vested and have been converted.

The 556,581 market performance-based RSUs that the Company granted in January 2013 will be funded primarily by shares currently held by PNC (see *Long-Term Incentive Plans Funded by PNC* below).

At June 30, 2013, total unrecognized stock-based compensation expense related to unvested market performance-based awards was \$105 million. The unrecognized compensation cost is expected to be recognized over the remaining weighted-average period of 3.1 years.

Market Performance-based RSUs (continued)

Long-Term Incentive Plans Funded by PNC. Under a share surrender agreement, PNC committed to provide up to 4 million shares of BlackRock stock held by PNC, to fund certain BlackRock long-term incentive plans ("LTIP"). The current share surrender agreement commits PNC to provide BlackRock series C non-voting participating preferred stock to fund the remaining committed shares. As of December 31, 2012, 2.5 million shares had been surrendered by PNC. In January 2013, 0.2 million shares were surrendered.

At June 30, 2013, the remaining shares committed by PNC of 1.3 million were available to fund future long-term incentive awards.

Stock Options. Stock option activity for the six months ended June 30, 2013 is summarized below:

<u>Outstanding at</u>	<u>Shares Under Option</u>	<u>Weighted- Average Exercise Price</u>
December 31, 2012	1,099,909	\$ 167.76
Exercised	(85,090)	\$ 167.76
June 30, 2013	<u>1,014,819</u>	<u>\$ 167.76</u>

All options were vested at both June 30, 2013 and December 31, 2012. The aggregate intrinsic value of options exercised during the six months ended June 30, 2013 was \$8.3 million.

14. Net Capital Requirements

The Company is required to maintain net capital in certain regulated subsidiaries within a number of jurisdictions, which is partially maintained by retaining cash and cash equivalent investments in those subsidiaries or jurisdictions. As a result, such subsidiaries of the Company may be restricted in their ability to transfer cash between different jurisdictions and to their parents. Additionally, transfers of cash between international jurisdictions, including repatriation to the United States, may have adverse tax consequences that could discourage such transfers.

Capital Requirements. At June 30, 2013, the Company was required to maintain approximately \$1,160 million in net capital in certain regulated subsidiaries, including BlackRock Institutional Trust Company, N.A. (a chartered national bank whose powers are limited to trust activities and which is subject to regulatory capital requirements administered by the Office of the Comptroller of the Currency), entities regulated by the Financial Conduct Authority and Prudential Regulation Authority in the United Kingdom and the Company's broker-dealers and was in compliance with all applicable regulatory net capital requirements.

Share Repurchase Approval. In January 2013, the Board of Directors approved an increase in the availability under the Company's existing share repurchase program to allow for the repurchase of up to 10.2 million shares of BlackRock common stock. The Company repurchased 1.9 million common shares in open market transactions under the share repurchase program for approximately \$500 million during the six months ended June 30, 2013. At June 30, 2013, there were 8.3 million shares still authorized to be repurchased.

17. Earnings Per Share

Prior to the quarter ended March 31, 2013, the Company calculated earnings per share ("EPS") pursuant to the two-class method as defined in ASC 260-10, *Earnings per Share* ("ASC 260-10"), which specifies that all outstanding unvested share-based payment awards that contain rights to non-forfeitable dividends or dividend equivalents are considered participating securities and should be included in the computation of EPS pursuant to the two-class method. The majority of the Company's participating securities vested in January 2013 and, therefore, beginning in the quarter ended March 31, 2013, the Company calculates EPS under the treasury stock method.

Due to the similarities in terms between BlackRock non-voting participating preferred stock and the Company's common stock, the Company considers its participating preferred stock to be a common stock equivalent for purposes of EPS calculations. As such, the Company has included the outstanding non-voting participating preferred stock in the calculation of average basic and diluted shares outstanding.

20. Subsequent Events

Tax Legislation in the United Kingdom

In July 2013, the United Kingdom enacted legislation reducing corporate income taxes. The legislation will result in a revaluation of certain deferred tax assets and liabilities, which will result in a non-cash income tax benefit in the third quarter 2013. At this time, the Company is still evaluating the impact to the condensed consolidated financial statements.

Acquisitions

MGPA. In May 2013, the Company announced that it agreed to acquire MGPA, an independently-managed private equity real estate investment advisory company in Asia-Pacific and Europe. The transaction is expected to close in the third quarter 2013, subject to customary regulatory approvals and closing conditions.

Credit Suisse ETF. In July 2013, the Company completed the acquisition of Credit Suisse's ETF franchise. The financial impact of the transaction is not expected to be material to the condensed consolidated financial statements.

Other

The Company conducted a review for additional subsequent events and determined that no additional subsequent events had occurred that would require accrual or disclosure.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-looking Statements

This report, and other statements that BlackRock may make, may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act, with respect to BlackRock's future financial or business performance, strategies or expectations. Forward-looking statements are typically identified by words or phrases such as "trend," "potential," "opportunity," "pipeline," "believe," "comfortable," "expect," "anticipate," "current," "intention," "estimate," "position," "assume," "outlook," "continue," "remain," "maintain," "sustain," "seek," "achieve," and similar expressions, or future or conditional verbs such as "will," "would," "should," "could," "may" and similar expressions.

BlackRock cautions that forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time. Forward-looking statements speak only as of the date they are made, and BlackRock assumes no duty to and does not undertake to update forward-looking statements. Actual results could differ materially from those anticipated in forward-looking statements and future results could differ materially from historical performance.

In addition to risk factors previously disclosed in BlackRock's Securities and Exchange Commission ("SEC") reports and those identified elsewhere in this report, the following factors, among others, could cause actual results to differ materially from forward-looking statements or historical performance: (1) the introduction, withdrawal, success and timing of business initiatives and strategies; (2) changes and volatility in political, economic or industry conditions, the interest rate environment, foreign exchange rates or financial and capital markets, which could result in changes in demand for products or services or in the value of assets under management; (3) the relative and absolute investment performance of BlackRock's investment products; (4) the impact of increased competition; (5) the impact of future acquisitions or divestitures; (6) the unfavorable resolution of legal proceedings; (7) the extent and timing of any share repurchases; (8) the impact, extent and timing of technological changes and the adequacy of intellectual property, information and cyber security protection; (9) the impact of legislative and regulatory actions and reforms, including the Dodd-Frank Wall Street Reform and Consumer Protection Act, and regulatory, supervisory or enforcement actions of government agencies relating to BlackRock or The PNC Financial Services Group, Inc. ("PNC"); (10) terrorist activities, international hostilities and natural disasters, which may adversely affect the general economy, domestic and local financial and capital markets, specific industries or BlackRock; (11) the ability to attract and retain highly talented professionals; (12) fluctuations in the carrying value of BlackRock's economic investments; (13) the impact of changes to tax legislation, including income, payroll and transaction taxes, and taxation on products or transactions, which could affect the value proposition to clients and, generally, the tax position of the Company; (14) BlackRock's success in maintaining the distribution of its products; (15) the impact of BlackRock electing to provide support to its products from time to time and any potential liabilities related to securities lending or other indemnification obligations; and (16) the impact of problems at other financial institutions or the failure or negative performance of products at other financial institutions.

PennyMac IPO. At March 31, 2013, BlackRock held an approximately one-third economic equity interest in Private National Mortgage Acceptance Company, LLC (“PNMAC”), which is accounted for as an equity method investment. On May 8, 2013, PennyMac Financial Services, Inc. (“PennyMac”) became the sole managing member of PNMAC in connection with an initial public offering of PennyMac (the “PennyMac IPO”). As a result of the PennyMac IPO, BlackRock recorded a non-cash, non-operating pre-tax gain of \$39 million related to the carrying value of its equity method investment. BlackRock was not a seller in the PennyMac IPO.

Charitable Contribution. Subsequent to the PennyMac IPO, the Company contributed 6.1 million units of its PennyMac investment to a new donor advised fund (the “Charitable Contribution”). The fair value of the Charitable Contribution was \$124 million and is included in general and administration expenses on the condensed consolidated statements of income. In connection with the Charitable Contribution, the Company also recorded a non-cash, non-operating pre-tax gain of \$80 million related to the contributed investment and a tax benefit of approximately \$57 million.

The Company will continue to account for its remaining interest (approximately 20% or 16 million units) in PennyMac as an equity method investment.

The general and administration expenses, non-operating gain and associated tax benefit related to the Charitable Contribution have been excluded from as adjusted results.

Three Months Ended June 30, 2013 Compared with Three Months ended June 30, 2012.

GAAP. Operating income of \$849 million increased \$20 million from the three months ended June 30, 2012, reflecting record base fees and strong performance fees, substantially offset by higher expenses, primarily due to the \$124 million expense related to the Charitable Contribution and higher revenue-related expenses. Non-operating income (expense), less net income (loss) attributable to NCI increased \$138 million primarily due to the \$39 million pre-tax gain related to the PennyMac IPO, the \$80 million gain related to the Charitable Contribution and higher net positive marks on investments during the current quarter compared with the prior year quarter. Earnings per diluted common share rose \$1.11, or 36%, compared with the quarter ended June 30, 2012 due to higher net income and the benefit of share repurchases.

As Adjusted. Operating income of \$982 million and operating margin of 41.3% increased \$150 million and 210 bps, respectively, from the second quarter 2012. Earnings per diluted common share rose \$1.05, or 34%, from the prior year quarter. The financial impact related to the Charitable Contribution has been excluded from as adjusted results. Second quarter 2013 earnings per share reflects the \$39 million non-cash, non-operating pre-tax gain related to the PennyMac IPO.

Six Months Ended June 30, 2013 Compared with Six Months ended June 30, 2012.

GAAP. Operating income of \$1,758 million increased \$114 million from the six months ended June 30, 2012, reflecting growth in base fees and strong performance fees, partially offset by higher expenses, primarily due to the \$124 million expense related to the Charitable Contribution and higher revenue-related expenses. The results for the six months ended June 30, 2013 also included \$42 million of organizational alignment costs and \$18 million of closed-end fund launch costs. Non-operating income (expense), less net income (loss) attributable to NCI increased \$125 million due to the \$39 million pre-tax gain related to the PennyMac IPO, the \$80 million gain related to the Charitable Contribution and higher net positive marks on investments during the six months ended June 30, 2013 compared with the prior year period. Earnings per diluted common share rose \$1.59, or 26%, compared with the prior year period due to higher net income and the benefit of share repurchases.

[Table of Contents](#)

As *Adjusted*. Operating income of \$1,903 million and operating margin of 40.6% increased \$246 million and 170 bps, respectively, from the six months ended June 30, 2012. The current period results included the previously mentioned organizational alignment costs of \$42 million, closed-end fund launch costs of \$18 million and the \$39 million pre-tax gain related to the PennyMac IPO. Earnings per diluted common share rose \$1.54, or 25%, from the six months ended June 30, 2012. The financial impact related to the Charitable Contribution has been excluded from as adjusted results.

See *Non-GAAP Financial Measures* for further information on as adjusted items.

For further discussion of BlackRock's revenue, expenses, non-operating results and income tax expense, see *Discussion of Financial Results* herein.

Non-GAAP Financial Measures

BlackRock reports its financial results in accordance with accounting principles generally accepted in the United States ("GAAP"); however, management believes evaluating the Company's ongoing operating results may be enhanced if investors have additional non-GAAP basis financial measures. Management reviews non-GAAP financial measures to assess ongoing operations and, for the reasons described below, considers them to be effective indicators, for both management and investors, of BlackRock's financial performance over time. BlackRock's management does not advocate that investors consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP.

Computations for all periods are derived from the Company's condensed consolidated statements of income as follows:

(a) Operating income, as adjusted, and operating margin, as adjusted:

Operating income, as adjusted, equals operating income, GAAP basis, adjusted, excluding certain items management deems non-recurring, or transactions that ultimately will not impact BlackRock's book value, as indicated in the table below. Operating income used for operating margin measurement equals operating income, as adjusted, excluding the impact of closed-end fund launch costs and related commissions. Operating margin, as adjusted, equals operating income used for operating margin measurement divided by revenue (net of distribution and servicing costs and amortization of deferred sales commissions) used for operating margin measurement, as indicated in the table below.

Management believes operating income, as adjusted, and operating margin, as adjusted, are effective indicators of BlackRock's financial performance over time and, therefore, provide useful disclosure to investors.

Operating margin, as adjusted	41.3%	39.2%	40.6%	38.9%

- Operating income, as adjusted:** Operating income, as adjusted, reflects the non-GAAP expense adjustments discussed below. The \$124 million expense related to the Charitable Contribution has been excluded from operating income, as adjusted, due to its non-recurring nature and because the non-cash, non-operating pre-tax gain of \$80 million related to the contributed PennyMac investment is reported in non-operating income (expense). The portion of compensation expense associated with certain long-term incentive plans ("LTIP") funded, or to be funded, through share distributions to participants of BlackRock stock held by PNC has been excluded because it ultimately does not impact BlackRock's book value. Compensation expense associated with appreciation (depreciation) on investments related to certain BlackRock deferred compensation plans has been excluded as returns on investments set aside for these plans, which substantially offset this expense, are reported in non-operating income (expense).

Management believes operating income exclusive of these items is a useful measure in evaluating BlackRock's operating performance and helps enhance the comparability of this information for the reporting periods presented.

- Operating margin, as adjusted:** Operating income used for measuring operating margin, as adjusted, is equal to operating income, as adjusted, excluding the impact of closed-end

Table of Contents

(a) (continued)

fund launch costs and related commissions. Management believes the exclusion of such costs and related commissions is useful because these costs can fluctuate considerably and revenues associated with the expenditure of these costs will not fully impact the Company's results until future periods.

Operating margin, as adjusted, allows the Company to compare performance from period-to-period by adjusting for items that may not recur, recur infrequently or may have an economic offset in non-operating income (expense). Examples of such adjustments include commissions paid to certain employees as compensation and fluctuations in compensation expense based on mark-to-market movements in investments held to fund certain compensation plans. The Company also uses operating margin, as adjusted, to monitor corporate performance and efficiency and as a benchmark to compare its performance with other companies. Management uses both GAAP and non-GAAP financial measures in evaluating the financial performance of BlackRock. The non-GAAP measure by itself may pose limitations because it does not include all of the Company's revenues and expenses.

Revenue used for operating margin, as adjusted, excludes distribution and servicing costs paid to related parties and other third parties. Management believes the exclusion of such costs is useful because it creates consistency in the treatment for certain contracts for similar services, which due to the terms of the contracts, are accounted for under GAAP on a net basis within investment advisory, administration fees and securities lending revenue. Amortization of deferred sales commissions is excluded from revenue used for operating margin measurement, as adjusted, because such costs, over time, substantially offset distribution fee revenue earned by the Company. For each of these items, BlackRock excludes from revenue used for operating margin, as adjusted, the costs related to each of these items as a proxy for such offsetting revenues.

(b) Non-operating income (expense), less net income (loss) attributable to NCI, as adjusted:

Non-operating income (expense), less net income (loss) attributable to NCI, as adjusted, is presented below. The compensation expense offset is recorded in operating income. This compensation expense has been included in non-operating income (expense), less net income (loss) attributable to NCI, as adjusted, to offset returns on investments set aside for these plans, which are reported in non-operating income (expense), GAAP basis.

Management believes non-operating income (expense), less net income (loss) attributable to NCI, as adjusted, provides comparability of this information among reporting periods and is an effective measure for reviewing BlackRock's non-operating contribution to its results. As compensation expense associated with (appreciation) depreciation on investments related to certain deferred compensation plans, which is included in operating income, substantially offsets the gain (loss) on the investments set aside for these plans, management believes non-operating income (expense), less net income (loss) attributable to NCI, as adjusted, provides a useful measure, for both management and investors, of BlackRock's non-operating results that impact book value. The non-cash, non-operating pre-tax gain of \$80 million related to the contributed PennyMac investment has been excluded from non-operating income (expense), less net income (loss) attributable to NCI, as adjusted due to its non-recurring nature and because the more than offsetting associated Charitable Contribution expense of \$124 million is reported in operating income.

(c) Net income attributable to BlackRock, as adjusted:

Management believes net income attributable to BlackRock, as adjusted, and diluted earnings per common share, as adjusted, are useful measures of BlackRock's profitability and financial performance. Net income attributable to BlackRock, as adjusted, equals net income attributable to BlackRock, GAAP basis, adjusted for significant non-recurring items, charges that ultimately will not impact BlackRock's book value or certain tax items that do not impact cash flow.

See note (a) Operating income, as adjusted, and operating margin, as adjusted, for information on the Charitable Contribution and the PNC LTIP funding obligation.

The three and six months ended June 30, 2013 included a tax benefit of approximately \$57 million recognized in connection with the Charitable Contribution. The tax benefit has been excluded from net income attributable to BlackRock, Inc., as adjusted due to the non-recurring nature of the Charitable Contribution.

For the six months ended June 30, 2013 and 2012, the PNC LTIP funding obligation non-GAAP adjustments were tax effected at 31.0%. The three and six months ended June 30, 2013 also included a tax benefit of approximately \$57 million related to the Charitable Contribution.

(e) For the three and six months ended June 30, 2012, amounts exclude net income attributable to participating securities (see below).

(f) Non-voting participating preferred stock is considered to be a common stock equivalent for purposes of determining basic and diluted earnings per share calculations.

Prior to first quarter 2013, certain unvested restricted stock units were not included in diluted weighted-average common shares outstanding as they were deemed participating securities in accordance with required provisions of Accounting Standards Codification ("ASC") 260-10, *Earnings per Share*. Average outstanding participating securities were 0.2 million for the quarter and six months ended June 30, 2012. For further information, see Note 17, *Earnings per Share*, to the condensed consolidated financial statements.

(2) Foreign exchange reflects the impact of converting non-U.S. dollar denominated AUM into U.S. dollars for reporting purposes.

(3) Advisory AUM represents long-term portfolio liquidation assignments.

(4) Amounts include commodity *iShares*.

AUM decreased \$79.4 billion to \$3.857 trillion at June 30, 2013 from \$3.936 trillion at March 31, 2013, largely driven by market declines and foreign exchange losses, partially offset by long-term positive net new business.

Net market depreciation of \$62.3 billion primarily included depreciation of \$40.2 billion across most fixed income strategies and net depreciation of \$10.6 billion from equity products primarily due to lower global equity markets.

AUM decreased \$15.3 billion from foreign exchange movements resulting from the strengthening of the U.S. dollar, largely against the Japanese yen and Australian dollar.

Net Subscriptions (Redemptions). Net redemptions of \$1.8 billion reflected outflows from cash management and advisory clients, substantially offset by positive long-term net new business of \$11.9 billion. Long-term flows included inflows of \$5.1 billion and \$7.8 billion from retail and institutional clients, respectively, partially offset by \$1.0 billion of outflows from *iShares*.

Table of Contents

Long-term Net Subscriptions (Redemptions). Net subscriptions in long-term products of \$11.9 billion reflected the following:

Net Subscriptions

- Multi-asset net inflows of \$11.1 billion reflecting strong flows of \$8.8 billion into institutional active multi-asset products driven by continued demand for the *LifePath*[®] target date suite, which had net inflows of \$4.0 billion;
- Non-ETF index fixed income net inflows of \$5.2 billion primarily driven by demand for local currency fixed income products in EMEA and for global bond mandates in Asia-Pacific; and
- Equity *iShares* net new business of \$2.7 billion, concentrated in U.S. core and single-country equity offerings, partially offset by outflows from emerging markets strategies.

Net Redemptions

- Active equity net outflows of \$4.3 billion concentrated in sector specific, U.S. and global strategies, partially offset by inflows into regional and country specific strategies; and
- Alternatives currency and commodities net outflows of \$4.3 billion primarily related to outflows from *iShares* commodity funds and active currency redemptions.

Cash Management Net Redemptions. Cash management net outflows of \$8.8 billion primarily were comprised of net outflows from Americas institutional and retail clients in prime strategies and EMEA institutional clients in offshore funds.

Advisory Net Redemptions. Advisory net outflows of \$4.9 billion were due to planned portfolio liquidations.

(2) Foreign exchange reflects the impact of converting non-U.S. dollar denominated AUM into U.S. dollars for reporting purposes.

(3) Advisory AUM represents long-term portfolio liquidation assignments.

(4) Amounts include commodity *iShares*.

AUM increased approximately \$65.4 billion to \$3.857 trillion at June 30, 2013 from \$3.792 trillion at December 31, 2012, largely driven by market appreciation of \$97.8 billion and net inflows of \$38.7 billion. The increase in AUM was partially offset by foreign exchange losses.

Net market appreciation of \$97.8 billion included \$127.2 billion from equity products, primarily due to higher U.S. and global equity markets, partially offset by depreciation of \$28.9 billion from fixed income products across all fixed income strategies.

The \$71.1 billion decrease in AUM from foreign exchange movements was due to the strengthening of the U.S. dollar, primarily against the pound sterling and Japanese yen.

Net Subscriptions (Redemptions). Net subscriptions reflected positive long-term net new business of \$51.4 billion, partially offset by outflows from cash management and advisory clients. Net long-term subscriptions reflected net subscriptions of \$24.6 billion from *iShares* clients, \$13.9 billion from retail clients and \$12.9 billion from institutional clients.

Table of Contents

Long-term Net Subscriptions (Redemptions). Net subscriptions in long-term products totaling \$51.4 billion, reflected the following:

Net Subscriptions

- Equity *iShares* net inflows of \$28.9 billion, concentrated in U.S., global and sector specific strategies;
- Multi-asset net inflows of \$20.1 billion, reflecting strong flows of \$14.6 billion into institutional active multi-asset products, driven by continued demand for the *LifePath* target date suite, which had net inflows of \$6.9 billion;
- Non-ETF index equity net inflows of \$15.6 billion primarily in global strategies, partially offset by outflows from regional and country specific strategies; and
- Non-ETF index fixed income net inflows of \$6.0 billion, concentrated in local currency and U.S. targeted duration strategies.

Net Redemptions

- Active equity net outflows of \$11.2 billion, concentrated in U.S. equity and sector specific strategies; and
- Alternatives currency and commodities net outflows of \$6.5 billion, primarily related to active currency redemptions and outflows from *iShares* commodity funds.

Cash Management Net Redemptions. Cash management net outflows of \$8.7 billion were driven by net outflows from Americas institutional clients primarily in prime strategies, partially offset by inflows from Americas institutional clients into government funds.

Advisory Net Redemptions. Advisory net outflows of \$4.0 billion were driven by planned portfolio liquidation disbursements.

(1) Amounts include distributions representing return of capital and return on investment to investors. Amounts also include the effect of a single non-ETF index fixed income outflow of \$74.2 billion in the third quarter 2012.

(2) Amounts include \$6.1 billion of AUM acquired from the SRPEP Transaction in September 2012.

(3) Foreign exchange reflects the impact of converting non-U.S. dollar denominated AUM into U.S. dollars for reporting purposes.

(4) Advisory AUM represents long-term portfolio liquidation assignments.

(5) Amounts include commodity *iShares*.

AUM increased approximately \$297.1 billion to \$3.857 trillion at June 30, 2013 from \$3.560 trillion at June 30, 2012, largely driven by market appreciation, net inflows of \$118.5 billion (excluding the effect of a single non-ETF index fixed income outflow of \$74.2 billion in the third quarter 2012) and acquired AUM related to the SRPEP Transaction. The increase in AUM was partially offset by foreign exchange losses.

Net market appreciation of \$299.9 billion included \$269.0 billion from equity products, primarily due to higher U.S. and global equity markets, and \$21.3 billion from multi-asset products, concentrated in global allocation strategies.

The \$47.0 billion decrease in AUM from foreign exchange movements was due to the strengthening of the U.S. dollar, primarily against the pound sterling and Japanese yen.

Net Subscriptions (Redemptions). Net subscriptions of \$44.3 billion included the effect of a single low-fee, non-ETF index fixed income redemption of \$74.2 billion in the third quarter 2012. The net new business figures below exclude this redemption. Long-term net subscriptions of \$129.7 billion reflected net subscriptions of \$85.5 billion from *iShares* clients, \$22.6 billion from retail clients and \$21.6 billion from institutional clients.

Table of Contents

Long-term Net Subscriptions (Redemptions). Net subscriptions in long-term products totaling \$129.7 billion, excluding the single low-fee non-ETF index fixed income outflow discussed above, reflected the following:

Net Subscriptions

- Equity *iShares* net inflows of \$79.5 billion across all strategies, concentrated in U.S. equity and regional and country specific strategies;
- Non-ETF index equity net inflows of \$28.7 billion primarily in global strategies, partially offset by outflows from U.S. equity products and regional and country specific strategies;
- Multi-asset net inflows of \$26.8 billion reflecting strong demand for target-date funds, including *LifePath* portfolios; and
- Non-ETF index fixed income net inflows of \$16.2 billion (excluding the single low-fee non-ETF index fixed income outflow discussed above), concentrated in U.S. core strategies.

Net Redemptions

- Active equity net outflows of \$21.7 billion, concentrated in U.S., global and sector specific strategies.

Cash Management Net Subscriptions. Cash management net inflows of \$12.8 billion were comprised of net inflows from Americas institutional clients primarily into government and Americas retail clients primarily into prime strategies.

Advisory Net Redemptions. Advisory net outflows of \$24.0 billion were driven by planned portfolio liquidation disbursements.

Discussion of Financial Results

Operating income of \$849 million increased \$20 million from the three months ended June 30, 2012, reflecting record base fees and strong performance fees, substantially offset by higher expenses, primarily due to the \$124 million expense related to the Charitable Contribution and higher revenue-related expenses. Non-operating income (expense), less net income (loss) attributable to NCI increased \$138 million primarily due to the \$39 million pre-tax gain related to the PennyMac IPO, the \$80 million gain related to the Charitable Contribution and higher net positive marks on investments during the current quarter compared with the prior year quarter. Earnings per diluted common share rose \$1.11, or 36%, compared with the prior year quarter due to higher net income and the benefit of share repurchases.

Operating income of \$1,758 million increased \$114 million from the six months ended June 30, 2012, reflecting growth in base fees and strong performance fees, partially offset by higher expenses, primarily due to the \$124 million expense related to the Charitable Contribution and higher revenue-related expenses. The results for the six months ended June 30, 2013 also included \$42 million of organizational alignment costs and \$18 million of closed-end fund launch costs. Non-operating income (expense), less net income (loss) attributable to NCI increased \$125 million due to the \$39 million pre-tax gain related to the PennyMac IPO, the \$80 million gain related to the Charitable Contribution and higher net positive marks on investments during the six months ended June 30, 2013 compared with the prior year period. Earnings per diluted common share rose \$1.59, or 26%, compared with the prior year period due to higher net income and the benefit of share repurchases.

due to growth in long-term average AUM. Securities lending fees were \$136 million and \$157 million in the second quarter 2013 and 2012, respectively. The decrease in securities lending fees primarily was driven by lower spreads.

Investment advisory performance fees increased \$48 million from the prior year quarter, primarily reflecting higher fees from alternative products.

BlackRock Solutions and advisory revenue in the second quarter 2013 totaled \$138 million, including \$98 million of revenue from the *Aladdin*® business, compared with \$131 million in the prior year quarter, which included \$95 million of revenue from the *Aladdin* business. The increase primarily reflected higher revenue from *Aladdin* mandates and higher one-time revenue from advisory assignments.

Other revenue increased \$13 million, largely reflecting higher earnings from certain advisory company equity method investments.

Six Months Ended June 30, 2013 Compared with Six Months ended June 30, 2012.

Investment advisory, administration fees and securities lending revenue of \$4,306 million for the six months ended June 30, 2013 increased \$339 million from \$3,967 million in the prior year period due to growth in long-term average AUM. Securities lending fees were \$248 million and \$268 million in the six months ended June 30, 2013 and June 30, 2012, respectively. The decrease in securities lending fees primarily was driven by lower spreads.

For the quarter and six months ended June 30, 2013, non-ETF index equity and non-ETF index fixed income were only 10%, respectively, of total base fees; however, AUM associated with these base fees represented 39% of total average AUM.

Investment advisory performance fees were \$197 million in the six months ended June 30, 2013 compared with \$121 million in the prior year period, primarily reflecting higher fees from alternative products.

BlackRock Solutions and advisory revenue in the six months ended June 30, 2013 totaled \$264 million, including \$197 million of revenue from the *Aladdin* business, compared with \$254 million in the prior year period, which included \$183 million of revenue from the *Aladdin* business. The increase primarily reflected higher revenue from *Aladdin* mandates, partially offset by the decline in revenues associated with the run off of assets related to advisory assignments.

Other revenue increased \$32 million, largely reflecting higher earnings from certain advisory company equity method investments and higher transition management service fees.

Three Months Ended June 30, 2013 Compared with Three Months ended June 30, 2012.

Employee compensation and benefits expense increased \$78 million, or 10%, to \$864 million in the current quarter from \$786 million in the prior year quarter reflecting higher incentive compensation driven by higher operating income, including higher performance fees. Employees at June 30, 2013 totaled approximately 10,700 compared with approximately 9,900 at June 30, 2012.

Distribution and servicing costs totaled \$90 million in the current quarter compared with \$93 million in the prior year quarter. These costs included payments to Bank of America/Merrill Lynch under a global distribution agreement and PNC, as well as other third parties, primarily associated with the distribution and servicing of client investments in certain BlackRock products. The three months ended June 30, 2013 and 2012 included \$47 million and \$49 million, respectively, of costs attributable to Bank of America and affiliates.

Direct fund expenses increased \$18 million, reflecting an increase in average AUM where BlackRock pays certain non-advisory expenses of certain sponsored funds.

General and administration expenses increased \$141 million, largely driven by the \$124 million related to the Charitable Contribution. Amounts related to the Charitable Contribution have been excluded from as adjusted results.

Six Months Ended June 30, 2013 Compared with Six Months ended June 30, 2012.

Employee compensation and benefits expense increased \$158 million, or 10%, to \$1,769 million in the six months ended June 30, 2013 from \$1,611 million in the prior year period reflecting higher incentive compensation driven by higher operating income, including higher performance fees and higher headcount. The six months ended June 30, 2013 also reflected organizational alignment costs of \$42 million.

Distribution and servicing costs totaled \$181 million in the six months ended June 30, 2013 compared with \$188 million in the six months ended June 30, 2012. These costs included payments to Bank of America/Merrill Lynch under a global distribution agreement and PNC, as well as other third parties, primarily associated with the distribution and servicing of client investments in certain BlackRock products. The six months ended June 30, 2013 and 2012 included \$94 million and \$97 million, respectively, of costs attributable to Bank of America and affiliates.

Direct fund expenses increased \$27 million, reflecting an increase in average AUM where BlackRock pays certain non-advisory expenses of the funds.

General and administration expenses increased \$165 million, largely driven by the \$124 million related to the Charitable Contribution and closed-end fund launch costs of \$16 million (excluding \$2 million included in employee compensation and benefits expense). The financial impact related to the Charitable Contribution has been excluded from as adjusted results.

The three and six months ended June 30, 2013 included the approximately \$57 million tax benefit recognized in connection with the Charitable Contribution, which was excluded from as adjusted results. In addition, the current period included a tax benefit of approximately \$29 million, primarily due to the realization of loss carryforwards.

Balance Sheet Overview

As Adjusted Balance Sheet

The following table presents a reconciliation of the condensed consolidated statement of financial condition presented on a GAAP basis to the condensed consolidated statement of financial condition, excluding the impact of separate account assets and separate account collateral held under securities lending agreements (directly related to lending separate account securities) and separate account liabilities and separate account collateral liabilities under securities lending agreements, consolidated VIEs and consolidated sponsored investment funds.

The Company presents the as adjusted balance sheet as additional information to enable investors to exclude certain assets that have equal and offsetting liabilities or noncontrolling interests that ultimately do not have an impact on stockholders' equity (excluding appropriated retained earnings related to consolidated collateralized loan obligations ("CLOs")) or cash flows. Management views the as adjusted balance sheet, a non-GAAP financial measure, as an economic presentation of its total assets and liabilities; however, it does not advocate that investors consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP.

Separate Account Assets and Liabilities and Separate Account Collateral Held under Securities Lending Agreements

Separate account assets are maintained by BlackRock Life Limited, a wholly owned subsidiary of the Company, which is a registered life insurance company in the United Kingdom, and represent segregated assets held for purposes of funding individual and group pension contracts. The Company records equal and offsetting separate account liabilities. The separate account assets are not available to creditors of the Company and the holders of the pension contracts have no recourse to the Company's assets. The net investment income attributable to separate account assets accrues directly to the contract owners and is not reported on the condensed consolidated

[Table of Contents](#)

statements of income. While BlackRock has no economic interest in these assets or liabilities, BlackRock earns an investment advisory fee for the service of managing these assets on behalf of the clients.

In addition, the Company records on its condensed consolidated statements of financial condition the separate account collateral received under securities lending arrangements as its own asset in addition to an equal and offsetting separate account collateral liability for the obligation to return the collateral.

Consolidated VIEs

At June 30, 2013, BlackRock's consolidated VIEs included CLOs and one investment fund. The assets of these VIEs are not available to creditors of the Company and the Company has no obligation to settle the liabilities of the VIEs. While BlackRock has no material economic interest in these assets or liabilities, BlackRock earns an investment advisory fee, as well as a potential performance fee, for the service of managing these assets on behalf of clients.

Consolidated Sponsored Investment Funds

The Company consolidates certain sponsored investment funds primarily because it is deemed to control such funds. The Company is not readily able to access cash and cash equivalents held by consolidated sponsored investment funds to use in its operating activities. In addition, the Company is not readily able to sell investments held by consolidated sponsored investment funds in order to obtain cash for use in the Company's operations.

Table of Contents

The following table presents selected significant components of BlackRock's GAAP condensed consolidated statements of financial condition at June 30, 2013 and December 31, 2012:

<i>(in millions)</i>	June 30, 2013	December 31, 2012
Assets:		
Cash and cash equivalents	\$ 3,668	\$ 4,606
Accounts receivable	2,249	2,250

Deferred income tax liabilities	5,318	5,293
Other liabilities	935	858
Stockholders' equity	25,589	25,403

⁽¹⁾ Amounts include property and equipment and other assets.

⁽²⁾ Amounts include long-term borrowings at both June 30, 2013 and December 31, 2012 and \$100 million of short-term borrowings at December 31, 2012.

The following discussion summarizes the significant changes in assets and liabilities. The discussion does not include changes related to assets and liabilities that are equal and offsetting and have no impact on BlackRock's stockholders' equity.

Cash and Cash Equivalents. Cash and cash equivalents at June 30, 2013 and December 31, 2012 included \$185 million and \$133 million, respectively, of cash held by consolidated sponsored investment funds. See *Liquidity and Capital Resources* for details on the change in cash and cash equivalents during 2013.

Investments. Investments totaled \$1,773 million at June 30, 2013 and \$1,750 million at December 31, 2012. Investments include investments that are held by sponsored investment funds deemed to be controlled by BlackRock. Management reviews BlackRock's investments on an "economic" basis, which eliminates the portion of investments that does not impact BlackRock's book value. BlackRock's management does not advocate that investors consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP.

The Company presents total investments, as adjusted, to enable investors to understand the portion of its investments that is owned by the Company, net of NCI, as a gauge to measure the impact of changes in net non-operating gain (loss) on investments to net income (loss) attributable to BlackRock.

The Company further presents net "economic" investment exposure, net of deferred compensation investments and hedged investments, to reflect another gauge for investors as the economic impact of investments held pursuant to deferred compensation arrangements is substantially offset by a change in compensation expense and the impact of hedged investments is substantially mitigated by swap hedges. Carried interest capital allocations are excluded as there is no impact to BlackRock's stockholders' equity until such amounts are realized as performance fees. Finally, the Company's regulatory investment in Federal Reserve Bank stock, which is not

[Table of Contents](#)

subject to market or interest rate risk, is excluded from the Company's net economic investment exposure.

<i>(in millions)</i>	June 30, 2013	December 31, 2012

⁽¹⁾ At June 30, 2013 and December 31, 2012, approximately \$627 million and \$524 million, respectively, of BlackRock's total GAAP investments were held in sponsored investment funds that were deemed to be controlled by BlackRock in accordance with GAAP, and, therefore, are consolidated even though BlackRock may not economically own a majority of such funds.

The following table represents the carrying value of the Company's economic investment exposure, by asset type, at June 30, 2013 and December 31, 2012:

<i>(in millions)</i>	June 30, 2013	December 31, 2012
Private equity	\$ 304	\$ 298

Total investments, as adjusted ⁽²⁾	\$ 496	\$ 302	\$ 559	\$ 364	\$ 1,721

⁽¹⁾ Amount includes investments held at cost or amortized cost, carried interest and equity method investments, which include investment companies, which are not accounted for under a fair value measure. Certain equity method investees do not account for both their financial assets and financial liabilities under fair value measures, therefore, the Company's investment in such equity method investees may not represent fair value.

⁽²⁾ Amounts include BlackRock's portion of cash and cash equivalents, other assets and liabilities that are consolidated from non-VIE sponsored investment funds. See Note 5, *Fair Value Disclosures*, to the condensed consolidated financial statements contained in Part I, Item 1 of this filing, for total GAAP investments.

Goodwill and Intangible Assets. Goodwill and intangible assets at June 30, 2013 decreased \$91 million from December 31, 2012 primarily due to \$80 million of intangible assets amortization expense.

Other Assets. Other assets at June 30, 2013 increased \$94 million from December 31, 2012, primarily related to an increase in current taxes receivable and higher earnings from certain advisory company equity method investments, partially offset by a decrease in property and equipment.

Accrued Compensation and Benefits. Accrued compensation and benefits at June 30, 2013 decreased \$599 million from December 31, 2012, primarily due to 2012 incentive compensation cash payments in the first quarter 2013, partially offset by the effect of 2013 incentive compensation accruals.

Accounts Payable and Accrued Liabilities. Accounts payable and accrued liabilities at June 30, 2013 increased \$216 million from December 31, 2012, due to higher unit trust payables (substantially offset by an increase in unit trust receivables recorded within accounts receivable) and increased accruals, including direct fund and marketing expenses.

Borrowings. Borrowings at June 30, 2013 decreased \$849 million from December 31, 2012 resulting from the repayments of \$750 million and \$100 million of long-term and short-term borrowings, respectively.

Deferred Income Tax Liabilities. Net deferred income tax liabilities at June 30, 2013 increased \$25 million, primarily as a result of the effects of temporary differences associated with stock compensation and investment income. In addition, the increase included revaluation of certain deferred income tax liabilities primarily due to the Charitable Contribution and realization of loss carryforwards.

Other Liabilities. Other liabilities at June 30, 2013 increased \$77 million from December 31, 2012, primarily resulting from an increase in deferred carried interest and other operating liabilities.

Stockholders' Equity. Total stockholders' equity at June 30, 2013 increased \$186 million from December 31, 2012, primarily resulting from \$1,361 million of net income attributable to BlackRock, \$231 million of stock-based compensation expense and \$31 million of excess tax

benefits from vested stock-based compensation. The increase in stockholders' equity was partially offset by \$715 million of share repurchases, including \$500 million (1.9 million shares) in open market transactions and \$215 million (0.9 million shares) of employee tax withholdings related to employee stock transactions, \$595 million of cash dividend payments and \$131 million of foreign currency translation adjustments.

Liquidity and Capital Resources

BlackRock Cash Flows Excluding the Impact of Consolidated Sponsored Investment Funds and VIEs

BlackRock consolidates certain BlackRock sponsored investment funds and CLOs, notwithstanding the fact BlackRock may only have a minority interest, if any, in these funds or CLOs. As a result, the condensed consolidated statements of cash flows include the cash flows of consolidated sponsored investment funds and CLOs. The Company uses an adjusted cash flow statement, which excludes the impact of consolidated sponsored investment funds and CLOs, as a supplemental non-GAAP measure to assess liquidity and capital requirements. The Company believes that its cash flows, excluding the impact of the consolidated sponsored investment funds and CLOs, provide investors with useful information on the cash flows of BlackRock relating to its ability to fund additional operating, investing and financing activities. BlackRock's management does not advocate that investors consider such non-GAAP measures in isolation from, or as a substitute for, its cash flows presented in accordance with GAAP.

The following table presents a reconciliation of the condensed consolidated statements of cash flows presented on a GAAP basis to the consolidated statements of cash flows, excluding the impact of the cash flows of consolidated sponsored investment funds and consolidated VIEs:

<i>(in millions)</i>	GAAP Basis	Impact on Cash Flows of Consolidated Sponsored Investment Funds	Impact on Cash Flows of Consolidated VIEs	Cash Flows Excluding Impact of Consolidated Sponsored Investment Funds and VIEs

Cash and cash equivalents, June 30, 2013	<u>\$ 3,668</u>	<u>\$ 185</u>	<u>\$ —</u>	<u>\$ 3,483</u>

Sources of BlackRock's operating cash primarily include investment advisory, administration fees and securities lending revenue, performance fees, revenue from *BlackRock Solutions* and advisory products and services, other revenue and distribution fees.

BlackRock uses its cash to pay all operating expenses, interest and principal on the Company's borrowings, income taxes, dividends on BlackRock's capital stock, repurchases of the Company's stock, capital expenditures and purchases of co-investments and seed investments.

Table of Contents

Cash flows from operating activities, excluding the impact of consolidated sponsored investment funds and VIEs, primarily include the receipt of investment advisory and administration fees, securities lending revenue and other revenue offset by the payment of operating expenses incurred in the normal course of business, including the effect of first quarter cash payments related to year-end incentive compensation.

Cash inflows from investing activities, excluding the impact of consolidated sponsored investment funds and VIEs, for the six months ended June 30, 2013 were \$32 million and primarily reflected \$224 million of net proceeds from sales and maturities of investments, partially offset by \$184 million of investment purchases.

Cash outflows from financing activities, excluding the impact of consolidated sponsored investment funds and VIEs, for the six months ended June 30, 2013 were \$2.11 billion, primarily resulting from \$715 million of share repurchases, including \$500 million in open market transactions and \$215 million of employee tax withholdings related to employee stock transactions, a \$750 million repayment of long-term debt, \$595 million of cash dividend payments and a \$100 million repayment of short-term debt. Cash outflows from financing activities were partially offset by cash inflows related to \$35 million of excess tax benefits from stock-based compensation.

The Company manages its financial condition and funding to maintain appropriate liquidity for the business. Liquidity resources at June 30, 2013 and December 31, 2012 were as follows:

<i>(in millions)</i>	June 30, 2013	December 31, 2012
Cash and cash equivalents	\$ 3,668	\$ 4,606
Cash and cash equivalents held by consolidated sponsored investment funds ⁽¹⁾	(185)	(133)
Sub-total	3,483	4,473
Credit facility – undrawn	3,990	3,685
Total liquidity	\$ 7,473	\$ 8,158

⁽¹⁾ The Company is not able to access such cash to use in its operating activities.

Total liquidity decreased \$685 million during the six months ended June 30, 2013, primarily reflecting the \$750 million repayment of long-term borrowings, cash payments of 2012 year-end incentive awards, share repurchases, including \$500 million in open market transactions, and cash dividend payments, partially offset by positive operating cash flow and the increased aggregate commitment of the 2013 credit facility to \$3.990 billion.

A significant portion of the Company's \$1,721 million of total investments, as adjusted, is illiquid in nature and, as such, may not be readily convertible to cash.

Share Repurchase Approval. In January 2013, the Board of Directors approved an increase in the availability under the Company's existing share repurchase program to allow for the repurchase of up to 10.2 million shares of BlackRock common stock. The Company repurchased 1.9 million common shares in open market transactions under the share repurchase program for approximately \$500 million during the six months ended June 30, 2013. At June 30, 2013, there were 8.3 million shares still authorized to be repurchased.

Net Capital Requirements. The Company is required to maintain net capital in certain regulated subsidiaries within a number of jurisdictions, which is partially maintained by retaining cash and cash equivalent investments in those subsidiaries or jurisdictions. As a result, such subsidiaries of the Company may be restricted in their ability to transfer cash between different jurisdictions and to their parents. Additionally, transfers of cash between international jurisdictions, including repatriation to the United States, may have adverse tax consequences that could discourage such transfers.

BlackRock Institutional Trust Company, N.A. ("BTC") is chartered as a national bank that does not accept client deposits and whose powers are limited to trust activities. BTC provides investment management services, including investment advisory and securities lending agency services to institutional investors and other clients. BTC is subject to regulatory capital and liquid asset requirements administered by the Office of the Comptroller of the Currency.

At June 30, 2013, the Company was required to maintain approximately \$1,160 million compared with \$1,209 million at December 31, 2012 in net capital in certain regulated subsidiaries, including BTC, entities regulated by the Financial Conduct Authority and Prudential Regulation Authority in the United Kingdom and the Company's broker-dealers, and was in compliance with all applicable regulatory minimum net capital requirements.

Short-Term Borrowings

The following describes the Company's short-term borrowing arrangements.

2013 Revolving Credit Facility. In March 2013, the Company's credit facility was amended to extend the maturity date by one year to March 2018 and the amount of the aggregate commitment was increased to \$3.990 billion (the "2013 credit facility"). The 2013 credit facility permits the Company to request up to an additional \$1.0 billion of borrowing capacity, subject to lender credit approval, increasing the overall size of the 2013 credit facility to an aggregate principal amount not to exceed \$4.990 billion. Interest on borrowings outstanding accrues at a rate based on the applicable London Interbank Offered Rate plus a spread. The 2013 credit facility requires the Company not to exceed a maximum leverage ratio (ratio of net debt to earnings before interest, taxes, depreciation and amortization, where net debt equals total debt less unrestricted cash) of 3 to 1, which was satisfied with a ratio of less than 1 to 1 at June 30, 2013.

The 2013 credit facility provides back-up liquidity, funds ongoing working capital for general corporate purposes and funds various investment opportunities. At June 30, 2013, the Company had no amount outstanding under the 2013 credit facility.

Commercial Paper Program. In April 2013, BlackRock increased the maximum aggregate amount for which the Company could issue unsecured commercial paper notes (the "CP Notes") on a private-placement basis up to a maximum aggregate amount outstanding at any time of \$3.990 billion. The commercial paper program is currently supported by the 2013 credit facility.

At June 30, 2013, BlackRock had no CP Notes outstanding.

[Table of Contents](#)**Long-Term Borrowings**

At June 30, 2013, the principal amount of long-term borrowings was \$4.950 billion. See Note 11, *Borrowings*, in the 2012 Form 10-K for more information on borrowings outstanding at December 31, 2012. During the six months ended June 30, 2013, the Company paid approximately \$102 million of interest on long-term borrowings. Future principal repayments and interest requirements at June 30, 2013 were as follows:

(in millions)

Year	Principal	Interest	Total Payments
July-December 2013 ⁽¹⁾	\$ -	\$ 98	\$ 98
2014	1,000	196	1,196
2015	750	156	906
2016	-	151	151
2017	700	151	851
2018	-	107	107
Thereafter	2,500	235	2,735
Total	<u>\$4,950</u>	<u>\$1,094</u>	<u>\$6,044</u>

⁽¹⁾ In May 2013, the Company fully repaid \$750 million of floating rate notes at maturity.

Investment Commitments. At June 30, 2013, the Company had \$219 million of various capital commitments to fund sponsored investment funds, including funds of private equity funds, real estate funds, infrastructure funds, opportunistic funds and distressed credit funds. This amount excludes additional commitments made by consolidated funds of funds to underlying third-party funds as third-party noncontrolling interest holders have the legal obligation to fund the respective commitments of such funds of funds. Generally, the timing of the funding of these commitments is unknown and the commitments are callable on demand at any time prior to the expiration of the commitment. These unfunded commitments are not recorded on the condensed consolidated statements of financial condition. These commitments do not include potential future commitments approved by the Company, but which are not yet legally binding. The Company intends to make additional capital commitments from time to time to fund additional investment products for, and with, its clients.

Carried Interest Claw-back. As a general partner in certain investment funds, including private equity partnerships and certain hedge funds, the Company may receive carried interest cash distributions from the partnerships in accordance with distribution provisions of the partnership agreements. The Company may, from time to time, be required to return all or a portion of such distributions to the limited partners in the event the limited partners do not achieve a return as specified in the various partnership agreements. Therefore, BlackRock records carried interest subject to such claw-back provisions in investments, or cash to the extent that it is distributed, as a deferred carried interest liability on its condensed consolidated statements of financial condition. Carried interest is realized and recorded as performance fees on its condensed consolidated statements of income upon the earlier of the termination of the investment fund or when the likelihood of claw-back is mathematically improbable.

Indemnifications. On behalf of certain clients the Company lends securities to highly rated banks and broker-dealers. In these securities lending transactions, the borrower is required to provide and maintain collateral at or above regulatory minimums. Securities on loan are marked to market daily to determine if the borrower is required to pledge additional collateral. BlackRock has issued certain indemnifications to certain securities lending clients against potential losses resulting

Table of Contents

from a borrower's failure to fulfill its obligations should the value of the collateral pledged by the borrower at the time of default be insufficient to cover the borrower's obligations under the securities lending agreement. At June 30, 2013, the Company indemnified certain of its clients for their securities lending loan balances of approximately \$101.1 billion. The Company held as agent, cash and securities totaling \$106.5 billion as collateral for indemnified securities on loan at June 30, 2013. The fair value of these indemnifications was not material at June 30, 2013. The Company currently expects indemnified balances to increase over time.

While the collateral pledged by a borrower is intended to be sufficient to offset the borrower's obligations to return securities borrowed and any other amounts owing to the lender under the relevant securities lending agreement, in the event of a borrower default, the Company can give no assurance that the collateral pledged by the borrower will be sufficient to fulfill such obligations. If the amount of such pledged collateral is not sufficient to fulfill such obligations to a client for whom the Company has provided indemnification, BlackRock would be responsible for the amount of the shortfall. These indemnifications cover only the collateral shortfall described above, and do not in any way guarantee, assume or otherwise insure the investment performance or return of any cash collateral vehicle into which securities lending cash collateral is invested.

Critical Accounting Policies

The preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ significantly from those estimates. In addition to Consolidation of VIEs, Fair Value Measurements and Performance Fees/Carried Interest discussed below, see Note 2, *Significant Accounting Policies*, in the Company's condensed consolidated financial statements contained in Part I, Item 1 of this filing and the Company's Critical Accounting Policies in Management's Discussion and Analysis of Financial Condition and Results of Operations in BlackRock's 2012 Form 10-K and Note 2, *Significant Accounting Policies*, in the 2012 Form 10-K for further information.

Consolidation of Variable Interest Entities. In the normal course of business, the Company is the manager of various types of sponsored investment vehicles, including collateralized debt obligations ("CDOs") or CLOs and sponsored investment funds, which may be considered VIEs in accordance with GAAP. At June 30, 2013, the Company's VIEs primarily consisted of the following:

CLOs. At June 30, 2013, BlackRock was the manager of over 20 CLOs/CDOs and other securitization entities. BlackRock was determined to be the primary beneficiary ("PB") for certain of these CLOs, which required BlackRock to consolidate these VIEs. BlackRock was deemed to be the PB because it has the power to direct the activities of the CLOs that most significantly impact the entities' economic performance and has the right to receive benefits that potentially could be significant to the VIE. At June 30, 2013, the Company had \$2,261 million and \$2,238 million in assets and liabilities, respectively, on its condensed consolidated statements of financial condition related to these consolidated CLOs. In addition, the Company recorded appropriated retained earnings for the difference between the assets and liabilities, as the CLO noteholders, not BlackRock, ultimately will receive the benefits or absorb the losses associated with the CLOs' assets and liabilities. Changes in the fair value of the assets and liabilities of these CLOs have no impact on net income attributable to BlackRock or its cash flows. Excluding outstanding management receivables, the Company has no risk of loss with its involvement with these VIEs.

Table of Contents

Sponsored Private Equity Fund of Funds. At June 30, 2013, BlackRock was determined to be the PB of one investment fund of funds and was deemed to absorb the majority of the variability due to its de-facto third-party relationships with other partners in the fund, which limited the ability of the partners to transfer or sell their interests without BlackRock's consent as the general partner of the fund. At June 30, 2013, the Company had recorded \$3 million, \$21 million and \$24 million in cash and cash equivalents, investments and other assets and nonredeemable noncontrolling interests of the consolidated VIE, respectively, on its condensed consolidated statements of financial condition related to this VIE. Changes in the fair value of the assets and liabilities of this VIE have no impact on net income attributable to BlackRock. Excluding outstanding management fee receivables, the Company has no risk of loss related to its involvement with this VIE.

Fair Value Measurements. The provisions of *Fair Value Measurements and Disclosures* ("ASC 820-10") establish a hierarchy that prioritizes inputs to valuation techniques used to measure fair value and require companies to disclose the fair value of their financial instruments according to the fair value hierarchy (i.e., Level 1, 2 and 3 inputs, as defined). The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

Level 3 inputs include the most currently available information, including capital account balances for partnership interests in various alternative investments, which may be adjusted by using the returns of certain market indices. Certain investments that are valued using net asset values and are subject to current redemption restrictions that will not be lifted in the near term are included in Level 3. BlackRock's \$656 million of Level 3 investments, or 37% of total GAAP investments at June 30, 2013, primarily included co-investments in private equity fund of funds and private equity funds, funds of hedge funds as well as alternative hedge funds that invest in distressed credit and mortgage securities and real estate equity products. Many of these investees are investment companies, which record their underlying investments at fair value based on fair value policies established by management of the underlying fund, which could include BlackRock employees. Fair value policies at the underlying fund generally require the fund to utilize pricing/valuation information, including independent appraisals from third-party sources. However, in some instances current valuation information, for illiquid securities or securities in markets that are not active, may not be available from any third-party source or fund management may conclude that the valuations that are available from third-party sources are not reliable. In these instances, fund management may perform model-based analytical valuations that may be used to value these investments.

The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the financial instrument. See Note 2, *Significant Accounting Policies*, in the Company's condensed consolidated financial statements contained in Part I, Item 1 of this filing for further information regarding fair value measurements.

Performance Fees / Carried Interest. The Company receives investment advisory performance fees or incentive allocations from certain actively managed investment funds and certain separately managed accounts. These performance fees are earned upon exceeding specified relative and/or absolute investment return thresholds. Such fees are recorded upon completion of the measurement period, which varies by product or account, and could be monthly, quarterly, annually or longer. For the six months ended June 30, 2013 and 2012, performance fee revenue totaled \$197 million and \$121 million, respectively.

In addition, the Company receives carried interest from certain alternative investments upon exceeding performance thresholds. BlackRock may be required to return all, or part, of such

[Table of Contents](#)

carried interest depending upon future performance of these funds. The Company records a deferred carried interest liability to the extent it receives cash or capital allocations related to carried interest prior to meeting the revenue recognition criteria. BlackRock records carried interest subject to such claw-back provisions in investments or cash to the extent that it is distributed, on its condensed consolidated statements of financial condition. Carried interest is realized and recorded as performance fee revenue upon the earlier of the termination of the investment fund or when the likelihood of claw-back is mathematically improbable. The Company records realized carried interest as performance fees on its condensed consolidated statements of income.

At June 30, 2013 and December 31, 2012, the Company had \$143 million and \$97 million, respectively, of deferred carried interest recorded in other liabilities on the condensed consolidated statements of financial condition. The ultimate recognition of performance fee revenue, if any, for these products is unknown.

Recent Developments

Tax Legislation in the United Kingdom. In July 2013, the United Kingdom enacted legislation reducing corporate income taxes. The legislation will result in a revaluation of certain deferred tax assets and liabilities, which will result in a non-cash income tax benefit in the third quarter 2013. At this time, the Company is still evaluating the impact to the condensed consolidated financial statements.

Acquisitions

MGPA. In May 2013, the Company announced that it agreed to acquire MGPA, an independently-managed private equity real estate investment advisory company in Asia-Pacific and Europe. The transaction is expected to close in the third quarter 2013, subject to customary regulatory approvals and closing conditions.

Credit Suisse ETF. In July 2013, the Company completed the acquisition of Credit Suisse's ETF franchise. The financial impact of the transaction is not expected to be material to the condensed consolidated financial statements.

Accounting Developments

For accounting pronouncements that the Company adopted during the six months ended June 30, 2013 and for recent accounting pronouncements not yet adopted, see Note 2, *Significant Accounting Policies*, in the condensed consolidated financial statements contained in Part I, Item 1 of this filing.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

AUM Market Price Risk. BlackRock's investment advisory and administration fees are primarily comprised of fees based on a percentage of the value of AUM and, in some cases, performance fees expressed as a percentage of the returns realized on AUM. At June 30, 2013, the majority of the Company's investment advisory and administration fees were based on average or period end AUM of the applicable investment funds or separate accounts. Movements in equity market prices, interest rates/credit spreads, foreign exchange rates or all three could cause the value of AUM to decline, which would result in lower investment advisory and administration fees.

Corporate Investments Portfolio Risks. As a leading investment management firm, BlackRock devotes significant resources across all of its operations to identifying, measuring, monitoring, managing and analyzing market and operating risks, including the management and oversight of its own investment portfolio. The Board of Directors of the Company has adopted guidelines for the review of investments to be made by the Company, requiring, among other things, that investments be reviewed by certain senior officers of the Company, and that certain investments may be referred to the Audit Committee or the Board of Directors, depending on the circumstances, for approval.

In the normal course of its business, BlackRock is exposed to equity market price risk, interest rate/credit spread risk and foreign exchange rate risk associated with its corporate investments.

BlackRock has investments primarily in sponsored investment products that invest in a variety of asset classes, including real estate, private equity and hedge funds. Investments generally are made for co-investment purposes, to establish a performance track record, to hedge exposure to certain deferred compensation plans or for regulatory purposes. Currently, the Company has a seed capital hedging program in which it enters into swaps to hedge market and interest rate exposure to certain investments. At June 30, 2013, the Company had outstanding total return swaps and interest rate swaps with an aggregate notional value of approximately \$80 million and \$68 million, respectively.

At June 30, 2013, approximately \$627 million of BlackRock's total investments were maintained in sponsored investment funds deemed to be controlled by BlackRock in accordance with GAAP and, therefore, are consolidated even though BlackRock may not own a majority of such funds. Excluding the impact of the Federal Reserve Bank stock, carried interest, investments made to hedge exposure to certain deferred compensation plans and certain investments that are hedged via the seed capital hedging program, the Company's economic exposure to its investment portfolio is \$1,284 million. See *Management's Discussion and Analysis- Balance Sheet Overview* for further information on the Company's investments.

The "economic" investment exposure of the portfolio is presented in either the equity market price or the interest rate/credit spread risk disclosures below:

Equity Market Price Risk. At June 30, 2013, the Company's net exposure to equity market price risk in its investment portfolio was approximately \$756 million of the Company's total economic investment exposure. Investments subject to market price risk include private equity and real estate investments, hedge funds and funds of funds as well as mutual funds. The Company estimates that a hypothetical 10% adverse change in market prices would result in a decrease of approximately \$75.6 million in the carrying value of such investments.

Interest Rate/Credit Spread Risk. At June 30, 2013, the Company was exposed to interest-rate risk and credit spread risk as a result of approximately \$528 million of investments in debt securities and sponsored investment products that invest primarily in debt securities. Management considered a hypothetical 100 basis point fluctuation in interest rates or credit spreads and estimates that the impact of such a fluctuation on these investments, in the aggregate, would result in a decrease, or increase, of approximately \$13.8 million in the carrying value of such investments.

Foreign Exchange Rate Risk. As discussed above, the Company invests in sponsored investment products that invest in a variety of asset classes. The carrying value of the total economic investment exposure denominated in foreign currencies, primarily the pound sterling and euro, was \$124 million at June 30, 2013. A 10% adverse change in the applicable foreign exchange rates would result in approximately a \$12.4 million decline in the carrying value of such investments.

Other Market Risks. By using derivative financial instruments, the Company exposes itself to market risk. Market risk from forward foreign currency exchange contracts is the effect on the value of a financial instrument that results from a change in currency exchange rates. The Company manages exposure to market risk associated with foreign currency exchange contracts by establishing and monitoring parameters that limit the types and degrees of market risk that may be undertaken. At June 30, 2013, the Company had outstanding forward foreign currency exchange contracts with an aggregate notional value of approximately \$105 million.

Item 4. Controls and Procedures

Disclosure Controls and Procedures. Under the direction of BlackRock's Chief Executive Officer and Chief Financial Officer, BlackRock evaluated the effectiveness of its disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) at June 30, 2013. Based on this evaluation, BlackRock's Chief Executive Officer and Chief Financial Officer have concluded that BlackRock's disclosure controls and procedures were effective.

Internal Control over Financial Reporting. There have been no changes in internal control over financial reporting during the quarter ended June 30, 2013 that have materially affected or are reasonably likely to materially affect such internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, BlackRock receives subpoenas or other requests for information from various U.S. federal, state governmental and domestic and international regulatory authorities in connection with certain industry-wide or other investigations or proceedings. It is BlackRock's policy to cooperate fully with such inquiries. The Company and certain of its subsidiaries have been named as defendants in various legal actions, including arbitrations and other litigation arising in connection with BlackRock's activities. Additionally, certain of the investment funds that the Company manages are subject to lawsuits, any of which potentially could harm the investment returns of the applicable fund or result in the Company being liable to the funds for any resulting damages.

Management, after consultation with legal counsel, currently does not anticipate that the aggregate liability, if any, arising out of regulatory matters or lawsuits will have a material effect on BlackRock's results of operations, financial position or cash flows. However, there is no assurance as to whether any such pending or threatened matters will have a material effect on BlackRock's results of operations, financial position or cash flows in any future reporting period. Due to uncertainties surrounding the outcome of these matters, management cannot reasonably estimate the possible loss or range of loss that may arise from these matters.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the three months ended June 30, 2013, the Company made the following purchases of its common stock, which is registered pursuant to Section 12(b) of the Exchange Act.

	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs⁽¹⁾
