Notes to Condensed Consolidated Financial Statements
(Dollar amounts in millions, except per share data)
(unaudited)

1. Business Overview

BlackRock, Inc. and its subsidiaries (“BlackRock” or the “Company”) provide diversified investment management services to institutional clients and individual investors through various investment vehicles. Investment management services primarily consist of the management of fixed income, cash management and equity client accounts, the management of a number of open-end and closed-end mutual fund families and other non-U.S. equivalent retail products serving the institutional and retail markets, and the management of alternative funds developed to serve various customer needs. In addition, BlackRock provides market risk management, financial markets advisory and enterprise investment system services to a broad base of clients. Financial markets advisory services include valuation services relating to illiquid securities, dispositions and workout assignments (including long-term portfolio liquidation assignments), risk management and strategic planning and execution.

In September 2006, Merrill Lynch & Co., Inc. (“Merrill Lynch”) contributed the entities and net assets that constituted its investment management business (the “MLIM Business”) to BlackRock via a capital contribution, referred to as the “MLIM Transaction”, and in October 2007, BlackRock acquired certain assets and assumed certain liabilities of the fund of funds business of Quellos Group, LLC (“Quellos”), referred to as the “Quellos Transaction”.

On January 1, 2009, Bank of America Corporation (“Bank of America”) acquired Merrill Lynch, which continues as a subsidiary of Bank of America. In connection with this transaction, BlackRock entered into exchange agreements with each of Merrill Lynch and The PNC Financial Services Group, Inc. (“PNC”) pursuant to which on February 27, 2009 each exchanged a portion of the BlackRock common stock it held for an equal number of shares of non-voting preferred stock. See Note 12, Capital Stock, for more details on these transactions.

In June 2009, BlackRock announced that it entered into a definitive purchase agreement (the “Barclays Purchase Agreement”) to acquire Barclays Global Investors (“BGI”) from Barclays Bank PLC (“Barclays”), referred to as the “BGI Transaction”. See Note 17, Pending Transaction.

2. Significant Accounting Policies

Basis of Presentation

These condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) and include the accounts of the Company and its controlled subsidiaries. Non-controlling interests include the portion of consolidated sponsored investment funds in which the Company does not have direct equity ownership. Significant accounts and transactions between consolidated entities have been eliminated.

Notes to Condensed Consolidated Financial Statements—(continued)
(Dollar amounts in millions, except per share data)
(unaudited)

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. Certain financial information that normally is included in annual financial statements, including certain financial statement footnotes, is not required for interim reporting purposes and has been condensed or omitted herein. These financial statements should be read in conjunction with the Company's consolidated financial statements and notes related thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, which was filed with the Securities and Exchange Commission ("SEC") on March 2, 2009 and the Company's Current Report on Form 8-K, which updated the financial information in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, which was filed with the SEC on September 17, 2009.

The interim financial information at September 30, 2009 and for the three and nine months ended September 30, 2009 and 2008 is unaudited. However, in the opinion of management, the interim information includes all normal recurring adjustments necessary for the fair presentation of the Company's results for the periods presented. The results of operations for interim periods are not necessarily indicative of results to be expected for the full year. Certain prior year amounts have been revised or reclassified to conform to the 2009 presentation including those required by the retrospective adoption of the applicable paragraphs within Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 470-20, *Debt with Conversion and Other Options* issued ("ASC 470-20") (FASB Staff Position ("FSP") APB 14-1, *Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)*), ASC 260-10, *Earnings per Share* ("ASC 260-10") (FSP Emerging Issues Task Force ("EITF") 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities*) and ASC 810-10, *Consolidation* ("ASC 810-10") (Statement of Financial Accounting Standards ("SFAS") No. 160, *Noncontrolling Interests in Consolidated Financial Statements—an amendment of ARB No. 51*).

Fair Value Measurements

BlackRock adopted the applicable provisions of ASC 820-10, *Fair Value Measurements and Disclosures* ("ASC 820-10")(SFAS No. 157, *Fair Value Measurements*), as of January 1, 2008, which require, among other things, enhanced disclosures about assets and liabilities that are measured and reported at fair value. The provisions of ASC 820-10 establish a hierarchy that prioritizes inputs to valuation techniques used to measure fair value and requires companies to disclose the fair value of their financial instruments according to a fair value hierarchy (i.e., Level 1, 2 and 3 inputs, as defined). The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. Additionally, companies are required to provide enhanced disclosure regarding instruments in the Level 3 category (which have inputs to the valuation techniques that are unobservable and require significant management judgment), including a reconciliation of the beginning and ending balances separately for each major category of assets and liabilities.

BlackRock, Inc.

Notes to Condensed Consolidated Financial Statements—(continued)
(Dollar amounts in millions, except per share data)
(unaudited)

Financial instruments measured and reported at fair value are classified and disclosed in one of the following categories:

Level 1 Inputs—Quoted prices (unadjusted) in active markets for identical assets or liabilities at the reporting date. Level 1 assets include listed mutual funds, equities and certain debt securities.

Level 2 Inputs—Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities that are not active; and inputs other than quoted prices that are observable, such as models or other valuation methodologies. Assets which generally are included in this category may include short-term floating rate notes and asset-backed securities, securities held within consolidated hedge funds, certain limited partnership interests in hedge funds in which the valuations for substantially all of the investments within the fund are based upon Level 1 or Level 2 inputs, as well as restricted public securities valued at a discount.

Level 3 Inputs—Unobservable inputs for the valuation of the asset or liability. Level 3 assets include investments for which there is little, if any, market activity. These inputs require significant management judgment or estimation. Assets included in this category generally include general and limited partnership interests in private equity funds, funds of private equity funds, real estate funds, hedge funds, and funds of hedge funds and certain held for sale real estate assets.

Level 3 inputs include BlackRock capital accounts for its partnership interests in various alternative investments, including distressed credit hedge funds, real estate and private equity funds as well as market indices. The various partnerships are investment companies which record their underlying investments at fair value based on fair value policies established by management of the underlying fund. Fair value policies at the underlying fund generally require the fund to utilize pricing/valuation information, including independent appraisals, from third party sources, however, in some instances current valuation information, for illiquid securities or securities in markets that are not active, may not be available from any third party source or fund management may conclude that the valuations that are available from third party sources are not reliable. In these instances fund management may perform model-based analytical valuations that may be used to value these investments.

The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the financial instrument.

Classification and Measurement of Redeemable Securities

The provisions of ASC 480-10, *Distinguishing Liabilities from Equity* (“ASC 480-10”) (EITF Topic No. D-98, *Classification and Measurement of Redeemable Securities*), require temporary equity classification for instruments that are currently redeemable or convertible for cash or other assets at the option of the holder. At September 30, 2009 and December 31, 2008, the Company determined that \$9 and \$266, respectively, of non-controlling interests related to certain consolidated sponsored investment funds were redeemable for cash or other assets, resulting in temporary equity classification on the condensed consolidated statements of financial condition. The amount of temporary equity related to convertible instruments is measured as the excess of the amount of cash required to be exchanged in a hypothetical settlement, as of the balance sheet date, over the current carrying amount of the liability component. During the nine months ended September 30, 2009, the 2.625% convertible debentures became convertible at the option of the holders into cash and shares of the Company’s common stock. The amount of cash required to be paid out in a hypothetical settlement exceeded the current carrying amount of the liability component by \$1, which was classified as temporary equity-convertible debentures on the condensed consolidated statement of financial condition.

Assets and Liabilities to be Disposed of by Sale

In the course of the business of establishing real estate and other alternative investment funds, the Company may purchase land, properties and other assets while incurring liabilities directly associated with the assets, together a disposal group, with the intention to sell the disposal group to sponsored investment funds upon their launch. In accordance with the provisions of ASC 360-10, *Property, Plant and Equipment* (“ASC 360-10”) (SFAS No. 144, *Accounting for the Impairment or Disposal of Long-lived Assets*), the Company treats these assets and liabilities as a “disposal group”, measured at the lower of the carrying amount or fair value. Losses are recognized for any initial or subsequent write-down to fair value and gains are recognized for any subsequent increase in fair value, but not in excess of the cumulative loss previously recognized.

At September 30, 2009, the Company held disposal group assets of \$50 and related liabilities of \$48 in other assets and other liabilities, respectively, on its condensed consolidated statement of financial condition. Disposal group liabilities include approximately \$47 of borrowings directly associated with the disposal group assets. During the three and nine months ended September 30, 2009, the Company recorded a net loss of \$0 and \$1, respectively, within non-operating income (expense) on its condensed consolidated statement of income related to the disposal group.

Accounting Policies Adopted in the Nine Months Ended September 30, 2009

Non-Controlling Interests

In December 2007, the FASB issued new requirements within ASC 810-10, which established accounting and reporting standards for a non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary and clarifies that a non-controlling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity, separate from the parent's equity, in the consolidated financial statements. In addition, consolidated net income should be adjusted to include the net income attributed to the non-controlling interests. The Company adopted the applicable guidance of ASC 810-10 on January 1, 2009, which required retrospective adoption of the presentation and disclosure requirements for existing non-controlling interests. All other requirements of ASC 810-10 are applied prospectively. The adoption of the applicable provisions of ASC 810-10 did not impact BlackRock's stockholders' equity on the condensed consolidated statements of financial condition.

Convertible Debt Instruments

In May 2008, the FASB issued new requirements within ASC 470-20, which specify that for convertible debt instruments that may be settled in cash upon conversion, issuers of such instruments should separately account for the liability and equity components in the statement of financial condition. The excess of the initial proceeds of the convertible debt instrument over the amount allocated to the liability component creates a debt discount which should be amortized as interest expense over the expected life of the liability. The applicable provisions of ASC 470-20 are effective for financial statements issued for fiscal years and interim periods beginning after December 15, 2008 and is to be applied retrospectively. At December 31, 2008, the Company had \$249 principal amount of convertible debentures outstanding, which were issued in February 2005, bear interest at a rate of 2.625%, and are due in 2035. The Company retrospectively adopted the required paragraphs of ASC 470-20 on January 1, 2009 resulting in a total cumulative impact of a \$9 reduction to retained earnings at December 31, 2008. The effective borrowing rate for nonconvertible debt at the time of issuance of the 2.625% convertible debentures was estimated to be 4.3%, which resulted in \$18 of the \$250 aggregate principal amount of the debentures issued, or \$12 after tax, being attributable to equity. At December 31, 2008 and September 30, 2009, \$4 and \$1, respectively, of the initial \$18 debt discount remained unamortized, and is expected to be amortized to the first put date of the convertible debentures in February 2010. As a result, the Company recognized approximately \$1 of additional interest expense in each of the three months ended September 30, 2009 and 2008 and \$3 of additional interest expense in each of the nine months ended September 30, 2009 and 2008.

See below for retrospective EPS impact of adopting required guidance within ASC 470-20 for the three and nine months ended September 30, 2008.

Earnings Per Share

In June 2008, the FASB issued new requirements within ASC 260-10 (SFAS No. 128, *Earnings per Share*) which specify that all outstanding unvested share-based payment awards that contain rights to nonforfeitable dividends or dividend equivalents are considered participating securities and should be included in the computation of EPS pursuant to the two-class method as defined in ASC 260-10. FSP EITF 03-6-1 is effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. All prior period EPS data presented must be adjusted retrospectively. Prior to 2009, the Company awarded restricted stock and restricted stock units with nonforfeitable dividend equivalent rights. Restricted stock and restricted stock units awarded in 2009 are not considered participating securities as dividend equivalents are subject to forfeiture prior to vesting of the award. The Company adopted FSP EITF 03-6-1 on January 1, 2009. See below for the retrospective EPS impact of adopting FSP EITF 03-6-1 for the three and nine months ended September 30, 2008.

Fair Value Measurements

In February 2008, the FASB issued new guidance within ASC 820-10, *Fair Value Measurements and Disclosures* (“ASC 820-10”) (FSP FAS 157-2, *Effective Date of FASB Statement No. 157*), which delayed the effective date of the application of ASC 820-10 to fiscal years beginning after November 15, 2008 for all non-financial assets and liabilities recognized or disclosed at fair value in the financial statements on a non-recurring basis. Non-recurring non-financial assets and liabilities include goodwill, indefinite-lived and finite-lived intangible assets and long-lived assets each measured at fair value for purposes of impairment testing, asset retirement and guarantee obligations initially measured at fair value, and those assets and liabilities initially measured at fair value in a business combination or asset purchase. The adoption of the provisions of ASC 820-10 on January 1, 2009 for non-recurring non-financial assets and liabilities did not have a material impact on the Company’s condensed consolidated financial statements.

Fair Value Measurements Disclosures and Impairments of Securities:

In April 2009, the FASB issued the following three provisions intended to provide additional application guidance and enhance disclosures regarding fair value measurements and impairments of securities:

ASC 320-10-65-1, *Investments—Debt and Equity Securities* (“ASC 320-10-65-1”) (FSP FAS 115-2 and FAS 124-2, *Recognition and Presentation of Other-Than-Temporary Impairments*), amend current other-than-temporary impairment guidance in GAAP for debt securities to make the guidance more operational and to improve the presentation and disclosure of other-than-temporary impairments on debt and equity securities in the financial statements. Under ASC 320-10-65-1, an other-than-temporary impairment is triggered if (1) an entity has the intent to sell the security, (2) it is more likely than not that an entity will be required to sell the security before recovery, or (3) an entity does not expect to recover the entire amortized cost basis of the security. If an entity does not intend to sell a security and it is not more likely than not that the entity will be required to sell the security, but the security has suffered a credit loss, the impairment charge will be separated into the credit loss component, which is recorded in earnings, and the remainder is recorded in other comprehensive income. This FSP does not amend existing recognition and measurement guidance related to other-than-temporary impairments of equity securities.

ASC 820-10-65-4, *Fair Value Measurements and Disclosures* (“ASC 820-10-65-4”) (FSP FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*), provides additional guidance on determining when the volume and level of activity for an asset or liability has significantly decreased and includes guidance on identifying circumstances that indicate a transaction is not orderly.

ASC 825-10-65-1, *Financial Instruments* (“ASC 825-10-65-1”) (FSP FAS 107-1 and APB 28-1, *Interim Disclosures about Fair Value of Financial Instruments*), amends ASC 825-10-50 (SFAS No. 107, *Disclosures about Fair Value of Financial Instruments*), to expand the required qualitative and quantitative disclosures about fair value of financial instruments to interim reporting periods for publicly traded entities. FSP FAS 107-1 and APB 28-1 also amends APB Opinion No. 28, *Interim Financial Reporting* (ASC 270-10, *Interim Reporting*), to require those disclosures in summarized financial information at interim reporting periods.

The adoption of all three new provisions as of April 1, 2009, did not materially impact the Company’s condensed consolidated financial statements.

Business Combinations

In December 2007, the FASB issued new guidance within ASC 805, *Business Combinations* (“ASC 805”) (SFAS No. 141 (revised), *Business Combinations*), and in April 2009, the FASB issued additional guidance within ASC 805 (FSP 141(R)-1, *Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise From Contingencies*). ASC 805 retains the fundamental requirements that the acquisition method of accounting (the purchase method) be used for all business combinations and for an acquirer to be identified for each business combination. The new provisions within ASC 805 further define the acquirer, establishes the acquisition date and broadens the scope of transactions that qualify as business combinations.

Additionally, the new requirements within ASC 805 change the fair value measurement provisions for assets acquired, liabilities assumed and any non-controlling interest in the acquiree, provides guidance for the measurement of fair value in a step acquisition, changes the requirements for recognizing assets acquired and liabilities assumed subject to contingencies, provides guidance on recognition and measurement of contingent consideration and requires that acquisition-related costs of the acquirer generally be expensed as incurred. Liabilities for unrecognized tax benefits related to tax positions assumed in business combinations that settled prior to the adoption of the new requirements within ASC 805 affected goodwill. If such liabilities reverse subsequent to the adoption of the new requirements within ASC 805, such reversals will affect the income tax provision in the period of reversal. The new requirements within ASC 805 apply prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company adopted the new requirements within ASC 805 on January 1, 2009. The adoption of the new requirements within ASC 805 impacted the Company’s condensed consolidated financial statements in the nine months ended September 30, 2009 as certain acquisition related costs in connection with the BGI Transaction have been expensed as incurred. See Note 17, Pending Transaction.

Useful Life of Intangible Assets

In April 2008, the FASB issued additional guidance within ASC 350-30, *General Intangibles Other than Goodwill* (“ASC 350-30”) (FSP FAS 142-3, *Determination of the Useful Life of Intangible Assets*). The required provisions within ASC 350-30 amend the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under the prior guidance within ASC 350 *Intangibles—Goodwill and Other* (SFAS No. 142, *Goodwill and Other Intangible Assets*). ASC 350-30 requires that an entity shall consider its own experience in renewing similar arrangements. ASC 350-30 is intended to improve the consistency between the useful life of an intangible asset determined under prior requirements within ASC 350 and the period of expected cash flows used to measure the fair value of the asset under ASC 805 and other GAAP. The new requirements of ASC 350-30 are effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. The adoption on January 1, 2009 of the new requirements within ASC 350-30 did not materially impact the Company’s condensed consolidated financial statements.

Disclosures about Derivative Instruments

In March 2008, the FASB issued new guidance within ASC 815-10, *Derivatives and Hedging* (“ASC 815-10”)(SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities—an amendment of SFAS No. 133*). ASC 815-10 expands the disclosure requirements for derivative instruments and hedging activities. ASC 815-10 specifically requires enhanced disclosures addressing: a) how and why an entity uses derivative instruments, b) how derivative instruments and related hedged items are accounted for under ASC 815 (SFAS No. 133) and its related interpretations and c) how derivative instruments and related hedged items affect an entity’s financial position, financial performance and cash flows. ASC 815-10 is effective for fiscal years and interim periods beginning after November 15, 2008. The adoption on January 1, 2009 of the additional disclosure requirements of ASC 815-10 did not materially impact the Company’s condensed consolidated financial statements.

Meaning of Indexed to a Company’s Own Stock

In June 2008, the FASB issued new guidance within ASC 815-40, *Derivatives and Hedging: Contracts in Entity’s Own Equity* (“ASC 815-40”) (EITF No. 07-5, *Determining Whether an Instrument (or Embedded Feature) is Indexed to an Entity’s Own Stock*). The new requirements of ASC 815-40 provide guidance for determining whether an equity-linked financial instrument (or embedded feature) is indexed to an entity’s own stock. To meet the definition of “indexed to its own stock,” an instrument’s contingent exercise provisions must not be based on an observable market other than the market for the issuer’s stock, and its settlement amount must be based only on those variables that are inputs to the fair value of a “fixed-for-fixed” forward or option on an entity’s equity shares. The required provisions of ASC 815-40 were adopted on January 1, 2009 and did not change the classification or measurement of the Company’s financial instruments.

Subsequent Events

In May 2009, the FASB issued ASC 855-10, *Subsequent Events* (“ASC 855-10”) (SFAS No. 165, *Subsequent Events*), which provides guidance to establish general standards of accounting for and disclosures of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. ASC 855-10 is effective for interim or fiscal periods ending after June 15, 2009. The Company adopted ASC 855-10 on June 30, 2009. The adoption of ASC 855-10 did not materially impact the Company’s condensed consolidated financial statements. See Note 18, Subsequent Events, for further discussion.

The FASB Accounting Standards Codification

In June 2009, the FASB issued Accounting Standards Update (“ASU”) No. 2009-1, *Amendments Based on SFAS No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles—a replacement of FASB Statement No. 162* (“ASU 2009-1”). ASU 2009-1 established the FASB ASC as the single source of authoritative GAAP to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. All other accounting literature not included in the ASC will become nonauthoritative. ASU 2009-1 is effective for financial statements for interim or annual reporting periods ending after September 15, 2009. The Company adopted ASU 2009-1 on September 30, 2009. As ASU 2009-1 does not change GAAP, its adoption did not impact amounts recorded or disclosures required as part of the Company’s condensed consolidated financial statements.

Recent Accounting Developments

New Consolidation Guidance for Variable Interest Entities:

In June 2009, the FASB issued SFAS No. 167, *Amendments to FASB Interpretation No. 46(R)* (“SFAS No. 167”), which amends the consolidation guidance for variable interest entities under FIN 46(R). The amendments include: (1) the elimination of the exemption from consolidation for qualifying special purpose entities, (2) a new approach for determining the primary beneficiary of a variable interest entity (“VIE”), which requires that the primary beneficiary have both (i) the power to control the most significant activities of the VIE and (ii) either the obligation to absorb losses or the right to receive benefits that could potentially be significant to the VIE, and (3) the requirement to continually reassess who should consolidate a variable-interest entity. SFAS No. 167 is effective for the beginning of an entity’s first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter.

The Company does not expect the adoption of SFAS No. 167 to impact net income attributable to BlackRock, Inc. or its stockholders’ equity, however, it is currently evaluating the impact to its condensed consolidated financial statements as a result of consolidating the assets and liabilities and net income (loss) of certain VIEs in addition to a corresponding non-controlling interest liability and allocation of net income (loss) to non-controlling interests.

Measuring Fair Value of Certain Alternative Investments

In September 2009, the FASB issued ASU 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (“ASU 2009-12”). ASU 2009-12 amends ASC 820-10 to provide guidance on measuring the fair value of certain alternative investments. The amendments in this ASU permit, as a practical expedient, a reporting entity to use the investment’s net asset value per share (“NAV”) to measure the fair value of the investment provided that the NAV is calculated as of the reporting entity’s measurement date. ASU 2009-12 also requires enhanced disclosures by major investment category about the attributes of the investments within the scope, such as the nature of the restrictions, the amount of the unfunded commitments and the description of the investment strategies of the investees. ASU 2009-12 is effective for the interim and annual reporting periods ending after December 15, 2009. In the period of adoption, an entity must disclose any change in valuation technique and related inputs and quantify the total effect, if practicable. The Company will adopt this ASU in fourth quarter 2009 and is currently evaluating the impact of the adoption on its consolidated financial statements.

3. Investments

A summary of the carrying value of total investments is as follows:

	September 30, 2009	December 31, 2008
Available-for-sale investments	\$ 103	\$ 101
Trading investments	143	122
Other investments:

Available-for-sale investments includes debt securities received upon closure of an enhanced cash fund, in lieu of the Company’s remaining investment in the fund and securities purchased from another enhanced cash fund.

During the nine months ended September 30, 2009 and 2008, the Company recorded other-than-temporary impairments of \$4, including \$2 related to credit loss impairments on debt securities, and \$5, respectively, which was recorded in non-operating income (expense) on the condensed consolidated statements of income. The \$2 credit loss impairment was determined by comparing the estimated discounted cash flows versus the amortized cost for each individual security.

The Company has reviewed the gross unrealized losses of \$3 as of September 30, 2009 related to available-for-sale equity securities, of which \$3 had been in a loss position for greater than twelve months, and determined that these unrealized losses were not other-than-temporary primarily because the Company has the ability and intent to hold the securities for a period of time sufficient to allow for recovery of such unrealized losses. As a result, the Company did not record additional impairments on such equity securities.

Maturity Dates

The carrying value of debt securities, classified as available-for-sale, trading or other investments, by maturity at September 30, 2009 and December 31, 2008 is as follows:

<u>Maturity date</u>	<u>September 30, 2009</u>	<u>December 31, 2008</u>
<1 year	\$ 24	\$ 329
>1-5 years	6	2
>5-10 years	7	3
> 10 years	36	14
Total	<u>\$ 73</u>	<u>\$ 348</u>

At September 30, 2009, the debt securities in the table above primarily consisted of mortgage, asset-backed, municipal, corporate, U.S. and foreign government debt securities a portion of which are held by consolidated sponsored investment funds which are consolidated in the Company's condensed consolidated statements of financial condition. In addition, at December 31, 2008, the debt securities in the table above included floating rate notes and asset backed securities held by consolidated sponsored cash management funds.

Impact of Consolidated Sponsored Investment Funds

The Company consolidates certain sponsored investment funds primarily because it is deemed to control such investments in accordance with GAAP. The investments that are owned by these consolidated sponsored investment funds are classified as other or trading investments. At September 30, 2009 and December 31, 2008, the following balances related to these funds were consolidated in the condensed consolidated statements of financial condition:

	<u>September 30, 2009</u>	<u>December 31, 2008</u>
Cash and cash equivalents	\$ 52	\$ 61
Investments	444	728
Other net assets (liabilities)	(5)	12

(unaudited)

BlackRock's total exposure to consolidated sponsored investment funds of \$251 and \$310 at September 30, 2009 and December 31, 2008, respectively, represents the value of the Company's economic ownership interest in these sponsored investment funds. Valuation changes associated with these consolidated investment funds are reflected in non-operating income (expense) and net income (loss) attributable to non-controlling interests. During the three months ended June 30, 2009, BlackRock took necessary steps to grant additional rights to the unaffiliated investors in one consolidated sponsored investment fund, which resulted in deconsolidation of this fund and the elimination of \$85, \$76, and \$9 of investments, borrowings, and nonredeemable non-controlling interests, respectively. Approximately \$0 and \$6 of borrowings by consolidated sponsored investment funds at September 30, 2009 and December 31, 2008, respectively, were included in other liabilities on the condensed consolidated statements of financial condition.

The Company may not be readily able to access cash and cash equivalents held by consolidated sponsored investment funds to use in its operating activities. In addition, the Company may not be readily able to sell investments held by consolidated sponsored investment funds in order to obtain cash for use in its operations.

Fair Value Measurements

BlackRock Pensions Limited, a wholly-owned subsidiary of the Company is a registered life insurance company that maintains separate account assets, representing segregated funds held for purposes of funding individual and group pension contracts, and equal and offsetting separate account liabilities. At September 30, 2009 and December 31, 2008, the Level 3 separate account assets were approximately \$0 and \$4, respectively. The changes in Level 3 assets primarily relate to purchases, sales and gains/(losses). The net investment income and net gains and losses attributable to separate account assets accrue directly to the contract owner and are not reported as non-operating income (expense) on the condensed consolidated statements of income.

Level 3 assets, which include equity method investments and consolidated investments of real estate funds, private equity funds and funds of private equity funds, are valued based upon valuations received from internal as well as third party fund managers. Fair valuations at the underlying funds are based on a combination of methods, which may include third-party independent appraisals and discounted cash flow techniques. Direct investments in private equity companies held by funds of private equity funds are valued based on an assessment of each underlying investment, incorporating evaluation of additional significant third party financing, changes in valuations of comparable peer companies, the business environment of the companies and market indices, among other factors.

Realized and unrealized gains and losses recorded for Level 3 investments are reported in non-operating income (expense) on the condensed consolidated statements of income. A portion of net income (loss) for consolidated investments is allocated to non-controlling interests to reflect net income (loss) not attributable to the Company.

The Company transfers assets in and/or out of Level 3 as of the beginning of the period when significant inputs, including performance attributes, used for the fair value measurement become observable or when the book value of certain equity method investments no longer represent fair value as determined under fair value methodologies.

5. Variable Interest Entities

In the normal course of business, the Company is the manager of various types of sponsored investment vehicles, including collateralized debt obligations and sponsored investment funds, which may be considered VIEs. The Company receives management fees or other incentive related fees for its services and may from time to time own equity or debt securities or enter into derivatives with the vehicles, each of which are considered variable interests. The Company enters into these variable interests principally to address client needs through the launch of such investment vehicles. The VIEs are primarily financed via capital contributed by equity and debt holders. The Company's involvement in financing the operations of the VIEs is limited to its equity interests, unfunded capital commitments for certain sponsored investment funds and two capital support agreements for two enhanced cash funds at December 31, 2008 both of which have been terminated in 2009, due to closure of the funds.

The primary beneficiary of a VIE is the enterprise that has a variable interest (or combination of variable interests, including those of related parties) that will absorb a majority of the entity's expected losses, receive a majority of the entity's expected residual returns or both. In order to determine whether the Company is the primary beneficiary of a VIE, management must make significant estimates and assumptions of probable future cash flows and assign probabilities to different cash flow scenarios. Assumptions made in such analyses include, but are not limited to, market prices of securities, market interest rates, potential credit defaults on individual securities or default rates on a portfolio of securities, realization of gains, liquidity or marketability of certain securities, discount rates and the probability of certain other outcomes.

VIEs in which BlackRock is the Primary Beneficiary

As a result of consolidating one VIE, a private sponsored investment fund, at September 30, 2009, the Company recorded \$55 of net assets, primarily investments and cash and cash equivalents. These net assets were offset by \$55 of nonredeemable non-controlling interests which reflect the equity ownership of third parties, on the Company's condensed consolidated statements of financial condition. For the nine months ended September 30, 2009, the Company recorded a non-operating expense of \$2 offset by a \$2 net loss attributable to nonredeemable non-controlling interests on its condensed consolidated statements of income. The Company has no risk of loss with its involvement with this VIE.

As a result of consolidating three private investment funds at December 31, 2008, the Company recorded \$383 of net assets, primarily investments and cash and cash equivalents. These net assets were offset by \$319 of non-controlling interests, which reflect the equity ownership of third parties, on its condensed consolidated statements of financial condition.

The maximum risk of loss related to the capital support agreements in the table above reflect the Company's total obligation under the capital support agreements with the two enhanced cash funds. The fair value of the Company's obligation related to the two capital support agreements recorded at December 31, 2008 was \$18.

VIEs in which BlackRock holds significant variable interests or is the sponsor that holds a variable interest but is not the Primary Beneficiary of the VIE

At September 30, 2009 and December 31, 2008, the Company's carrying value of assets and liabilities and its maximum risk of loss related to VIEs in which it holds a significant variable interest or is the sponsor that holds a variable interest, but for which it was not the primary beneficiary, was as follows:

As of September 30, 2009

	VIE Assets That the Company Does Not Consolidate	VIE Liabilities That the Company Does Not Consolidate	Variable Interests on the Condensed Consolidated Statement of Financial Condition			Maximum Risk of Loss
			Investments	Receivables	Other Net Assets (Liabilities)	
CDOs	\$ 7,182	\$ 14,481	\$ 3	\$ 3	(\$ 2)	\$ 23

Total	<u>\$ 22,189</u>	<u>\$ 18,373</u>	<u>\$ 15</u>	<u>\$ 15</u>	<u>(\$ 2)</u>	<u>\$ 47</u>

The assets of the VIEs are primarily comprised of cash and cash equivalents and investments and the liabilities are primarily comprised of debt obligations (CDO debt holders) and various accruals for the sponsored investment vehicles.

At September 30, 2009, BlackRock's maximum risk of loss associated with these VIEs primarily relates to: (i) BlackRock's equity investments, (ii) management fee receivables and (iii) credit protection sold by BlackRock to a third party in a synthetic CDO transaction.

The assets of the VIEs are primarily comprised of cash and cash equivalents and investments and the liabilities are primarily comprised of debt obligations (CDO debt holders) and various accruals for the sponsored investment vehicles.

At December 31, 2008, BlackRock's maximum risk of loss associated with these VIEs primarily relates to: (i) BlackRock's equity investments, (ii) management fee receivables and (iii) credit protection sold by BlackRock to a third party in a synthetic CDO transaction.

6. Derivatives and Hedging

For the nine months ended September 30, 2009 and 2008, the Company did not hold any derivatives designated in a formal hedge relationship under ASC 815-10.

During the nine months ended September 30, 2009 and 2008, the Company was a counterparty to a series of total return swaps to economically hedge against changes in fair value of certain investments in sponsored investment products. At September 30, 2009, the outstanding total return swaps had an aggregate notional value of approximately \$34 and net realized and change in unrealized gains/(losses) of approximately (\$8) and \$19 for the nine months ended September 30, 2009 and 2008, respectively, which were included in non-operating income (expense) in the Company's condensed consolidated statements of income. At September 30, 2009, an unrealized loss of less than \$1 was included in other liabilities on the condensed consolidated statement of financial condition.

In December 2007, BlackRock entered into capital support agreements, up to \$100, with two enhanced cash funds. These capital support agreements were backed by letters of credit issued under BlackRock's revolving credit facility. In December 2008, the capital support agreements were modified to be up to \$45 and were no longer backed by the letters of credit. In January and May 2009, the capital support agreements were terminated, due to the closure of the related funds. During the six months ended June 30, 2009, the Company provided approximately \$4 of capital contributions to the funds under the capital support agreements. At December 31, 2008, the derivative liability for the fair value of the capital support agreements for the two funds totaled approximately \$18. The fair value of these liabilities increased and decreased as BlackRock's obligation under the guarantee fluctuated based on the fair value of the derivative. Upon closure of the funds, the liability decreased \$11, while the change in the liability was included in general and administration expenses.

7. Goodwill

Goodwill at September 30, 2009 and changes during the nine months ended September 30, 2009 were as follows:

December 31, 2008	\$5,533
Net additions related to:	
Quellos	184
Other	<u>1</u>
September 30, 2009	<u>\$5,718</u>

During the nine months ended September 30, 2009, the Company increased goodwill by \$185. The increase relates primarily to a \$156 cash payment and a common stock issuance of \$43 related to the first contingent payment in connection with the Quellos Transaction, offset by a \$15 decline related to tax benefits realized from tax-deductible goodwill in excess of book goodwill.

At September 30, 2009, the balance of the Quellos tax-deductible goodwill in excess of book goodwill was approximately \$382. Goodwill related to the Quellos Transaction will continue to be reduced in future periods by the amount of tax benefits realized from tax-deductible goodwill in excess of book goodwill.

8. Intangible Assets

The carrying amounts of identifiable intangible assets are summarized as follows:

	<u>Indefinite-lived intangible assets</u>	<u>Finite-lived intangible assets</u>	<u>Total</u>
December 31, 2008	\$ 5,378	\$ 1,063	\$6,441

September 30, 2009	<u>\$ 5,378</u>	<u>\$ 957</u>	<u>\$6,335</u>

In April 2009, the Company acquired \$2 of finite-life management contracts with a five-year estimated useful life associated with the acquisition of the R3 Capital Partners funds.

9. Borrowings

Short-Term Borrowings

2007 Facility

In August 2007, the Company entered into a five-year \$2,500 unsecured revolving credit facility (“the 2007 facility”). The 2007 facility requires the Company not to exceed a maximum leverage ratio (ratio of net debt to earnings before interest, taxes, depreciation and amortization, where net debt equals total debt less domestic unrestricted cash) of 3 to 1, which was satisfied at September 30, 2009. At September 30, 2009, the Company had \$200 outstanding under the 2007 facility with an interest rate of 0.43% and a maturity during November 2009. Lehman Commercial Paper, Inc. has a \$140 participation under the 2007 facility; however, BlackRock does not expect that Lehman Commercial Paper, Inc. will honor its commitment to fund additional amounts. Bank of America, a related party, has a \$140 participation under the 2007 facility.

Japan Commitment-line

In June 2009, BlackRock Japan Co., Ltd., a wholly owned subsidiary of the Company, renewed its five billion Japanese yen commitment-line agreement (the “Japan Commitment-line”) for a term of one year. The Japan Commitment-line is intended to provide liquidity flexibility for operating requirements in Japan. At September 30, 2009, the Company had no borrowings outstanding under the Japan Commitment-line.

Convertible Debentures

The carrying value of the convertible debentures included the following:

	September 30, 2009	December 31, 2008
<u>2.625% Convertible debentures due in 2035</u>		
Maturity amount	\$ 248	\$ 249
Unamortized discount	(1)	(4)
Total	<u>\$ 247</u>	<u>\$ 245</u>

The Company recognized \$8 in each of the nine months ended September 30, 2009 and 2008 of interest expense, comprised in both periods of \$5 related to the coupon and \$3 related to amortization of the discount. At September 30, 2009, the estimated fair value of the convertible debentures was \$532, which was estimated using a market price at the end of September 2009.

On February 15, 2009, the convertible debentures became convertible at the option of the holder into cash and shares of the Company's common stock at any time prior to maturity. Subsequent to February 15, 2009, holders of \$2 of debentures elected to convert their holdings into cash and shares. In addition, during October 2009, holders of \$5 of debentures elected to convert their holdings into cash and shares.

Long-Term Borrowings

The carrying value of long-term borrowings included the following:

	September 30, 2009	December 31, 2008
<u>6.25% Senior notes due in 2017</u>		
Maturity amount	\$ 700	\$ 700
Unamortized discount	(4)	(5)
Total long-term senior notes	696	695
Other long-term borrowings	—	2
Total long-term borrowings	<u>\$ 696</u>	<u>\$ 697</u>

At September 30, 2009, the estimated fair value of the senior notes was \$754, which was estimated using an applicable bond index at September 30, 2009.

10. Related Party Transactions

Anthracite

At September 30, 2009, the Company was committed to provide financing of up to \$60, until March 2010, to Anthracite Capital, Inc. (“Anthracite”), a specialty commercial real estate finance company that is managed by a subsidiary of BlackRock. The financing is collateralized by Anthracite pledging its ownership interest in a real estate debt investment fund, which also is managed by a subsidiary of BlackRock. At September 30, 2009, \$33.5 of financing was outstanding, which matured in October 2009. Upon maturity Anthracite rolled over the borrowings to January 2010. At June 30, 2009, the value of the collateral was estimated to be \$28.5, which resulted in a reduction in due from related parties on the Company’s condensed consolidated statement of financial condition of \$5 and an equal amount recorded in general and administration expense in the three months ended June 30, 2009. Based on the value of the collateral and the borrowings outstanding at September 30, 2009, the Company has no obligation to loan additional amounts to Anthracite under this facility. The Company has granted waivers for certain breaches of financial covenants of Anthracite’s credit facility.

On October 28, 2009, the Company and Anthracite entered into an amendment to the financing providing that interest shall be payable only to the extent of cash flow from the collateral and only if there is no default or event of default under Anthracite’s senior secured facilities. All accrued but unpaid interest is payable on the final maturity date.

Merrill Lynch and PNC

In July 2008, the Company entered into an amended and restated stockholder agreement and an amended and restated global distribution agreement with Merrill Lynch.

These changes to the stockholder agreement with Merrill Lynch, among other items, (i) provide Merrill Lynch with additional flexibility to form or acquire asset managers substantially all of the business of which is devoted to non-traditional investment management strategies such as short selling, leverage, arbitrage, specialty finance and quantitatively-driven structured trades; (ii) expand the definition of change in control of Merrill Lynch to include the disposition of two-thirds or more of its Global Private Client business; (iii) extend the general termination date to the later of July 16, 2013 or the date Merrill Lynch’s beneficial ownership of BlackRock voting securities falls below 20%; and (iv) clarify certain other provisions in the agreement.

The changes in the global distribution agreement in relation to the prior agreement, among other things, (i) provide for an extension of the term to five years from the date of a change in control of Merrill Lynch (to January 1, 2014 following Bank of America’s acquisition of Merrill Lynch) and one automatic 3-year extension if certain conditions are satisfied; (ii) strengthen the obligations of Merrill Lynch to achieve revenue neutrality across the range of BlackRock products distributed by Merrill Lynch if the pricing or structure of particular products is required to be changed; (iii) obligate Merrill Lynch to seek to obtain distribution arrangements for BlackRock products from buyers of any portion of its distribution business on the same terms as the global distribution agreement for a period of at least 3 years; and (iv) restrict the manner in which products managed by alternative asset managers in which Merrill Lynch has an interest may be distributed by Merrill Lynch.

In connection with the closings under the exchange agreements, (see Note 12, Capital Stock), on February 27, 2009 BlackRock entered into a second amended and restated stockholder agreement with Merrill Lynch and an amended and restated implementation and stockholder agreement with PNC, and a third amendment to the share surrender agreement with PNC.

Merrill Lynch and PNC (continued)

The changes contained in the amended and restated stockholder agreement with Merrill Lynch, in relation to the prior agreement, among other things, (i) revised the definitions of “Fair Market Value,” “Ownership Cap” and “Significant Stockholder”; and (ii) amended or supplemented certain other definitions and provisions therein to incorporate series B preferred stock and series C preferred stock, respectively. The changes contained in the amended and restated stockholder agreement with PNC, in relation to the prior agreement, among other things, (i) revised the definitions of “Fair Market Value,” “Ownership Cap,” “Ownership Percentage,” “Ownership Threshold” and “Significant Stockholder”; and (ii) amended or supplemented certain other provisions therein to incorporate series B preferred stock and series C preferred stock, respectively.

The amendment to the share surrender agreement provided for the substitution of series C preferred stock for the shares of common stock subject to the share surrender agreement.

Merrill Lynch Capital Contribution

In August 2009, Merrill Lynch reimbursed \$25 to BlackRock for employee incentive awards issued to former MLIM employees who became BlackRock employees subsequent to the MLIM transaction. Upon receipt, the reimbursement was recorded as a capital contribution.

11. Restructuring Charges

During the three months ended March 31, 2009, the Company continued to reduce its workforce globally. This action was the result of business reengineering efforts designed to streamline operations, enhance competitiveness and better position the Company in the asset management marketplace. The Company recorded a pre-tax restructuring charge of \$22 (\$14 after-tax) for the three months ended March 31, 2009. This charge was comprised of \$15 of severance and associated outplacement costs, \$4 of property costs associated with the lease payments for the remaining term in excess of the estimated sublease proceeds and \$3 of expenses related to the accelerated amortization of previously granted stock-based compensation awards.

The following table presents a rollforward of the Company’s restructuring liability, which is included within other liabilities on the Company’s condensed consolidated statements of financial condition.

12. Capital Stock

On January 1, 2009, Bank of America acquired Merrill Lynch. In connection with this transaction, BlackRock entered into exchange agreements with each of Merrill Lynch and PNC pursuant to which each agreed to exchange a portion of the BlackRock common stock it held for an equal number of shares of non-voting participating preferred stock. On February 27, 2009, Merrill Lynch exchanged (i) 49,865,000 shares of BlackRock's common stock for a like number of shares of BlackRock's series B non-voting participating preferred stock, and (ii) 12,604,918 shares of BlackRock's series A preferred stock for a like number of shares of series B preferred stock, and PNC exchanged (i) 17,872,000 shares of BlackRock's common stock for a like number of shares of series B preferred stock and (ii) 2,889,467 shares of BlackRock's common stock for a like number of shares of BlackRock's series C non-voting participating preferred stock. On September 30, 2009, Bank of America/Merrill Lynch owned approximately 4.6% of BlackRock's voting common stock and 46.1% of BlackRock's capital stock on a fully diluted basis, and PNC owned approximately 43.8% of BlackRock's voting common stock and 30.7% of BlackRock's capital stock on a fully diluted basis.

Below is a summary description of the series B and C preferred stock issued in the exchanges.

The series B non-voting participating preferred stock:

- is non-voting except as otherwise provided by applicable law;
- participates in dividends on a basis generally equal to the common stock;
- benefits from a liquidation preference of \$0.01 per share; and
- is mandatorily convertible to BlackRock common stock upon transfer to an unrelated party.

The series C non-voting participating preferred stock:

- is non-voting except as otherwise provided by applicable law;
- participates in dividends on a basis generally equal to the common stock;
- benefits from a liquidation preference of \$40.00 per share; and
- is only convertible to BlackRock common stock upon the termination of the obligations of PNC under its share surrender agreement with BlackRock.

In June 2009, the Company issued 2,133,713 shares of BlackRock's common stock at \$140.60 per share. The proceeds of the issuance will be used to fund the purchase of Barclays Global Investors (see Note 17, Pending Transaction).

13. Commitments and Contingencies

Commitments

Investment/Loan Commitments

At September 30, 2009, the Company had approximately \$286 of investment commitments relating primarily to funds of private equity funds, real estate funds and hedge funds. Amounts to be funded generally are callable at any point prior to the expiration of the commitment.

Legal Proceedings

From time to time, BlackRock receives subpoenas or other requests for information from various U.S. federal, state governmental and regulatory authorities in connection with certain industry-wide or other investigations or proceedings. It is BlackRock's policy to cooperate fully with such inquiries. The Company and certain of its subsidiaries have been named as defendants in various legal actions, including arbitrations and other litigation arising in connection with BlackRock's activities. Additionally, certain of the investment funds that the Company manages are subject to lawsuits, any of which potentially could harm the investment returns of the applicable fund or result in the Company being liable to the funds for any resulting damages.

Management, after consultation with legal counsel, currently does not anticipate that the aggregate liability, if any, arising out of regulatory matters or lawsuits will have a material adverse effect on BlackRock's earnings, financial position, or cash flows although, at the present time, management is not in a position to determine whether any such pending or threatened matters will have a material adverse effect on BlackRock's results of operations in any future reporting period.

Indemnifications

In the ordinary course of business, BlackRock enters into contracts pursuant to which it may agree to indemnify third parties in certain circumstances. The terms of these indemnities vary from contract to contract and the amount of indemnification liability, if any, cannot be determined.

Under the transaction agreement in the MLIM Transaction, the Company has agreed to indemnify Merrill Lynch for losses it may incur arising from (1) any alleged or actual breach, failure to comply, violation or other deficiency with respect to any regulatory or fiduciary requirements relating to the operation of BlackRock's business, (2) any fees or expenses incurred or owed by BlackRock to any brokers, financial advisors or comparable other persons retained or employed by BlackRock in connection with the MLIM Transaction, and (3) certain specified tax covenants.

Under the transaction agreement in the BGI Transaction, the Company has agreed to indemnify Barclays for losses it may incur arising from (1) breach of certain representations, (2) breach of any covenant in the agreement, (3) liabilities of the entities acquired in the transaction other than liabilities assumed by Barclays or for which it is providing indemnification and (4) certain taxes.

Management believes that the likelihood of any liability arising under these indemnification provisions is remote. Management cannot estimate any potential maximum exposure due both to the remoteness of any potential claims and the fact that items that would be included within any such calculated claim would be beyond the control of BlackRock. Consequently, no liability has been recorded on the condensed consolidated statements of financial condition.

Contingent Payments Related to Quellos Transaction

On October 1, 2007, the Company acquired the fund of funds business of Quellos. As part of this transaction, Quellos is entitled to receive two contingent payments upon achieving certain investment advisory revenue measures through December 31, 2010, totaling up to an additional \$969 in a combination of cash and stock. The first contingent payment was paid in second quarter 2009 and the second contingent payment, of up to \$595 is payable in cash in 2011.

During second quarter 2009, the Company determined the first contingent payment to be \$219, of which \$11 was previously paid in cash during 2008. Of the remaining \$208, \$156 was paid in cash and \$52 was paid in common stock, or approximately 330,000 shares converted at a price of \$157.33. Quellos may also be entitled to a “catch-up” payment if certain performance measures are met in 2011 as the value of the first contingent payment was less than \$374.

14. Stock-Based Compensation

The components of the Company’s stock-based compensation expense are comprised of the following:

Stock Options

Options outstanding at September 30, 2009 and changes during the nine months ended September 30, 2009 were as follows:

<u>Outstanding at</u>	<u>Shares Under Option</u>	<u>Weighted Average Exercise Price</u>
December 31, 2008	3,140,517	\$ 88.82
Exercised	(447,882)	\$ 34.44
Forfeited	(8,064)	\$ 167.76
September 30, 2009	<u>2,684,571</u>	\$ 97.65

The aggregate intrinsic value of options exercised during the nine months ended September 30, 2009 was \$55.

At September 30, 2009, the Company had \$25 in unrecognized stock-based compensation expense related to unvested stock options. The unrecognized compensation cost is expected to be recognized over a remaining weighted-average period of 2.1 years.

Restricted Stock and RSUs

Restricted stock and RSU activity at September 30, 2009 and changes during the nine months ended September 30, 2009 were as follows:

<u>Outstanding at</u>	<u>Unvested Restricted Stock and Units</u>	<u>Weighted Average Grant Date Fair Value</u>
December 31, 2008	4,603,953	\$ 174.24
Granted	1,861,275	\$ 117.97

Notes to Condensed Consolidated Financial Statements—(continued)
(Dollar amounts in millions, except per share data)
(unaudited)

The Company values restricted stock and RSUs at their grant-date fair value as measured by BlackRock's common stock price.

In January 2009, the Company granted 23,417 RSUs as long-term incentive compensation, which will be partially funded by shares currently held by PNC (see *Long-Term Incentive Plans to be Funded by PNC* below). The awards cliff vest five years from the date of grant.

In January 2009, the Company granted 1,789,685 RSUs to employees as part of annual incentive compensation under the BlackRock, Inc. 1999 Stock Award and Incentive Plan (the "Award Plan") that vest ratably over three years from the date of grant.

At September 30, 2009, there was \$365 in total unrecognized compensation cost related to unvested restricted stock and RSUs. The unrecognized compensation cost is expected to be recognized over the remaining weighted average period of 2.0 years.

Long-Term Incentive Plans to be Funded by PNC

Under a share surrender agreement, PNC committed to provide up to 4,000,000 shares of BlackRock common stock, held by PNC, to fund certain BlackRock long-term incentive plans ("LTIP"). In February 2009, the share surrender agreement was amended for PNC to provide BlackRock series C non-voting preferred stock to fund the remaining committed shares.

During 2007, the Company granted additional long-term incentive awards, out of the Award Plan of approximately 1,600,000 RSUs that will be settled using BlackRock shares held by PNC in accordance with the share surrender agreement. The RSU awards vest on September 29, 2011 provided that BlackRock has actual GAAP earnings per share of at least \$5.20 in 2009, \$5.52 in 2010 or \$5.85 in 2011 or has attained an alternative performance hurdle based on the Company's earnings per share growth rate versus certain peers over the term of the awards. The value of the RSUs was calculated using BlackRock's closing stock price on the date of grant. The grant date fair value of the RSUs is being amortized as an expense on the straight-line method over the vesting period, net of expected forfeitures. The maximum value of awards that may be funded by PNC, prior to the earlier of September 29, 2011 or the date the performance criteria are met is approximately \$271, all of which has been granted as of September 30, 2009.

Due to the similarities in terms between BlackRock series A, B and C non-voting participating preferred stock and the Company's common stock, the Company considers the series A, B and C non-voting participating preferred stock to be common stock equivalents for purposes of earnings per share calculations. As such, the Company has included the outstanding series A, B and C non-voting participating preferred stock in the calculation of average basic and diluted shares outstanding for the three and nine months ended September 30, 2009 and 2008.

For the nine months ended September 30, 2009, 1,242,487 stock options were excluded from the calculation of diluted earnings per share because to include them would have an anti-dilutive effect.

Shares issued in acquisition

On October 1, 2007, the Company acquired the fund of funds business of Quellos. The Company issued 1,191,785 shares of newly-issued BlackRock common stock that were placed into an escrow account. In April 2008, 280,519 common shares were released to Quellos in accordance with the Quellos asset purchase agreement, which resulted in an adjustment to the recognized purchase price and had a dilutive effect in 2008. In November 2009, 42,326 additional common shares were released and will have a dilutive effect for the three months ended December 31, 2009. The remaining 868,940 common shares may have a dilutive effect in future periods based on the timing of the release of shares from the escrow account in accordance with the Quellos asset purchase agreement. The release of the remaining escrow could begin to occur in 2009 and be completed in 2010.

17. Pending Transaction

BlackRock will acquire from Barclays all of the outstanding equity interests of subsidiaries of Barclays conducting the business of BGI in exchange for an aggregate of approximately 37.8 million shares of BlackRock common stock and participating preferred stock, subject to certain adjustments, and \$6,600 in cash, subject to certain adjustments. The value of the 37.8 million shares will be determined at the time of closing, which is currently anticipated to be December 1, 2009, pending regulatory approvals and satisfaction of other customary closing conditions.

The shares of common stock and total capital stock issued to Barclays pursuant to the BGI Transaction will represent approximately 4.9% of the common stock and 19.9% of the total capital stock of BlackRock outstanding immediately following the closing of the BGI Transaction. Barclays will generally be restricted from purchasing additional shares of BlackRock common or preferred stock if it would result in Barclays holding more than 4.9% of the total voting power of BlackRock or more than 19.9% of the total capital stock of BlackRock on a fully diluted basis. In addition, Barclays will be restricted from transferring its BlackRock capital stock for one year after closing and 50% of its BlackRock capital stock for the next subsequent year, without the prior written consent of BlackRock.

The cash portion of the purchase price will be funded through a combination of existing cash, committed debt facilities and proceeds from the issuance of 19.9 million common and preferred shares to a group of institutional investors, including PNC. Both the debt facilities and the issuance of capital shares are 100% committed subject to the closing of the BGI Transaction.

18. Subsequent Events

Commercial Paper Program

On October 14, 2009, BlackRock established a commercial paper program (the “Program”) under which the Company may issue unsecured commercial paper notes (the “Notes”) on a private placement basis up to a maximum aggregate amount outstanding at any time of \$3,000. The proceeds of the commercial paper issuances will be used for general corporate purposes, including the financing of a portion of the BGI Transaction. Amounts available under the Program may be reborrowed. Subsidiaries of Bank of America and Barclays, as well as other third parties, will act as dealers under the Program.

The Company began issuance of notes under the Program on November 4, 2009. As of November 5, 2009, BlackRock had \$525 of outstanding Notes with a weighted interest rate of 0.17% and a weighted maturity of 51 days.

Additional Subsequent Event Review

In addition to the subsequent events included in the notes to the financial statements, the Company reviewed subsequent events occurring through November 6, 2009, the date that these financial statements were issued, and determined that no additional subsequent events occurred that would require accrual or additional disclosures.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Forward-looking Statements

This report, and other statements that BlackRock may make, may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act, with respect to BlackRock’s future financial or business performance, strategies or expectations. Forward-looking statements are typically identified by words or phrases such as “trend,” “potential,” “opportunity,” “pipeline,” “believe,” “comfortable,” “expect,” “anticipate,” “current,” “intention,” “estimate,” “position,” “assume,” “outlook,” “continue,” “remain,” “maintain,” “sustain,” “seek,” “achieve,” and similar expressions, or future or conditional verbs such as “will,” “would,” “should,” “could,” “may” or similar expressions.

BlackRock cautions that forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time. Forward-looking statements speak only as of the date they are made, and BlackRock assumes no duty to and does not undertake to update forward-looking statements. Actual results could differ materially from those anticipated in forward-looking statements and future results could differ materially from historical performance.

In addition to risk factors previously disclosed in BlackRock’s Securities and Exchange Commission (“SEC”) reports and those identified elsewhere in this report the following factors, among others, could cause actual results to differ materially from forward-looking statements or historical performance: (1) the introduction, withdrawal, success and timing of business initiatives and strategies; (2) changes and volatility in political, economic or industry conditions, the interest rate environment or financial and capital markets, which could result in changes in demand for products or services or in the value of assets under management; (3) the relative and absolute investment performance of BlackRock’s investment products; (4) the impact of increased competition; (5) the impact of capital improvement projects; (6) the impact of future acquisitions or divestitures; (7) the unfavorable resolution of legal proceedings; (8) the extent and timing of any share repurchases; (9) the impact, extent and timing of technological changes and the adequacy of intellectual property protection; (10) the impact of legislative and regulatory actions and reforms and regulatory, supervisory or enforcement actions of government agencies relating to BlackRock, Barclays PLC, Bank of America Corporation, Merrill Lynch & Co., Inc. or The PNC Financial Services Group, Inc.; (11) terrorist activities and international hostilities, which may adversely affect the general economy, domestic and local financial and capital markets, specific industries or BlackRock; (12) the ability to attract and retain highly talented professionals; (13) fluctuations in the carrying value of BlackRock’s investments; (14) fluctuations in foreign currency exchange rates, which may adversely affect the value of investment advisory and administration fees earned by BlackRock or the carrying value of certain assets and liabilities denominated in foreign currencies; (15) the impact of changes to tax legislation and, generally, the tax position of the Company; (16) BlackRock’s success in maintaining the distribution of its products; (17) the impact of BlackRock electing to provide support to its products from time to time; (18) the impact of problems at other financial institutions or the failure or negative performance of products at other financial institutions; and (19) the ability of BlackRock to complete the transaction with Barclays Bank PLC and integrate the operations of Barclays Global Investors.

Table of Contents

Overview

BlackRock, Inc. (“BlackRock” or the “Company”) is one of the largest publicly traded investment management firms in the world with \$1.435 trillion of assets under management (“AUM”) at September 30, 2009. BlackRock manages assets on behalf of institutional and individual investors worldwide through a variety of fixed income, cash management, equity and balanced and alternative investment separate accounts and funds. In addition, *BlackRock Solutions*® provides market risk management, financial markets advisory and enterprise investment system services to a broad base of clients. Financial markets advisory services include valuation of illiquid securities, dispositions and workout assignments (including long-term portfolio liquidation assignments), risk management and strategic planning and execution.

On January 1, 2009, Bank of America Corporation (“Bank of America”) acquired Merrill Lynch & Co., Inc. (“Merrill Lynch”). In connection with this transaction, BlackRock entered into exchange agreements with each of Merrill Lynch and The PNC Financial Services Group, Inc. (“PNC”) pursuant to which each agreed to exchange a portion of the BlackRock voting common stock they held for non-voting preferred stock. On September 30, 2009, Bank of America/Merrill Lynch owned approximately 4.6% of BlackRock’s voting common stock and 46.1% of BlackRock’s capital stock on a fully diluted basis, and PNC owned approximately 43.8% of BlackRock’s voting common stock and 30.7% of BlackRock’s capital stock on a fully diluted basis.

On June 16, 2009, BlackRock announced that Barclays Bank PLC (“Barclays”) accepted its offer to acquire all of the outstanding equity interests of subsidiaries of Barclays conducting the business of Barclays Global Investors (“BGI”) and entered into a definitive purchase agreement to acquire BGI from Barclays (the “BGI Transaction”). The purchase price consideration consists of \$6.6 billion in cash, subject to certain adjustments, and approximately 37.8 million shares of common and participating preferred stock, subject to certain adjustments. The cash portion of the transaction will be financed by \$800 million from BlackRock’s cash position, a new \$2 billion credit facility, which is expected to eventually be replaced with term debt, \$1 billion of additional short-term debt, and \$2.8 billion of capital from a group of institutional investors, including PNC. The shares of common stock and total capital stock issued to Barclays pursuant to the BGI Transaction will represent approximately 4.9% of the common stock and 19.9% of the total capital stock of BlackRock outstanding immediately following the closing of the BGI Transaction.

BlackRock reports its financial results on a GAAP basis; however, management believes that evaluating the Company's ongoing operating results may be enhanced if investors have additional non-GAAP basis financial measures. Management reviews non-GAAP financial measures to assess ongoing operations and, for the reasons described below, considers them to be effective indicators, for both management and investors, of BlackRock's financial performance over time. BlackRock's management does not advocate that investors consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP.

Certain prior period non-GAAP data has been reclassified to conform to the current presentation. Computations for all periods are derived from the Company's condensed consolidated statements of income as follows:

(a) Operating income, as adjusted, and operating margin, as adjusted:

Operating income, as adjusted, equals operating income, GAAP basis, excluding certain items deemed non-recurring by management or transactions that ultimately will not impact BlackRock's book value, as indicated in the table below. Operating income used for operating margin measurement equals operating income, as adjusted, excluding the impact of closed-end fund launch costs and commissions. Operating margin, as adjusted, equals operating income used for operating margin measurement, divided by revenue used for operating margin measurement, as indicated in the table below.

Financial Highlights—(continued)

Management believes that operating income, as adjusted, and operating margin, as adjusted, are effective indicators of BlackRock's performance over time. As such, management believes that operating income, as adjusted, and operating margin, as adjusted, provide useful disclosure to investors.

Operating income, as adjusted:

Restructuring charges recorded in 2009 consist of compensation costs, occupancy costs and professional fees and have been deemed non-recurring by management and thus have been excluded from operating income, as adjusted, to help ensure the comparability of this information to prior periods. BGI transaction/integration costs recorded in 2009 consist principally of certain advisory fees, legal fees and consulting expenses incurred in conjunction with the announced transaction. As such, management believes that operating margins exclusive of these costs are useful measures in evaluating BlackRock's operating performance for the respective periods.

The portion of compensation expense associated with certain long-term incentive plans ("LTIP") that will be funded through the distribution to participants of shares of BlackRock stock held by PNC and the Merrill Lynch compensation contribution, a portion of which has been received, have been excluded because these charges ultimately do not impact BlackRock's book value.

Compensation expense associated with appreciation (depreciation) on assets related to certain BlackRock deferred compensation plans has been excluded as returns on investments set aside for these plans, which substantially offset this expense, are reported in non-operating income.

Operating margin, as adjusted:

Operating income used for measuring operating margin, as adjusted, is equal to operating income, as adjusted, excluding the impact of closed-end fund launch costs and commissions. Management believes that excluding such costs and commissions is useful because these costs can fluctuate considerably and revenues associated with the expenditure of these costs will not fully impact the Company's results until future periods.

Operating margin, as adjusted, allows the Company to compare performance from period-to-period by adjusting for items that may not recur, recur infrequently or may fluctuate based on market movements, such as restructuring charges, transaction/integration costs, closed-end fund launch costs and fluctuations in compensation expense based on mark-to-market movements in investments held to fund certain compensation plans. The Company also uses operating margin, as adjusted, to monitor corporate performance and efficiency and as a benchmark to compare its performance to other companies. Management uses both the GAAP and non-GAAP financial measures. The non-GAAP measures by themselves may pose limitations because they do not include all of the Company's revenues and expenses.

Revenue used for operating margin, as adjusted, excludes portfolio administration and servicing costs paid to related parties and to other third parties. Management believes that excluding such costs is useful because the Company receives offsetting revenue for these services. Amortization of deferred mutual fund sales commissions is excluded from revenue used for operating margin measurement, as adjusted, because such costs, over time, offset distribution fee revenue earned by the Company. Reimbursable property management compensation represented compensation and benefits paid to personnel of Metric Property Management, Inc. ("Metric"), a subsidiary of BlackRock Realty Advisors, Inc. ("Realty"). These employees were retained on Metric's payroll when certain properties were acquired by Realty's clients. The related compensation and benefits were fully reimbursed by Realty's clients and have been excluded from revenue used for operating margin, as adjusted, because they bear no economic cost to BlackRock. For each of these items, BlackRock excludes from revenue used for operating margin, as adjusted, the costs related to each of these items as a proxy for such revenues.

(b) Non-operating income (expense), less net income (loss) attributable to non-controlling interests, as adjusted:

Non-operating income (expense), less net income (loss) attributable to non-controlling interests, as adjusted, equals non-operating income (expense), GAAP basis, less net income (loss) attributable to non-controlling interests, GAAP basis, adjusted for compensation expense associated with depreciation (appreciation) on assets related to certain BlackRock deferred compensation plans. The compensation expense offset is recorded in operating income. This compensation expense has been included in non-operating income (expense), less net income (loss) attributable to non-controlling interests, as adjusted, to offset returns on investments set aside for these plans, which are reported in non-operating income (expense), GAAP basis.

Management believes that non-operating income (expense), less net income (loss) attributable to non-controlling interests, as adjusted, provides for comparability of this information to prior periods and is an effective measure for reviewing BlackRock's non-operating contribution to its results. As compensation expense associated with depreciation (appreciation) on assets related to certain BlackRock deferred compensation plans, which is included in operating income, offsets the gain/(loss) on the investments set aside for these plans, management believes that non-operating income (expense), less net income (loss) attributable to non-controlling interests, as adjusted, provides useful measures to investors of BlackRock's non-operating results.

The restructuring charges and BGI transaction/integration costs reflected in GAAP net income attributable to BlackRock, Inc. have been deemed non-recurring by management and have been excluded from net income attributable to BlackRock, Inc., as adjusted, to help ensure the comparability of this information to prior reporting periods.

The portion of the compensation expense associated with LTIP awards that will be funded through the distribution to participants of shares of BlackRock stock held by PNC and the Merrill Lynch compensation contribution, a portion of which has been received, have been excluded from net income attributable to BlackRock, Inc., as adjusted, because these charges ultimately do not impact BlackRock's book value.

Financial Highlights—(continued)

During third quarter 2009, legislation was enacted primarily with respect to New York City corporate income taxes, effective January 1 2009, which resulted in a revaluation of deferred income tax assets and liabilities. The resulting decrease in income taxes has been excluded from net income attributable to BlackRock, Inc., as adjusted, as it is non-recurring and to ensure comparability of this information to prior reporting periods.

(d) The tax rates used represent BlackRock's corporate effective tax rates in the respective periods, which exclude certain adjustments that were recorded. For each of the quarters ended September 30, 2009, September 30, 2008 and June 30, 2009, non-GAAP adjustments were tax effected at 35%. For each of the nine months ended September 30, 2009 and 2008, non-GAAP adjustments were tax effected at 35%.

(e) Series A, B and C non-voting participating preferred stock are considered to be common stock equivalents for purposes of determining basic and diluted earnings per share calculations. Certain unvested restricted stock units are not included in this number as they are deemed participating securities in accordance with required provisions of ASC 260-10, *Earnings per Share* (FSP EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities*).

(f) Allocation of net income attributable to BlackRock, Inc., as adjusted, to common shares and participating RSUs is calculated pursuant to the two-class method as defined in ASC 260-10 (SFAS No. 128, *Earnings per Share*).

Table of Contents

BlackRock has portfolio managers located around the world, including the United States, the United Kingdom, the Netherlands, Japan, Hong Kong and Australia. The Company provides a wide array of taxable and tax-exempt fixed income, equity and balanced mutual funds and separate accounts, as well as a wide assortment of index-based equity and alternative investment products for a diverse global clientele. BlackRock provides global advisory services for mutual funds and other non-U.S. equivalent retail products. The Company's non-U.S. mutual funds are based in a number of domiciles and cover a range of asset classes, including cash management, fixed income and equities. The BlackRock Global Funds, the Company's primary retail fund group offered outside the United States, are authorized for distribution in more than 35 jurisdictions worldwide. In the United States, the primary retail offerings include various open-end and closed-end funds. Additional fund offerings include structured products, real estate funds, hedge funds, hedge funds of funds, private equity funds and funds of funds, managed futures funds and exchange funds. These products are sold to both U.S. and non-U.S. high net worth, retail and institutional investors in a wide variety of active and passive strategies covering both equity and fixed income assets.

BlackRock's client base consists of financial institutions and other corporate clients, pension funds, high net worth individuals and retail investors around the world. BlackRock maintains a significant sales and marketing presence both inside and outside the United States that is focused on establishing and maintaining retail and institutional investment management relationships by marketing its services to retail and institutional investors directly and through financial professionals, pension consultants and establishing third-party distribution relationships. BlackRock also distributes its products and services through Merrill Lynch under a global distribution agreement, which, following Bank of America's acquisition of Merrill Lynch, runs through January 2014. After such term, the agreement will renew for one automatic three-year extension if certain conditions are met.

BlackRock derives a substantial portion of its revenue from investment advisory and administration fees, which are recognized as the services are performed. Such fees are primarily based on pre-determined percentages of the market value of AUM, percentages of committed capital during investment periods of certain products, or, in the case of certain real estate equity clients, net operating income generated by the underlying properties, and are affected by changes in AUM, including market appreciation or depreciation, foreign exchange gains or losses and net subscriptions or redemptions. Net subscriptions or redemptions represent the sum of new client assets, additional fundings from existing clients (including dividend reinvestment), withdrawals of assets from, and termination of, client accounts and purchases and redemptions of mutual fund shares. Market appreciation or depreciation includes current income earned on, and changes in the fair value of, securities held in client accounts.

Investment advisory agreements for certain separate accounts and BlackRock's alternative investment products provide for performance fees, based upon relative and/or absolute investment performance, in addition to base fees based on AUM. Investment advisory performance fees generally are earned after a given period of time or when investment performance exceeds a contractual threshold. As such, the timing of recognition of performance fees may increase the volatility of BlackRock's revenue and earnings.

BlackRock provides a variety of risk management, investment analytic and investment system and advisory services to financial institutions, pension funds, asset managers, foundations, consultants, mutual fund sponsors, real estate investment trusts and government agencies. These services are provided under the brand name *BlackRock Solutions*® and include a wide array of risk management services, valuation services related to illiquid securities, disposition and workout assignments (including long-term portfolio liquidation assignments), strategic planning and execution, and enterprise investment system outsourcing to clients. Fees earned for *BlackRock Solutions* and advisory services are determined using some, or all, of the following methods: (i) fixed fees, (ii) percentages of various attributes of advisory assets under management and (iii) performance fees if contractual thresholds are met.

Operating expenses reflect employee compensation and benefits, portfolio administration and servicing costs, amortization of deferred mutual fund sales commissions, general and administration expenses and amortization of intangible assets. Employee compensation and benefits expense reflects salaries, commissions, deferred and incentive compensation, and related benefit costs. Portfolio administration and servicing costs include payments made to Merrill Lynch-affiliated entities under a global distribution agreement and to PNC-affiliated entities, as well as other third parties, primarily associated with the administration and servicing of client investments in certain BlackRock products.

[Table of Contents](#)

BlackRock holds investments primarily in sponsored investment products that invest in a variety of asset classes, including private equity, distressed credit/mortgage funds, hedge funds and real estate. Investments generally are made for co-investment purposes, to establish a performance track record or to hedge exposure to certain deferred compensation plans. Non-operating income (expense) includes the impact of changes in the valuations of these investments.

Assets Under Management

AUM for reporting purposes is generally based upon how investment advisory and administration fees are calculated for each portfolio. Net asset values, total assets, committed assets or other measures may be used to determine portfolio AUM.

¹ Includes distributions representing return of capital and return on investment to investors.

² Foreign exchange reflects the impact of converting non-dollar denominated AUM into U.S. dollars for reporting purposes.

³ Advisory AUM represents long-term portfolio liquidation assignments.

AUM increased approximately \$62 billion, or 4%, to \$1.435 trillion at September 30, 2009, compared to \$1.373 trillion at June 30, 2009. The growth in AUM was attributable to \$72 billion in net market appreciation, \$6 billion in foreign exchange translation, offset by \$16 billion in net redemptions. Net market appreciation of \$72 billion included \$47 billion of appreciation in equity and balanced assets due to an increase in global equity markets and \$24 billion in fixed income products due to current income and changes in interest rate spreads. The \$6 billion net increase in AUM from foreign exchange was due to the weakening of the U.S. dollar primarily against the Euro and Japanese Yen, which resulted in an increase in AUM from converting non U.S. dollar denominated AUM into U.S. dollars.

Net Subscriptions/(Redemptions)

Net redemptions of \$16 billion for the three months ended September 30, 2009 included net redemptions, including distributions, of \$21 billion from institutional clients, offset by net subscriptions of \$5 billion from retail and high net worth clients.

Net subscriptions of \$12 billion in equity and balanced products were primarily the result of net subscriptions of \$4 billion in passive index strategies, \$3 billion in global allocation and balanced products, and \$4 billion in equity products spread across U.S. equity, sector and regional/country funds. Net subscriptions of \$3 billion in fixed income products were concentrated in U.S. core bond and local currency strategies, partially offset by net redemptions in targeted duration products due to rebalancing into equities. Net outflows included \$26 billion in cash management products as a result of asset reallocation by both institutional and retail investors due to exceptionally low level yields. Cash management outflows from primarily institutional U.S. clients accounted for \$30 billion of net outflows, which were partially offset by \$4 billion of inflows from international investors. Advisory AUM outflows included \$5 billion of net distributions from long-term liquidation portfolios.

² Net assets acquired from R3 Capital Management, LLC in April 2009.

³ Foreign exchange reflects the impact of converting non U.S.-dollar denominated AUM into U.S. dollars for reporting purposes.

⁴ Advisory AUM represents long-term portfolio liquidation assignments.

AUM increased approximately \$128 billion, or 10%, to \$1.435 trillion at September 30, 2009, compared with \$1.307 trillion at December 31, 2008. The increase in AUM was attributable to \$104 billion in net market appreciation, \$18 billion in AUM from foreign exchange translation, \$4 billion in net subscriptions and \$1 billion as a result of the acquisition of the R3 Capital Partners funds. Net market appreciation of \$104 billion included \$69 billion of appreciation in equity and balanced products and \$39 billion in fixed income products due to significant improvements in second and third quarters in both the equity and fixed income markets, partially offset by \$4 billion of net market depreciation in alternative investment products, primarily in real estate products. The \$18 billion increase in AUM from foreign exchange was across all asset classes due to the weakening of the U.S. dollar primarily against the British pound, which resulted in an increase in AUM from converting non U.S. dollar denominated AUM into U.S. dollars.

Net Subscriptions/(Redemptions)

Net subscriptions of \$4 billion for the nine months ended September 30, 2009 included \$12 billion from retail and high net worth clients offset by net redemptions of \$8 billion from institutional clients.

Net subscriptions were attributable to net new business of \$33 billion in equity and balanced products, including \$16 billion in passive index strategies, \$7 billion in asset allocation strategies and \$10 billion in equity products spread across U.S. equity, sector and regional/country funds, \$13 billion in fixed income products including \$8 billion in local currency strategies and net new business of \$14 billion in long-term advisory liquidation assignments. Cash management products had \$50 billion of net outflows primarily in government and prime funds as clients reallocated capital to long-dated assets, and \$6 billion in alternative investment products.

³ Foreign exchange reflects the impact of converting non U.S.-dollar denominated AUM into U.S. dollars for reporting purposes.

⁴ Advisory AUM represents long-term portfolio liquidation assignments.

AUM increased approximately \$176 billion, or 14%, to \$1.435 trillion at September 30, 2009, compared with \$1.259 trillion at September 30, 2008. The increase in AUM was attributable to \$133 billion in net subscriptions, \$40 billion in net market appreciation, \$2 billion in foreign exchange translation and \$1 billion as a result of the acquisition of the R3 Capital Partners funds. Net market appreciation of \$40 billion included \$39 billion in fixed income products and \$12 billion of appreciation in equity and balanced due to significant improvements in second and third quarters in both the equity and fixed income markets, partially offset by \$12 billion of net market depreciation in alternative investment products, primarily in real estate products. The \$2 billion net increase in AUM from foreign exchange was primarily in advisory long-term portfolio liquidation assignments and fixed income products, partially offset by a foreign exchange decrease in equity and balanced products.

Net Subscriptions/(Redemptions)

Net subscriptions of \$133 billion for the twelve months ended September 30, 2009 included \$129 billion from institutional clients and \$4 billion from retail and high net worth clients.

Net subscriptions of \$133 billion for the twelve months ended September 30, 2009 were attributable to net new business of \$116 billion in long-term advisory liquidation assignments, \$31 billion in equity and balanced products primarily related to index, sector, and regional/country strategies, partially offset by net outflows of \$4 billion in fixed income products including \$16 billion of outflows in global and targeted duration strategies, offset by \$12 billion of inflows in local currency and municipal strategies and \$9 billion of outflows in alternative investment products.

NM—Not Meaningful

Total revenue for the three months ended September 30, 2009 decreased \$173 million, or 13%, to \$1,140 million, compared with \$1,313 million for the three months ended September 30, 2008. The \$173 million decrease was the result of a \$177 million decrease in total investment advisory and administration base and performance fees, a \$10 million decrease in distribution fees and other revenue, offset by a \$14 million increase in BlackRock Solutions and advisory revenue.

Investment Advisory and Administration Base and Performance Fees

The decrease in investment advisory and administration fees of \$177 million, or 16%, was the result of a decrease in investment advisory and administration base fees of \$171 million, or 16%, to \$913 million for the three months ended September 30, 2009, compared with \$1,084 million for the three months ended September 30, 2008 and a decrease of \$6 million in performance fees.

The decrease in investment advisory and administration base fees of \$171 million for the three months ended September 30, 2009, compared with the three months ended September 30, 2008 consisted of decreases in base fees of \$86 million in equity and balanced products, \$52 million in alternative investment products, \$27 million in cash management products and \$6 million in fixed income products primarily associated with a market driven reduction in average AUM of equity and balanced and alternative investment products and a reduction of average AUM of cash management products due to net outflows.

Table of Contents

Investment advisory performance fees decreased \$6 million, or 11%, to \$49 million for the three months ended September 30, 2009, as compared to \$55 million for the three months ended September 30, 2008. The decrease relates primarily to a reduction in performance fees in alternative equity hedge funds, partially offset by an increase in international equity and balanced separate accounts.

BlackRock Solutions and Advisory

BlackRock Solutions and advisory revenue for the three months ended September 30, 2009 increased \$14 million, or 12%, compared with the three months ended September 30, 2008. The increase in *BlackRock Solutions* and advisory revenue was primarily due to additional advisory assignments which have AUM based fees and additional Aladdin and risk management mandates. Revenue earned on advisory assignments was comprised of advisory and portfolio structuring assignment fees and ongoing fees based on AUM of the respective portfolio assignments.

Distribution Fees

Distribution fees decreased \$9 million to \$25 million for the three months ended September 30, 2009, as compared to \$34 million for the three months ended September 30, 2008. The decrease in distribution fees was primarily the result of lower sales, redemptions and AUM in certain share classes of open-end mutual funds.

Other Revenue

Other revenue of \$26 million for the three months ended September 30, 2009 decreased \$1 million compared with the three months ended September 30, 2008. Other revenue for the three months ended September 30, 2009 included \$11 million in BlackRock's share of underlying earnings from certain operating/advisory company investments, \$4 million of unit trust sales commissions, \$2 million of net interest related to securities lending, and \$9 million of other revenue.

The decrease in other revenue of \$1 million, or 4%, for the three months ended September 30, 2009, as compared to the three months ended September 30, 2008, was primarily the result of a \$9 million decline in real estate property management fees related to the outsourcing in the fourth quarter of 2008 of Metric contracts with BlackRock real estate clients, a \$4 million decrease in net interest earned related to securities lending, offset by a \$12 million increase in BlackRock's share of underlying earnings from certain operating/advisory company investments.

NM—Not Meaningful

Total GAAP expenses decreased \$76 million, or 9%, to \$783 million for the three months ended September 30, 2009, compared with \$859 million for the three months ended September 30, 2008. Excluding certain items deemed non-recurring by management or transactions that ultimately will not impact the Company's book value, total expenses decreased \$141 million, or 16%. The decrease is attributable to decreases in employee compensation and benefits, portfolio administration and servicing costs, amortization of deferred mutual fund sales commissions and general and administration expenses.

Employee Compensation and Benefits

Employee compensation and benefits expense decreased \$24 million, or 5%, to \$444 million, for the three months ended September 30, 2009, compared to \$468 million for the three months ended September 30, 2008. The decrease in employee compensation and benefits expense was primarily attributable to a \$52 million decrease in salaries and benefits primarily due to lower employment levels as a result of BlackRock's cost control efforts and a \$22 million decline in incentive compensation associated with the decrease in operating income, offset partially by a \$50 million increase in deferred compensation expense. The increase in deferred compensation expense is offset by a \$48 million increase in non-operating income related to appreciation on assets associated with certain deferred compensation plans. Employees at September 30, 2009 totaled 5,044 as compared to 6,262 (including 387 Metric employees) and 5,875 (excluding Metric employees) at September 30, 2008.

Portfolio Administration and Servicing Costs

Portfolio administration and servicing costs decreased \$30 million to \$119 million during the three months ended September 30, 2009, compared to \$149 million for the three months ended September 30, 2008. These costs include payments to Bank of America/Merrill Lynch under a global distribution agreement, and payments to PNC as well as other third parties, primarily associated with the administration and servicing of client investments in certain BlackRock products. The \$30 million decrease primarily related to lower levels of average AUM in cash management and open-end funds and an increase in fee waivers within certain cash management funds, resulting in lower payments.

Portfolio administration and servicing costs for the three months ended September 30, 2009 included \$88 million of costs attributable to Bank of America/Merrill Lynch and affiliates and \$4 million of costs attributable to PNC and affiliates as compared to \$119 million and \$7 million, respectively, for the three months ended September 30, 2008. Portfolio administration and servicing costs related to other third parties increased \$4 million to \$27 million for the three months ended September 30, 2009, as compared to \$23 million for the three months ended September 30, 2008 due to an expansion of distribution platforms.

Amortization of Deferred Mutual Fund Sales Commissions

Amortization of deferred mutual fund sales commissions decreased to \$23 million for the three months ended September 30, 2009, as compared to \$34 million for the three months ended September 30, 2008. The decrease in amortization of deferred mutual fund sales commissions was primarily the result of continued lower sales in certain share classes of open-end mutual funds.

Table of Contents

General and administration expenses decreased \$10 million, or 6%, to \$161 million for the three months ended September 30, 2009 compared to \$171 million for the three months ended September 30, 2008. The three months ended September 30, 2009, included \$3 million, \$1 million and \$12 million of marketing and promotional, technology and professional services expenses, respectively related to the BGI Transaction. Excluding these expenses, general and administration expenses decreased \$26 million, or 15%, for the three months ended September 30, 2009 compared to the three months ended September 30, 2008.

Marketing and promotional expenses decreased \$21 million, or 51%, primarily due to a decline in travel and promotional expenses. Portfolio service costs decreased \$3 million, or 8%, to \$35 million due to a reduction of AUM on certain products, which BlackRock incurs fund related expenses. Technology expenses decreased \$5 million, or 16%, to \$27 million compared to \$32 million for the three months ended September 30, 2008 primarily due to a decrease in software licensing and maintenance and outsourced services expenses. Professional services increased \$10 million, or 56%, to \$28 million compared to \$18 million for the three months ended September 30, 2008 primarily related to \$12 million of BGI transaction/integration costs incurred in third quarter 2009. Other general and administration expenses increased \$7 million, or 88%, to \$15 million from \$8 million, primarily the result of a \$27 million decrease in foreign currency remeasurement benefits, partially offset by the result of cost control efforts and \$3 million of costs incurred in 2008 associated with the support of two enhanced cash funds.

Non-Operating Income (Expense), Less Net Income (Loss) Attributable to Non-Controlling Interests

Non-operating income (expense), less net income (loss) attributable to non-controlling interests for the three months ended September 30, 2009 and 2008 was as follows:

¹ Includes net income (loss) attributable to non-controlling interests (redeemable and nonredeemable) related to investment and non-investment activities.

² Includes net gains/(losses) related to equity and fixed income investments and BlackRock's seed capital hedging program.

Non-operating income, net of non-controlling interests, increased \$181 million to \$61 million for the three months ended September 30, 2009, as compared to \$120 million of non-operating expense, net of non-controlling interest for the three months ended September 30, 2008. The \$61 million non-operating income, net of non-controlling interests, related to the Company's co-investments and seed investments included net gains in distressed credit/mortgage funds of \$47 million, private equity products of \$13 million, hedge funds/funds of hedge funds of \$7 million, fixed income and equity investments of \$2 million, and investments related to deferred compensation plans of \$9 million, offset by a \$6 million decrease in valuations from real estate equity/debt products. In addition, net interest expense was \$11 million, an increase of \$13 million primarily due to a decline in interest rates earned on cash equivalents and paid on the Company's revolving credit facility.

Net Economic Investment Portfolio

The Company reviews its net economic exposure to its investment portfolio by reducing its GAAP investments by the net assets attributable to non-controlling interests of consolidated sponsored investment funds. Changes in the investment portfolio are due to purchases, sales, maturities, distributions as well as the impact of valuations. The following table represents the carrying value, by asset type, at September 30, 2009 and 2008:

	September 30,	September 30,	Variance

Income Tax Expense

Income tax expense was \$101 million and \$117 million for the three months ended September 30, 2009 and 2008, respectively. The effective income tax rate for the three months ended September 30, 2009 was 24.2%, as compared to 35.0% for the three months ended September 30, 2008. Excluding approximately \$45 million of tax benefits related to legislation effective January 1, 2009 with respect to New York City corporate income taxes which was enacted during third quarter 2009, which resulted in a revaluation of certain deferred income tax assets and liabilities, the effective income tax rate was 35.0%.

Operating Income and Operating Margin

GAAP

Operating income totaled \$357 million for the three months ended September 30, 2009, which was a decrease of \$97 million compared to the three months ended September 30, 2008. The reduction of operating income for the three months ended September 30, 2009 included the impact of a \$171 million decrease in investment advisory and administration base fees, associated with a market-driven reduction in average AUM of equity and balanced, and alternative investment products classes and a \$6 million decrease in performance fee revenue. The decrease in total revenue is offset by a \$76 million decrease in operating expenses due to declines in employee compensation and benefits, portfolio administration and servicing costs, general and administration expenses and amortization of deferred mutual fund sales commissions.

The Company's operating margin was 31.3% for the three months ended September 30, 2009, compared to 34.6% for the three months ended September 30, 2008. The decrease in operating margin includes the impact of a \$27 million decline in foreign currency remeasurement benefits.

Table of Contents

As Adjusted

Operating income, as adjusted, totaled \$400 million for the three months ended September 30, 2009, which was a decrease of \$32 million compared to the three months ended September 30, 2008. The decline of operating income, as adjusted, for the three months ended September 30, 2009 as compared to the three months ended September 30, 2008 is related to the impact of the \$173 million decrease in total revenue offset by a \$141 million decrease in operating expenses, as adjusted, primarily due to declines in employee compensation and benefits, portfolio administration and servicing costs and general and administration expenses.

Operating margin, as adjusted, was 40.1% and 38.4% for the three months ended September 30, 2009 and 2008, respectively. Operating margin, as adjusted was impacted by \$3 million and \$30 million of foreign currency remeasurement benefits in third quarter 2009 and third quarter 2008, respectively.

Operating income, as adjusted, and operating margin, as adjusted, are described in more detail in the Overview to Management's Discussion and Analysis of Financial Condition and Results of Operations.

Net income attributable to BlackRock, Inc. for the three months ended September 30, 2009 included operating income of \$357 million, or \$1.66 per diluted common share, non-operating income, less net income attributable to non-controlling interests, of \$61 million, or \$0.28 per diluted common share and a \$45 million, or \$0.33 per diluted common share, tax benefit related to the local income tax law changes. Net income attributable to BlackRock, Inc. totaled \$317 million, or \$2.27 per diluted common share, for the three months ended September 30, 2009, which was an increase of \$100 million, or \$0.68 per diluted common share, compared to the three months ended September 30, 2008.

Net income attributable to BlackRock, Inc. for the three months ended September 30, 2009 included the after-tax impact of BGI transaction/integration costs of \$11 million, the portion of LTIP awards which will be funded through a capital contribution of BlackRock stock held by PNC of \$9 million, and an expected contribution, a portion of which has been paid by Merrill Lynch in third quarter 2009, of \$1 million to fund certain compensation of former Merrill Lynch Investment Managers (“MLIM”) employees. In addition, net income for the three months ended September 30, 2009 included a \$45 million one-time reduction in income tax expense as a result of enacted legislation primarily with respect to New York City corporate income taxes, which resulted in a revaluation of certain deferred income tax assets and liabilities.

Net income attributable to BlackRock, Inc. of \$217 million for the three months ended September 30, 2008 included the after-tax impact of the portion of certain LTIP awards which will be funded through a capital contribution of BlackRock stock held by PNC of \$10 million and an expected contribution by Merrill Lynch of \$2 million to fund certain compensation of former MLIM employees, a portion of which has been received by BlackRock in third quarter 2009.

Exclusive of these items in both periods, diluted earnings per common share, as adjusted, of \$2.10 for the three months ended September 30, 2009 increased \$0.43, or 26%, compared to the three months ended September 30, 2008. Diluted earnings per common share, as adjusted, is described in more detail in the Overview to Management’s Discussion and Analysis of Financial Condition and Results of Operations.

Total revenue for the nine months ended September 30, 2009 decreased \$844 million, or 21%, to \$3,156 million, compared with \$4,000 million for the nine months ended September 30, 2008. The \$844 million decrease was the result of an \$892 million decrease in total investment advisory and administration base and performance fees, a \$32 million decrease in other revenue and a \$30 million decrease in distribution fees, offset by a \$110 million increase in *BlackRock Solutions* and advisory revenue.

Investment Advisory and Administration Base and Performance Fees

The decrease in investment advisory and administration base and performance fees of \$892 million, or 25%, was the result of a decrease in investment advisory and administration base fees of \$815 million, or 24%, to \$2,562 million for the nine months ended September 30, 2009, compared with \$3,377 million for the nine months ended September 30, 2008 and a decrease of \$77 million in performance fees.

The decrease in investment advisory and administration base fees of \$815 million for the nine months ended September 30, 2009, compared with the nine months ended September 30, 2008 consisted of decreases in base fees of \$570 million in equity and balanced products, \$145 million in alternative investment products, \$55 million in fixed income products and \$45 million in cash management products primarily associated with a market driven reduction in average AUM for the nine months ended September 30, 2009, compared to the nine months ended September 30, 2008 for all asset classes.

Table of Contents

Investment advisory performance fees decreased \$77 million, or 50%, to \$77 million for the nine months ended September 30, 2009, as compared to \$154 million for the nine months ended September 30, 2008, primarily due to a reduction in performance fees in international equity and balanced separate accounts and alternative equity hedge funds.

BlackRock Solutions and Advisory

BlackRock Solutions and advisory revenue for the nine months ended September 30, 2009 increased \$110 million, or 40%, compared with the nine months ended September 30, 2008. The increase in *BlackRock Solutions* and advisory revenue was primarily the result of additional advisory assignments during the period, as well as additional Aladdin and risk management mandates. Revenue earned on advisory assignments was comprised of advisory and portfolio structuring assignment fees and ongoing fees based on AUM of the respective portfolio assignments.

Distribution Fees

Distribution fees decreased \$30 million to \$73 million for the nine months ended September 30, 2009, as compared to \$103 million for the nine months ended September 30, 2008. The decrease in distribution fees was primarily the result of lower sales, redemptions and AUM in certain share classes of open-end mutual funds.

Other Revenue

Other revenue of \$61 million for the nine months ended September 30, 2009 decreased \$32 million compared with the nine months ended September 30, 2008. Other revenue for the nine months ended September 30, 2009 included \$13 million of unit trust sales commissions, \$13 million in BlackRock's share of underlying earnings from certain operating/advisory company investments, \$10 million of net interest related to securities lending, \$6 million in fees earned for fund accounting services and \$19 million of class A sales commissions and other revenue.

The decrease in other revenue of \$32 million, or 34%, for the nine months ended September 30, 2009, as compared to the nine months ended September 30, 2008, was primarily the result of a \$26 million decline in property management fees primarily related to the outsourcing in the fourth quarter of 2008 of Metric contracts with BlackRock real estate clients, a \$13 million decrease in net interest earned related to securities lending and a \$6 million decline in unit trust sales commissions, partially offset by a \$13 million increase in BlackRock's share of underlying earnings from certain operating/advisory company investments.

Total GAAP expenses decreased \$478 million, or 17%, to \$2,267 million for the nine months ended September 30, 2009, compared to \$2,745 million for the nine months ended September 30, 2008. Excluding certain items deemed non-recurring by management or transactions that ultimately will not impact the Company's book value, total expenses, as adjusted, decreased \$561 million, or 21%. The decrease is attributable to decreases in employee compensation and benefits, general and administration expenses, portfolio administration and servicing costs and amortization of deferred mutual funds sales commissions.

Table of Contents

Employee Compensation and Benefits

Employee compensation and benefits expense decreased \$304 million, or 20%, to \$1,185 million, for the nine months ended September 30, 2009, compared to \$1,489 million for the nine months ended September 30, 2008. The decrease in employee compensation and benefits expense was attributable to a \$182 million reduction in incentive compensation primarily associated with the decrease in operating income and performance fees, a \$155 million decrease in salaries, benefits and commissions due to lower employment levels as a result of the Company's cost control efforts and outsourcing of Metric services, partially offset by a \$33 million increase in deferred compensation which is offset primarily by an increase in non-operating income related to appreciation on assets associated with certain deferred compensation plans. Employees at September 30, 2009 totaled 5,044 as compared to 6,262 (including 387 Metric employees) and 5,875 (excluding Metric employees) at September 30, 2008.

Portfolio Administration and Servicing Costs

Portfolio administration and servicing costs decreased \$84 million to \$371 million during the nine months ended September 30, 2009, compared to \$455 million for the nine months ended September 30, 2008. These costs include payments to Bank of America/Merrill Lynch under a global distribution agreement, and payments to PNC as well as other third parties, primarily associated with the administration and servicing of client investments in certain BlackRock products. The \$84 million decrease primarily related to lower levels of average AUM serviced by related parties across all asset classes and an increase in waivers within certain cash management funds, resulting in lower payments.

Portfolio administration and servicing costs for the nine months ended September 30, 2009 included \$277 million of costs attributable to Bank of America/Merrill Lynch and affiliates and \$14 million of costs attributable to PNC and affiliates as compared to \$359 million and \$24 million, respectively, in the nine months ended September 30, 2008. Portfolio administration and servicing costs related to other third parties increased \$8 million to \$80 million for the nine months ended September 30, 2009, as compared to \$72 million for the nine months ended September 30, 2008 due to an expansion of distribution platforms.

Amortization of Deferred Mutual Fund Sales Commissions

Amortization of deferred mutual fund sales commissions decreased \$21 million to \$76 million for the nine months ended September 30, 2009, as compared to \$97 million for the nine months ended September 30, 2008. The decrease in amortization of deferred mutual fund sales commissions was primarily the result of continued lower sales and redemptions in certain share classes of U.S. open-end mutual funds.

Other general and administration	91	77	14	18%
Total general and administration expenses	<u>\$ 505</u>	<u>\$ 593</u>	<u>\$ (88)</u>	(15)%

General and administration expenses decreased \$88 million, or 15%, for the nine months ended September 30, 2009 compared with the nine months ended September 30, 2008. The nine months ended September 30, 2009 included \$3 million, \$1 million and \$27 million of marketing and promotional, technology and professional services expenses, respectively related to the BGI Transaction. Excluding these expenses, general and administration expenses decreased \$119 million, or 20%, for the nine months ended September 30, 2009 compared to the nine months ended September 30, 2008.

Marketing and promotional expenses decreased \$76 million, or 59%, primarily due to a decline in travel and promotional expenses. Portfolio service costs decreased \$20 million, or 16%, to \$105 million, due to a reduction of AUM on certain products that BlackRock incurs fund related expenses. Technology expenses decreased \$15 million, or 16%, to \$78 million compared to \$93 million for the nine months ended September 30, 2008 primarily due to a decrease in software licensing/maintenance and technology consulting expenses. Professional services increased \$11 million, or 19%, to \$70 million compared to \$59 million for the nine months ended September 30, 2008 primarily related to legal, advisory and consulting costs incurred in connection with the BGI Transaction. Other general and administration expenses increased \$14 million, or 18%, to \$91 million from \$77 million, primarily related to an increase in balance sheet related foreign currency remeasurement and expenses for potentially uncollectible receivables, partially offset by a reduction of various expenses primarily the result of cost control efforts.

Restructuring Charges

For the nine months ended September 30, 2009 BlackRock recorded pre-tax restructuring charges of \$22 million, primarily related to severance, outplacement costs, occupancy costs and accelerated amortization of certain previously granted stock awards associated with a reduction in work force and reengineering efforts. See Note 11, Restructuring Charges, to the Company's condensed consolidated financial statements contained in Part I, Item 1 of this filing.

² Includes net gains/(losses) related to equity and fixed income investments and BlackRock's seed capital hedging program.

³ Includes non-controlling interests related to operating entities (non-investment activities).

Non-operating expense, less net income (loss) attributable to non-controlling interests, decreased \$84 million to \$45 million for the nine months ended September 30, 2009, as compared to \$129 million for the nine months ended September 30, 2008. The \$45 million non-operating expense, less non-controlling interests, related to the Company's co-investment and seed investments, included net losses in real estate products of \$111 million and other investments of \$11 million, partially offset by valuation gains in distressed credit/mortgage funds of \$79 million, investments related to deferred compensation plans of \$14 million, hedge funds/funds of hedge funds of \$9 million and private equity products of \$4 million. In addition, net interest expense was \$29 million, an increase of \$27 million primarily due to a decline in interest rates earned on cash equivalents and paid on its line of credit.

Table of Contents

Income Tax Expense

Income tax expense was \$225 million and \$394 million for the nine months ended September 30, 2009 and 2008, respectively. The effective income tax rate for the nine months ended September 30, 2009 was 26.7%, as compared to 35.0% for the nine months ended September 30, 2008. Excluding approximately \$45 million of tax benefits, related to legislation which was enacted with respect to New York City corporate income taxes and \$25 million of tax benefits primarily related to a favorable tax ruling and the final resolution of outstanding tax matters, the effective income tax rate for the nine months ended September 30, 2009 was 35.0%.

Operating Income and Operating Margin

GAAP

Operating income totaled \$889 million for the nine months ended September 30, 2009, which was a decrease of \$366 million compared to the nine months ended September 30, 2008. Operating income for the nine months ended September 30, 2009 included the impact of an \$815 million decrease in investment advisory and administration base fees, associated with a market driven reduction in average AUM for all asset classes for the nine months ended September 30, 2009 as compared to the nine months ended September 30, 2008, a \$77 million decrease in performance fees revenue, and a \$62 million reduction in other revenue and distribution fees, offset by a \$110 million increase in *BlackRock Solutions* and advisory revenue and a \$478 million decrease in operating expenses primarily due to declines in employee compensation and benefits, general and administration expenses and portfolio administration and servicing costs offset by \$22 million of restructuring charges.

The Company's operating margin was 28.2% for the nine months ended September 30, 2009, compared to 31.4% for the nine months ended September 30, 2008. The reduction in operating margin in 2009 as compared to 2008 included the impact of \$31 million of BGI Transaction costs, \$22 million of restructuring charges in first quarter 2009 and a \$32 million increase in foreign currency remeasurement costs.

As Adjusted

Operating income, as adjusted, totaled \$1,009 million for the nine months ended September 30, 2009, which was a decrease of \$283 million compared to the nine months ended September 30, 2008. The decline of operating income, as adjusted, for the nine months ended September 30, 2009 as compared to the nine months ended September 30, 2008 is related to the impact of the \$844 million decrease in total revenue offset by a \$561 million decrease in operating expenses due to decreases in employee compensation and benefits, general and administration expenses, portfolio administration and servicing costs and amortization of deferred mutual fund sales commissions.

Operating margin, as adjusted, was 37.4% and 37.9% for the nine months ended September 30, 2009 and 2008, respectively.

Operating income, as adjusted, and operating margin, as adjusted, are described in more detail in the Overview to Management's Discussion and Analysis of Financial Condition and Results of Operations.

Net income attributable to BlackRock, Inc. totaled \$619 million, or \$4.50 per diluted common share, for the nine months ended September 30, 2009, which was a decrease of \$113 million, or \$0.86 per diluted common share, compared to the nine months ended September 30, 2008.

Net income attributable to BlackRock, Inc. for the nine months ended September 30, 2009 included the after-tax impact of the portion of LTIP awards which will be funded through a capital contribution of BlackRock stock held by PNC of \$29 million, BGI transaction/integration costs of \$21 million, restructuring charges of \$14 million, and an expected contribution, a portion of which has been paid by Merrill Lynch in third quarter 2009 of \$4 million to fund certain compensation of former MLIM employees. In addition, net income for the nine months ended September 30, 2009 included a \$45 million one-time reduction in income tax expense as a result of enacted legislation primarily with respect to New York City corporate income taxes, which resulted in a revaluation of certain deferred income tax assets and liabilities.

Net income attributable to BlackRock, Inc. of \$732 million for the nine months ended September 30, 2008 included the after-tax impact of the portion of certain LTIP awards which will be funded through a capital contribution of BlackRock stock held by PNC of \$29 million and an expected contribution by Merrill Lynch of \$5 million to fund certain compensation of former MLIM employees, a portion of which has been received by BlackRock in third quarter 2009.

Exclusive of these items in both periods, diluted earnings per common share, as adjusted, of \$4.66 for the nine months ended September 30, 2009 decreased \$0.95, or 17%, compared to the nine months ended September 30, 2008. Diluted earnings per common share, as adjusted, is described in more detail in the Overview to Management's Discussion and Analysis of Financial Condition and Results of Operations.

Liquidity and Capital Resources

BlackRock Cash Flows Excluding the Impact of Consolidated Sponsored Investment Funds

In accordance with GAAP, certain BlackRock sponsored investment funds are consolidated into the condensed financial statements of BlackRock, notwithstanding the fact that BlackRock may only have a minority economic interest in these funds. As a result, BlackRock's condensed consolidated statements of cash flows include the cash flows of consolidated sponsored investment funds. The Company uses an adjusted cash flow statement, which excludes the impact of consolidated sponsored investment funds, as a supplemental non-GAAP measure to assess liquidity and capital requirements. The Company believes that its cash flows, excluding the impact of the consolidated sponsored investment funds, provide investors with useful information on the cash flows of BlackRock relating to our ability to fund additional operating, investing and financing activities. BlackRock's management does not advocate that investors consider such non-GAAP measures in isolation from, or as a substitute for its cash flow presented in accordance with GAAP.

Table of Contents

The following table presents a reconciliation of the Company's condensed consolidated statements of cash flows presented on a GAAP basis to the Company's condensed consolidated statements of cash flows, excluding the impact of the cash flows of consolidated sponsored investment funds:

<u>(Dollar amounts in millions)</u>	<u>Nine Months Ended</u> <u>September 30, 2009</u>

Cash and cash equivalents, end of period	\$ 2,763	\$ 52	\$ 2,711

Cash and cash equivalents, excluding cash held by consolidated sponsored investment funds, at September 30, 2009 increased \$740 million from December 31, 2008, primarily resulting from \$673 million of cash inflows from operating activities, \$11 million of cash inflows from financing activities, \$4 million of cash outflows from investing activities and a \$60 million increase due to the effect of foreign exchange rate changes.

Operating Activities

Sources of BlackRock's operating cash primarily include investment advisory and administration fees, revenues from *BlackRock Solutions* and advisory products and services and mutual fund distribution fees. BlackRock uses its cash to pay compensation and benefits, portfolio administration and servicing costs, general and administration expenses, interest on the Company's borrowings, purchase co-investments and seed investments, capital expenditures, income taxes and dividends on BlackRock's capital stock.

Net cash inflows from operating activities, excluding the impact of consolidated sponsored investment funds, for the nine months ended September 30, 2009, primarily include the receipt of investment advisory and administration fees and other revenue offset by the payment of operating expenses incurred in the normal course of business. Cash inflows from operating activities, excluding the impact of consolidated sponsored investment funds, in the nine months ended September 30, 2009 included cash payments related to 2008 year end incentive compensation that was paid in the first quarter.

Investing Activities

Cash outflows from investing activities, excluding the impact of consolidated sponsored investment funds, for the nine months ended September 30, 2009 primarily included \$241 million of net proceeds from sales and maturities of investments, \$50 million of return of capital from equity method investees, partially offset by a \$156 million contingent consideration payment to Quellos paid in the second quarter, \$83 million of purchases of investments and \$52 million of purchases of property and equipment.

Table of Contents

Financing Activities

Cash inflows from financing activities, excluding the impact of consolidated sponsored investment funds, for the nine months ended September 30, 2009 primarily included the receipt of \$300 million from equity raised in connection with the BGI Transaction and a \$25 million receipt of a Merrill Lynch capital contribution in the second quarter, partially offset by \$316 million of payments for quarterly cash dividends.

Capital Resources

The Company manages its financial condition and funding to maintain appropriate liquidity for the business. Capital resources at September 30, 2009 and December 31, 2008 were as follows:

<u>(Dollar amounts in millions)</u>	<u>September 30,</u>	<u>December 31,</u>	<u>Variance</u>

¹ The Company may not be able to access such cash to use in its operating activities.

² Partially met with cash and cash equivalents.

³ Excludes \$129 million of undrawn amounts at September 30, 2009 and December 31, 2008 related to Lehman Commercial Paper, Inc.

In addition, a significant portion of the Company's \$848 million of net economic investments are illiquid in nature and, as such, may not be readily convertible to cash.

Investment/Loan Commitments

At September 30, 2009, the Company had \$286 million of various capital commitments to fund sponsored investment funds primarily for co-investment purposes. Generally, the timing of the funding of capital commitments is uncertain and such commitments could expire before funding. The Company intends to make additional capital commitments from time to time to fund additional investment products for, and with, its clients.

During the nine months ended September 30, 2009, approximately \$174 million of loans outstanding were repaid from a warehouse entity established for certain private equity funds of funds.

Table of Contents

At September 30, 2009, the Company was committed to provide financing of up to \$60 million, until March 2010, to Anthracite Capital, Inc. (“Anthracite”), a specialty commercial real estate finance company that is managed by a subsidiary of BlackRock. The financing is collateralized by Anthracite pledging its ownership interest in a real estate debt investment fund which is also managed by BlackRock. At September 30, 2009, \$33.5 million of financing was outstanding which matured in October 2009. Upon maturity, Anthracite rolled over the borrowings to January 2010. At September 2009, the value of the collateral was estimated to be \$28.5 million, which resulted in a reduction in due from related parties on the Company’s condensed consolidated statement of financial condition of \$5 million and an equal amount recorded in general and administration expense in the three months ended June 30, 2009. Based on the value of the collateral and the borrowings outstanding at such date, the Company has no obligation to lend additional amounts to Anthracite under this facility. The Company continues to evaluate the collectability of the outstanding borrowings by reviewing the assets and liabilities of the underlying collateral, as well as the fair value of the net assets of the collateral which fluctuates each period. The Company has granted waivers for certain breaches of financial covenants of Anthracite’s credit facility.

On October 28, 2009, the Company and Anthracite entered into an amendment to the financing providing that interest shall be payable only to the extent of cash flow from the collateral and only if there is no default or event of default under Anthracite’s senior secured facilities. All accrued but unpaid interest and fees are payable on the final maturity date.

Short-Term Borrowings

2007 Facility

In August 2007, the Company entered into a five-year \$2.5 billion unsecured revolving credit facility (the “2007 facility”). The 2007 facility requires the Company not to exceed a maximum leverage ratio (ratio of net debt to EBITDA, where net debt equals total debt less domestic unrestricted cash) of 3 to 1, which was satisfied with a ratio of less than 0.5 to 1 at September 30, 2009. At September 30, 2009, the Company had \$200 million outstanding under the 2007 facility with an interest rate of 0.43% and a maturity during November 2009. Lehman Commercial Paper, Inc. has a \$140 million participation under the 2007 facility; however, BlackRock does not expect that Lehman Commercial Paper, Inc. will honor its commitment to fund additional amounts. Bank of America, a related party, has a \$140 million participation under the 2007 facility.

Commercial Paper Program

On October 14, 2009, BlackRock established a commercial paper program (the “Program”) under which the Company may issue unsecured commercial paper notes (the “Notes”) on a private placement basis up to maximum aggregate amount outstanding at any time of \$3 billion. The proceeds of the commercial paper issuances will be used for general corporate purposes, including the financing of a portion of the BGI Transaction. Amounts available under the Program may be reborrowed. Subsidiaries of Bank of America and Barclays, as well as other third parties, will act as dealers under the Program.

The Company began issuance of Notes under the Program on November 4, 2009. As of November 5, 2009, BlackRock had \$525 million of outstanding Notes with a weighted average interest rate of 0.17%, and weighted maturity of 51 days.

Japan Commitment-line

In June 2009, BlackRock Japan Co., Ltd., a wholly owned subsidiary of the Company, renewed its five billion Japanese yen commitment-line agreement (the “Japan Commitment-line”) for a term of one year. The Japan Commitment-line is intended to provide liquidity flexibility for operating requirements in Japan. At September 30, 2009, the Company had no borrowings outstanding under the Japan Commitment-line.

Convertible Debentures and Long-Term Borrowings

On February 15, 2009, the convertible debentures became convertible at the option of the holder into cash and shares of the Company's common stock at any time prior to maturity. Between February 15 and September 30, 2009, holders of \$2 million of debentures elected to convert their holdings into cash and shares. In addition, during October 2009, holders of \$5 million debentures elected to convert their holdings into cash and shares.

At September 30, 2009, convertible debentures and long-term borrowings were \$943 million. Debt service and repayment requirements, assuming the Company's 2.625% convertible debentures due 2035 (the "convertible debentures") are converted for cash equal to the principal at the option of the holders in fourth quarter 2009, are \$248 million for the remainder of 2009 and \$44 million in each of 2010, 2011, 2012 and 2013.

Contingent Payments Related to Quellos Transaction

On October 1, 2007, the Company acquired the fund of funds business of Quellos. As part of this transaction Quellos is entitled to receive two contingent payments upon achieving certain investment advisory revenue measures through December 31, 2010, totaling up to an additional \$969 million in a combination of cash and stock. The first contingent payment, of up to \$374 million, was paid in second quarter 2009 and the second payment, of up to \$595 million is payable in cash in 2011.

During second quarter 2009, the Company determined the first contingent payment to be \$219 million, of which \$11 million was previously paid in cash during 2008. Of the remaining \$208 million, \$156 million was paid in cash and \$52 million was paid in common stock, or approximately 330,000 shares converted at a price of \$157.33. Quellos may also be entitled to a "catch-up" payment if certain performance measures are met in 2011 as the value of the first contingent payment was less than \$374 million.

BGI Transaction

In June 2009, BlackRock announced that Barclays PLC accepted its offer to acquire BGI from Barclays. The price consideration consists of \$6.6 billion in cash, subject to certain adjustments, and a capital stock sale of approximately 37.8 million common and participating preferred shares to Barclays, subject to certain adjustments, which would give Barclays approximately a 19.9% economic stake in BlackRock. The cash portion of the deal will be financed by \$800 million from cash currently held by BlackRock, a new \$2 billion credit facility, which is expected to ultimately be replaced with term debt, \$1 billion of additional short term debt, and \$2.8 billion of capital proceeds from the sale of 19.9 million common shares and participating preferred shares to a group of institutional investors, of which \$300 million from the sale of 2.1 million common shares was received prior to June 30, 2009. The BGI Transaction is anticipated to close on December 1, 2009, pending regulatory approvals and the satisfaction of other customary closing conditions.

Support of Two Enhanced Cash Funds

In December 2007, BlackRock entered into capital support agreements with the two funds, backed by letters of credit drawn under BlackRock's existing credit facility. Pursuant to the capital support agreements, BlackRock agreed to make subsequent capital contributions to the funds to cover realized losses, up to \$100 million, related to specified securities held by the funds. In December 2008, BlackRock's maximum potential obligation under the capital support agreements was reduced to \$45 million, and in 2009, both capital support agreements were terminated, due to the closure of the related funds. BlackRock provided approximately \$3 million of capital contributions to these funds for the six months ended June 30, 2009 under the capital support agreements.

BlackRock holds debt securities it received in lieu of its remaining investment in one fund and securities it directly purchased from both enhanced cash funds prior to the closure of the funds. At September 30, 2009, the carrying value of the remaining debt securities was \$28 million, of which \$15 million matured in October 2009.

In applying the provisions of ASC 810-10, BlackRock concluded that it was the primary beneficiary of the two enhanced cash funds at December 31, 2008, which resulted in consolidation of the funds on its condensed consolidated statements of financial condition.

Net Capital Requirements

The Company is required to maintain net capital in certain jurisdictions, which is met in part by retaining cash and cash equivalents in those jurisdictions. As a result, the Company may be restricted in its ability to transfer cash between different jurisdictions. Additionally, transfers of cash between international jurisdictions, including repatriation to the United States, may have adverse tax consequences that could discourage such transfers. At September 30, 2009, the Company was required to maintain approximately \$196 million in net capital at these subsidiaries and is in compliance with all applicable regulatory minimum net capital requirements.

Critical Accounting Policies

The preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ significantly from those estimates. In addition to Fair Value Measurements, discussed below, see Note 2, Significant Accounting Policies, to the Company's condensed consolidated financial statements contained in Part I, Item 1 of this filing and the Company's Significant Accounting Policies in Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Current Report on Form 8-K, which was filed with the Securities and Exchange Commission on September 17, 2009, which updated the financial information in the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

Fair Value Measurements

BlackRock reports its investments on a GAAP basis, which includes investment balances which are owned by sponsored investment funds that are deemed to be controlled by BlackRock in accordance with GAAP and therefore are consolidated even though BlackRock may not own a majority of such funds. As a result, management reviews its investments on an "economic" basis, which eliminates the portion of investments that do not impact BlackRock's book value. BlackRock's management does not advocate that investors consider such non-GAAP measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP.

The following table represents investments measured at fair value on a recurring basis at September 30, 2009:

<u>(Dollar amounts in millions)</u>	<u>Quoted Prices in Active Markets for Identical Assets (Level 1)</u>	<u>Significant Other Observable Inputs (Level 2)</u>	<u>Significant Unobservable Inputs (Level 3)</u>	<u>Other Investments Not Held at Fair Value⁽³⁾</u>	<u>Investments at September 30, 2009</u>
Total investments, GAAP	\$ 217	\$ 64	\$ 722	\$ 38	\$ 1,041
Net assets for which the Company does not bear "economic" exposure ⁽¹⁾	(23)	—	(170)	—	(193)
Net "economic" investments ⁽²⁾	<u>\$ 194</u>	<u>\$ 64</u>	<u>\$ 552</u>	<u>\$ 38</u>	<u>\$ 848</u>

⁽¹⁾ Consists of net assets attributable to non-controlling investors of consolidated sponsored investment funds.

⁽²⁾ Includes BlackRock's portion of cash and cash equivalents, other assets, accounts payable and accrued liabilities, and other liabilities that are consolidated from sponsored investment funds.

⁽³⁾ Comprised of equity method investments, which include investment companies, and other assets which in accordance with GAAP are not accounted for under a fair value measure. In accordance with GAAP, certain equity method investees do not account for both their financial assets and financial liabilities under fair value measures, therefore the Company's investment in such equity method investees may not represent fair value.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As a leading investment management firm, BlackRock devotes significant resources across all of its operations to identifying, measuring, monitoring, managing and analyzing market and operating risks, including the management and oversight of its own investment portfolio. The Board of Directors of the Company has adopted guidelines for the review of investments to be made by the Company, requiring, among other things, that all investments be reviewed by the Company's Capital Committee, which consists of senior officers of the Company, and that certain investments may be referred to the Audit Committee or the Board of Directors depending on the circumstances for approval.

AUM Market Price Risk

BlackRock's investment management revenues are primarily comprised of fees based on a percentage of the value of AUM and, in some cases, performance fees expressed as a percentage of the returns realized on AUM. At September 30, 2009, the majority of our investment advisory and administration fees were based on average or period end AUM of the applicable mutual funds or separate accounts. Movements in equity market prices, interest rates/credit spreads, foreign exchange rates, or all three could cause the value of AUM to decline, which would result in lower investment advisory and administration fees.

Corporate Investments Portfolio Risks

In the normal course of its business, BlackRock is exposed to equity market price risk, interest rate/credit spread risk and foreign exchange rate risk associated with its corporate investments.

BlackRock has investments primarily in sponsored investment products that invest in a variety of asset classes including real estate, private equity and hedge funds. Investments generally are made for co-investment purposes, to establish a performance track record or to hedge exposure to certain deferred compensation plans. Currently, the Company has a seed capital hedging program in which it enters into total return swaps to hedge exposure to certain equity investments. At September 30, 2009, the outstanding total return swaps had an aggregate notional value of approximately \$34 million.

At September 30, 2009, approximately \$444 million of BlackRock's total investments were maintained in sponsored investment funds that are deemed to be controlled by BlackRock in accordance with GAAP and therefore are consolidated even though BlackRock may not own a majority of such funds. Excluding the impact of investments made to hedge exposure to certain deferred compensation plans and certain equity investments that are hedged via the seed capital hedging program, the Company's net economic exposure to its investment portfolio is as follows:

(Dollar amounts in millions)	September 30,	December 31,	Variance	
	2009	2008	Amount	% Change
Total investments, GAAP	\$ 1,041	\$ 1,429	\$ (388)	(27)%
Investments held by consolidated sponsored investment funds	(444)	(728)	284	39%
Net exposure to consolidated investment funds	251	310	(59)	(19)%
Total net "economic" investments	848	1,011	(163)	(16)%
Deferred compensation investments	(67)	(59)	(8)	(14)%
Hedged investments	(34)	(49)	15	31%
Total net "economic" investment exposure	\$ 747	\$ 903	\$ (156)	(17)%

Table of Contents

The net “economic” investment exposure of the portfolio is presented in either the market price or the interest rate/credit spread risk disclosures below:

Market Price Risk

At September 30, 2009, the Company’s net exposure to price risk in its investment portfolio was approximately \$442 million of the Company’s net economic investment exposure. Investments that are subject to market price risk include public equity and real estate investments as well as certain hedge funds. The Company estimates that a 10% adverse change in market prices would result in a decrease of approximately \$44 million in the carrying value of such investments.

Interest Rate/Credit Spread Risk

At September 30, 2009, the Company was exposed to interest-rate risk and credit spread risks as a result of approximately \$305 million of investments in debt securities and sponsored investment products that invest primarily in debt securities. Management considered a hypothetical 100 basis point fluctuation in interest rates or credit spreads and estimates that the impact of such a fluctuation on these investments, in the aggregate, would result in a decrease, or increase, of approximately \$3 million in the carrying value of such investments.

Foreign Exchange Rate Risk

As discussed above, the Company invests in sponsored investment products that invest in a variety of asset classes. The carrying value of the net economic investment exposure denominated in foreign currencies, primarily the Euro, British pound sterling, Korean won and Australian dollars, was \$70 million. A 10% adverse change in foreign exchange rates would result in approximately a \$7 million decline in the carrying value of such investments.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Under the direction of BlackRock’s Chief Executive Officer and Chief Financial Officer, BlackRock evaluated the effectiveness of its disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d—15(e) under the Exchange Act) at September 30, 2009. Based on this evaluation, BlackRock’s Chief Executive Officer and Chief Financial Officer have concluded that BlackRock’s disclosure controls and procedures were effective at September 30, 2009.

Internal Control and Financial Reporting

There have been no changes in internal control over financial reporting during the quarter ended September 30, 2009 that have materially affected, or are reasonably likely to materially affect, such internal control over financial reporting.

Total	<u>6,145</u>	<u>\$ 186.98</u>	<u>—</u>	<u>751,400</u>

¹ Reflects purchases made by the Company primarily to satisfy income tax withholding obligations of employees related to the vesting of certain restricted stock or restricted stock unit awards. All such purchases were made outside of the publicly announced share repurchase program.

² On August 2, 2006, the Company announced a 2.1 million share repurchase program with no stated expiration date. An additional indeterminate number of shares may be repurchased under the 2002 Long-Term Incentive Plan ("2002 LTIP").

Section 5: EX-32.1 (SECTION 906 CERTIFICATION OF CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER)

Exhibit 32.1

Certification of CEO and CFO Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

In connection with the Quarterly Report on Form 10-Q of BlackRock, Inc. (the "Company") for the quarterly period ended September 30, 2009 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), Laurence D. Fink, as Chief Executive Officer of the Company, and Ann Marie Petach, as Chief Financial Officer of the Company, each hereby certifies, pursuant to 18 U.S.C. § 1350, as adopted pursuant to § 906 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
